QUARTERLY JOINT-USE PROGRAM FUND RELEASE STATUS REPORT

PURPOSE OF REPORT

To update the State Allocation Board (Board) on the status of fund release requests for recent School Facility Program (SFP) Joint-Use apportionments.

DESCRIPTION

Per Board direction, this item provides the fund release status of three Joint-Use projects that were apportioned at the June 27, 2012 Board meeting, under the traditional 18 month time limit to request a fund release. An additional Joint-Use project is scheduled to receive a reduced Apportionment at the October 24, 2012 Board meeting.

AUTHORITY

SFP Regulation Section 1859.90 states, "…a district must submit the Form SAB 50-05, within 18 months of the Apportionment of the SFP grant for the project or the entire New Construction Adjusted Grant, Modernization Adjusted Grant or Type I or II, part of a qualifying SFP Modernization project, Joint-Use Project apportionment shall be rescinded without further Board action, and the pupils housed in the project, if applicable, will be added back to the district's baseline eligibility...."

BACKGROUND

On April 25, 2012, the Board approved the use of $4.5 million of Class Size Reduction Kindergarten-University Public Education Facilities Act of 1998 (Proposition 1A) funds for the Joint-Use program. This is in addition to the $600,000 in existing Joint-Use funding that was available and left $5.1 million available to fund Joint-Use projects.

At the June 27, 2012 meeting, the Board approved apportionments for three Joint-Use projects totaling $4,563,026. In addition, the Board made the remaining Joint Use funding totaling $536,974 available for the next Joint-Use project in line. If the funds were refused, then it would be offered to the next project in line until a project accepted the funding.

The Board requested that Staff provide quarterly updates on the status of the fund release liquidation for these projects.

STAFF ANALYSIS

The following projects received apportionments at the June 27, 2012 Board meeting.

District	School	Application Number	State Share	Fund Release Requested As of 9/10/2012
Redondo Beach Unified	Adams Middle School	52/75341-00-001	$1,500,000	Yes
Alameda Unified	Academy of Alameda (Chipman Middle School)/Base/Island HS Cont.	52/61119-00-001	$2,000,000	Yes
Santee School District	Pepper Drive Elementary	52/68361-00-029	$1,063,026	No

(Continued on Page Two)

STAFF ANALYSIS/STATEMENTS (cont.)

Redondo Beach Unified has elected to receive a reduced apportionment using the remaining $536,974 in Joint-Use funds for application number 52/75341-00-002. The project will be included as part of the October 24, 2012 consent agenda. The District's fund release status will be included as part of future Joint-Use fund release status reports.

RECOMMENDATION

Acknowledge this report.

SCHOOL FACILITY PROGRAM REVIEW

PURPOSE OF REPORT

To present the State Allocation Board (Board) with discussion topics for School Facility Program (SFP) related improvements.

DESCRIPTION

Since the inception of the SFP in 1998, the Board has allocated over $32 billion to public school construction. In recent meetings, Board members have expressed an interest in discussing various aspects of the program in greater detail in order to consider potential program-related improvements. This item introduces those topics previously discussed by Board members.

BACKGROUND

The Lease-Purchase Program and the SFP

The Lease-Purchase Program (LPP) preceded the SFP as California's K-12 public school facility funding program. The LPP was in place from 1976 to 1998. In 1998, the SFP was established to improve upon the LPP by streamlining the State's review process and giving school districts more local control than they had under the LPP. Below, the program elements of the LPP and the SFP are listed side-by-side to demonstrate the differences between the two programs.

LPP	SFP
1. Each project phase required review (planning, site, and construction) and Board approval. More upfront program requirements;	1. Typically only one grant apportionment made by the Board that is considered full and final per Statute. Less upfront program requirements;
2. Very few self-certifications required prior to funding;	2. Approximately 65 self-certifications for eligibility and funding applications;
3. Grant agreements (Lease-Purchase Agreement) required;	3. No grant agreements required;
4. Savings returned;	4. Non-financial hardship districts allowed to keep savings. School districts with financial hardship status must return savings to the State;
5. Cost categories audited for both calculated and capped allowances. Example: Architect fees; and	5. A single grant apportionment is generally provided after self-certifications contained on a funding application is submitted with the exception of site acquisition and site development requests that require additional reviews.
6. Closeout audits required up to 100 percent review of expenditures.	6. The compliance review verifies program certifications and expenditures at the end of project. Limited requirements after project apportionment made.

(Continued on Page Two)

BACKGROUND (cont.)

