REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, August 26, 2015

SEISMIC MITIGATION PROGRAM: SINGLE AGENCY PROJECT REVIEW

PURPOSE OF REPORT

To provide the State Allocation Board (Board) with information related to the consideration of a single agency review of SMP projects by the Division of the State Architect (DSA) and the Office of Public School Construction (OPSC) as a way to streamline the Seismic Mitigation Program (SMP) funding process.

DESCRIPTION

In February 2015, the Board directed Staff to bring back a discussion on the viability of a single agency review process for SMP projects. Based on the Education Code, the Department of General Services (DGS) is responsible for various aspects of SMP project approval. Under DGS, DSA and OPSC implement the various statutory requirements of school construction and funding based on each office's expertise and personnel. While OPSC and DSA are currently two separate offices, as one department, the offices can continue to work collaboratively to further refine and streamline the SMP project review process for applicant school districts. This item outlines each office's responsibilities and what steps are being taken to improve SMP project application processing.

AUTHORITY

See Attachment.

BACKGROUND

The Kindergarten-University Public Education Facilities Bond Act of 2006 (Proposition 1D), approved by California voters in 2006, provided up to $199.5 million in bond authority "for seismic repair, reconstruction or replacement, pursuant to Section 17075.10." EC Section 17075.10 further defined the criteria for the SMP to include "the most vulnerable school facilities that are identified as a Category 2 building, as defined in the report submitted pursuant to Section 17317 and determined by the department to pose an unacceptable risk of injury to its occupants in the event of a seismic event."

SMP Application Review Process

The application process for the SMP begins when a school district submits an eligibility application to DSA, and DSA provides confirmation that the district's building(s) are eligible for the program. Then, the district's design professional submits a report detailing how to mitigate the risk of building collapse in the event of a seismic event, either by rehabilitating the building or replacing it. To be considered a replacement project, the cost to rehabilitate must exceed fifty percent of the cost to replace it. DSA reviews the mitigation measures identified in the structural engineer's report, as well as the materials and construction components on the submitted cost estimate. If DSA concurs with the district's proposal, the district can submit completed plans and specifications to DSA. DSA then reviews the submittal to ensure building codes are met and to determine the minimum work required. If the plans meet building codes, DSA issues a Plan Approval letter.

During review of the funding application, OPSC verifies the cost of the DSA-approved minimum work to determine the eligible funding. If there are questions about the eligibility of specific project components, OPSC confers with DSA. After the OPSC has verified that the project meets all SFP requirements, the project application is presented to the Board for funding approval.

(Continued on Page Two)

BACKGROUND (cont.)

Program Status
While the program regulations have been in place since September 2007, funds still remain. As of June 30, 2015, $96.5 million in bond authority is available for new SMP projects. In fulfillment of the requirements of EC Section 17070.53, Staff presented a report to the Board and the Legislature in February 2015 that presented additional considerations for ways to increase participation in and to streamline the SMP application process. Following this report, the Board directed Staff to consider viability of a single agency review of SMP projects.

STAFF STATEMENTS/ANALYSIS

On examination of the statutory and regulatory requirements of the SMP, it is clear that DGS is charged with implementing both the construction oversight and funding components of the program. Under DGS, DSA and OPSC each implement components of the program relative to their respective expertise. While DSA and OPSC are currently staffed and have processes in place directly related to each office's area of expertise, the two will continue working together to more clearly define each office's role and to add opportunities for joint reviews in an effort to further streamline the process.

Role of DSA
Under DGS, DSA provides construction oversight for public K-12 school facilities in the state. DSA ensures public school construction complies with the state building codes and provisions of the Field Act. The Field Act contains additional requirements specifically for public school construction, including:

- Enhanced structural provisions for seismic safety.
- Drawings and specifications must be prepared by licensed design professionals.
- Continuous construction project oversight by inspectors certified and approved by DSA.
- Required verified reports from the project inspector, the design professional, testing and inspection laboratory, special inspectors hired by the owner, and contractors.

All school facility project plans, including SMP projects, must be approved by the DSA before a school district can enter into a construction contract. DSA's approval process consists of three phases: Plan Review, Construction Oversight, and closeout and certification. In addition, Government Code requires all public buildings in the State to be accessible to persons with disabilities and charges DSA with developing these requirements.

Role of OPSC
Education Code requires the Director of DGS to administer the Greene Act and provide assistance to the Board. On behalf of the Director of DGS, OPSC is charged with verifying that all applicant school districts meet specific criteria based on the type of funding being requested under the School Facility Program (SFP), including Seismic Mitigation Program funding. The OPSC processes and funds school facility construction grant applications and assists school districts throughout the life cycles of their projects. OPSC also performs closeout reviews of project expenditures and accounting and reconciliation functions. Additionally, OPSC provides administrative support for the Board including developing SFP Regulations for the Board's approval and preparing policies and procedures to carry out the mandates of the Board.

(Continued on Page Three)

STAFF STATEMENTS/ANALYSIS (cont.)

Unique Skills, Separate Roles

As described above, DSA and OPSC fulfill separate and distinct functions within DGS. DSA is the building standards entity whose focus is to verify compliance with current building codes with licensed staff to perform these functions. OPSC, on the other hand, is a funding entity that has analytical staff with skillsets appropriate to review applications for compliance with regulations and law related to funding. Although DSA and OPSC are separate offices, they operate cooperatively under DGS, each with unique expertise to serve the needs of school districts applying for SMP funding. DSA reviews SMP applications for compliance with the Field Act and Building Code and OPSC reviews funding applications for funding requirements. The compliance functions and the staff performing them are presented in the chart below.

DGS Office	Compliance Function	Duties	Staff Type
DSA	Field Act & CA Building Code Compliance	• Building Code Requirements • Construction Oversight • Field Act Compliance	• Structural Engineers • Architects • Fire and Life Safety Officers
OPSC	Funding Statutes & Regulations	• Statutory and Regulatory • Plan Review for Eligible Funding • Funding Requirements • Bond Accountability	• Analysts • Accountants • Auditors

Evolving Roles of DSA and OPSC for SMP Projects

For SMP projects, in addition to verifying Field Act compliance and California Building Code compliance, DSA provides confirmation of SMP eligibility, review and concurrence with the structural engineer's report, and verification that plans include only the minimum seismic mitigation construction work required to mitigate the health and safety threat. Review of minimum work required includes verification of any Fire and Life Safety and Accessibility work that may be required as a result of the seismic mitigation work. This review is not focused on what level of funding a project can qualify for. After DSA provides plan approval of an SMP project, OPSC reviews reported costs and quantities to determine grant amounts for which a project is eligible. Once these reviews are completed, OPSC prepares an item for the Board to approve for funding. The roles of each office are illustrated in the flow chart below.

DEPARTMENT OF GENERAL SERVICES

(Continued on Page Four)

STAFF STATEMENTS/ANALYSIS (cont.)

What Has Changed? Identifying and Approving the Minimum Work
The chart above reflects the most significant change in the SMP project review process, which is a clear delineation of the responsibility for identifying and approving the minimum work versus the funding.

Previously, plans and specifications submitted to DSA included all of the work being completed in a particular construction project at a site. This could be limited to only seismic mitigation work, or a combination of seismic mitigation work and other work not eligible for SMP funding, such as modernization, demolition and replacement of existing buildings and/or new construction work. In some cases, the DSA approval letter stated that additional work was included in the plans; however many times the DSA review was strictly related to verification of code compliance and did not separate all of the fundable work in the project. When the project arrived at OPSC for funding, OPSC staff performed a review of these same documents to determine the eligible costs for the minimum work. Such projects made defining the seismic mitigation work and any related fire and life safety and accessibility work, which would be eligible for SMP funding, very complex for OPSC staff. In order to resolve this issue, DSA's revised Procedure 08-03 document requires work to be separated into increments, or a delineation of work, of the submitted project plans to separate minimum required work from any additional work not related to seismic mitigation, which provides clearly identified DSA-approved minimum work when the project is submitted to OPSC for funding.

This requirement, along with OPSC's availability to provide consultation on SMP funding requirements, should result in DSA-approved plans and cost estimates that better reflect SMP-eligible minimum work, resulting in an OPSC review process that is focused on verification of eligible grants. OPSC and DSA have also begun working together on projects early in DSA's plan review process to clarify the aspects of a project's scope that would be eligible, or ineligible, for SMP funding. Open communication and consultation at this early stage is intended to support DSA identifying and reviewing only work that is eligible under the SMP.

In addition to OPSC providing guidance to DSA related to SMP funding requirements, DSA has been providing consultation to OPSC on a case-by-case basis for areas that are beyond OPSC's expertise; for example, to better understand what sorts of work and materials are reasonable and should be allowed as part of the minimum required seismic work. This is important because, in some cases, the minimum work in a project may require additional ancillary work, and these reasonable costs should be eligible for funding.

Ongoing and Planned Process Improvements
As reported in the February 2015 report to the Board, OPSC outreach efforts to school districts have expanded to include meetings at project sites where DSA, OPSC, school district personnel and their design professionals can meet and discuss potential projects during and/or before the design phase.

These meetings have also taken place during construction, which provide an opportunity for the district to better illustrate the challenges they may be facing that could affect funding. The meetings have also been successful in educating school districts about what is needed for DSA approval, as well as what would and would not be eligible for SMP funding. DGS is increasing the frequency of joint meetings to clarify expectations so that school districts are able to design their projects with eligible minimum work in mind, and so that there are no surprises during processing of a funding application and determination of funding amounts. Early outreach also aims to reduce instances of discrepancies between documents submitted to DSA for plan approval and documents submitted to OPSC for funding approval, which can result in additional review time.

(Continued on Page Five)

STAFF STATEMENTS/ANALYSIS (cont.)

Updated Program Guidelines
To further the goal of providing more unified guidance for the entire process of seeking plan approval and funding approval, OPSC is preparing updated SMP resource documents for school districts that will partner with the current DSA PR 08-03. The DSA and OPSC guidelines include links referring to each other throughout, making program resources more accessible to school districts.

Conclusion
While OPSC and DSA are unique offices with separate roles, we have the benefit of being part of the same department, which allows for a more collaborative process. OPSC and DSA will continue working together to better understand how we can work collaboratively to continually make improvements to the overall process, and will take the steps noted above to continue refining the application processes for the benefit of school districts.

RECOMMENDATION

Acknowledge this report.

This Report was acknowledged/accepted by the State Allocation Board on August 26, 2015.

AUTHORITY

Education Code (EC) Section 17070.15 states in part:

> The following terms, wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:
>
> …
>
> (f) "Department" means the Department of General Services.
>
> ....

EC Section 17070.20 states "The Director of General Services shall administer this chapter and shall provide assistance to the board as it requires."

EC Section 17072.30 states:

> (a) Subject to the availability of funds, and to the determination of priority pursuant to Section 17072.25, if applicable, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, and certification by the school district that the required 50 percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund, or will be expended by the district by the time the project is completed, in an amount at least equal to the proposed apportionment pursuant to this chapter, prior to release of the state funds.
>
> (b) This section is operative January 1, 2008.

EC Section 17070.50 states:

> The board shall not apportion funds to any school district, unless the applicant school district has certified to the board that the services of any architect, structural engineer, or other design professional for any work under the project have been obtained pursuant to a competitive process that is consistent with the requirements of Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 of the Government Code and has obtained the written approval of the State Department of Education that the site selection, and the building plans and specifications, comply with the standards adopted by the department pursuant to subdivisions (b) and (c), respectively, of Section 17251.

EC Section 17070.53 states:

> (a) The Office of Public School Construction shall report to the board and the Legislature by March 1, 2015, on efforts to streamline and speed up the award of seismic mitigation funds.
>
> (b) The report required to be submitted to the Legislature shall be submitted in accordance with Section 9795 of the Government Code.
>
> (c) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

EC Section 17074.16 states:

> (a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state's 60-percent share, and the school district has provided its 40-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 40-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.
>
> (b) This section shall apply only to an application that was filed after April 29, 2002.

EC Section 17075.10(a) states:

> A school district may apply for hardship assistance in cases of extraordinary circumstances. Extraordinary circumstances may include, but are not limited to, the need to repair, reconstruct, or replace the most vulnerable school facilities that are identified as a Category 2 building, as defined in the report submitted pursuant to Section 17317, determined by the department to pose an unacceptable risk of injury to its occupants in the event of a seismic event.

EC Section 17075.10(b)(2) states:

> Funds for the purpose of seismic mitigation work or facility replacement pursuant to this section shall be allocated by the board on a 50-percent state share basis from funds reserved for that purpose in any bond approved by the voters after January 1, 2006. If the board determines that the seismic mitigation work of a school building would require funding that is greater than 50 percent of the funds required to construct a new facility, the school district shall be eligible for funding to construct a new facility under this chapter.

EC Section 17280 states:

> (a) (1) The Department of General Services under the police power of the state shall supervise the design and construction of any school building or the reconstruction or alteration of or addition to any school building, if not exempted under Section 17295, to ensure that plans and specifications comply with the rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations, and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Nothing in this section shall be construed to allow a school district to perform work with its own forces in excess of the limitations set forth in Sections 17595 and 17599. In calculating the cost of any project of reconstruction or alteration of, or addition to, any school building for the purpose of determining the applicability of the rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations, the Department of General Services shall not include, as an element of that cost, any expenses of air-conditioning equipment or insulation materials for that building, or of installing the equipment or materials.
>
> (2) In the alternative, for a leased or purchased building, a school district may comply with this section by complying with Section 17280.5.
>
> (b) Whenever repairs due to fire damage, not including any damage caused by wind or earthquake, must be made to any school building previously approved by the Department of General Services, the approved plans and specifications used in the original work under then existing rules, regulations, and building standards may be used without modification, providing all other provisions of this article are carried out.
>
> (c) Notwithstanding any other provision of law, no school district shall be authorized to construct or reconstruct any school building, regardless of the source of funding, unless and until the governing board of the district, by resolution, has indicated the agreement of the district that any school building construction or reconstruction that exceeds those construction costs and allowable area standards or any allowable building area computed for an attendance area pursuant to Section 17041 shall, in the event of the district's subsequent application for state funding for school facility construction, be deducted from the allowable building area for which the district would otherwise have been eligible, which restriction shall not be subject to waiver or exception as otherwise may be provided by law.
>
> (d) If it is determined that, for any reason, a school district failed to comply with the requirement of this section, the district shall not be eligible for any additional building area pursuant to Section 17049 and may be denied any time priority established for the particular project pursuant to Section 17016.

EC Section 101012 (a)(1) states:

> Of the amount allocated under this paragraph, up to 10.5 percent [$199.5 million] shall be available for purposes of seismic repair, reconstruction, or replacement, pursuant to Section 17075.10.

APPEALS Received as of July 31, 2015			
Appeal Received Date	**District**	**Tentative SAB Date***	**Description**
9/15/2014	Desert Sands Unified School District/Riverside	TBD	District requests Seismic Mitigation Program grants that were denied by the