The LPP had more State-level requirements and programmatic oversight than the SFP. The SFP process expedited the application review process and relied on district self-certifications. At the funding application and the funding request stages, districts self-certify approximately 65 different program requirements. By reviewing what has worked and not worked in the LPP and SFP, the Board could make improvements to the next school facility construction funding program in order to ensure sustainability, accountability, and still meet the needs of students and faculty attending public school facilities throughout the State.

In the last two years, Board members have expressed concerns on specific program areas. Staff presents the list below with a brief summary of the current process, the identified concern, and potential ways to address the issue.

1. Change of Scope
    - A request for change of scope is presented to the Board for approval when a district wants to change the construction plans after Board approval. The Board has considered requests for change of scope on several occasions. Based on individual circumstances, some have been approved and some have not. Change of scope has been discussed at the Implementation Committee and Staff has published general guidelines for what type of changes must be Board-approved. Board members have expressed the desire to have formally adopted guidelines to address scope change requests including Financial Hardship scope changes.

2. Financial Hardship Program
    - The financial hardship program assists school districts and county offices of education (COE) that are unable to contribute all or part of their required matching share to the project. Eligibility for financial hardship is based on a financial review completed by Staff in accordance with Statute and SFP regulations. Currently, all COEs automatically qualify for the financial hardship program. Concerns have been raised over this automatic qualification. The criteria used to determine if a district is eligible for financial hardship and the automatic qualification of a COE for financial hardship assistance could be reviewed to determine if modifications are needed.

3. Eligibility
    - Once new construction eligibility is established, a district typically may update it on a yearly basis to determine if the district has un-housed pupils. However, under the current process, a district could receive an unfunded approval in 2012 and not receive an apportionment until 2014 or later. If enrollment were declining, there may no longer be a need for the additional classrooms in 2014. A re-review of the new construction eligibility, similar to how a financial hardship re-review is completed, could be incorporated into the process to ensure that the State is providing funding to districts that can still justify the need for their project at the time of apportionment.

4. Construction Types (Portable vs. Permanent Grant Amounts)
    - In the LPP, two different amounts of funding were provided based on the construction materials used to build the facilities. A class “B” amount was used for concrete and steel facilities, while a class “D” amount was used for wood facilities. The class “B” amount was considerably more than the class “D” amount to provide additional funding for the increased construction material costs. A similar variation in costs could be considered for the grant amounts provided for the construction of permanent and portable (as defined in statute) facilities.

(Continued on Page Three)

BACKGROUND (cont.)

5. SFP Bond Funding for High Performance Attributes and Seismic Mitigation
    - Currently, funding provided to incentivize high performance attributes in school construction is accessed through a supplemental grant, while funding for seismic repair is a separate program. Board members have suggested incorporating funding for high performance and seismic repair into the base funding amount, rather than having supplemental grants or a separate program.

6. Reimbursement Projects
    - A District must submit an application for new construction funding prior to occupancy of any classroom in the project to be eligible for funding. For modernization, a project may qualify for funding as long as the contract for the work was awarded after August 27, 1998. Concerns have been raised as to whether this longer modernization reimbursement window of time should be limited for a modernization project to be eligible to seek reimbursement.

7. Program Efficiencies
    - The addition of new supplemental grants and specialized funding programs has created the need for new regulations making the SFP more complex. Eliminating or reducing the number of additional programs and supplemental grants could eliminate program complexity, streamline the SFP funding process and reduce paperwork.

8. New Procedures for Managing Approved Applications on the Unfunded List
    - In order to prioritize school construction projects and expedite funding to construction-ready projects, the Board established the priority funding process. This reduced the 18-month time limit to request a fund release to 90 days. Many projects have remained on the unfunded approvals list and have elected not to participate in the priority funding process. These projects reserve bond authority that could otherwise be awarded to construction-ready projects. The unfunded approval process could be reviewed to determine a methodology for a limiting the amount of time a project could remain on the unfunded list without participating in a priority funding round.

STAFF ANALYSIS/STATEMENTS

Many of these Board member topics are aimed at streamlining the application process, increasing accountability, and providing clearer program direction. These topics may require regulatory and/or statutory changes. The Board could make some modifications to the existing SFP in anticipation that the current SFP criteria will be used to administer a future program. As a second option, the Board could recommend statutory changes to the Legislature in advance of a future potential school facility construction funding program.

RECOMMENDATION

Seek direction on which topics the Board would like brought back to a future meeting for further discussion and action.
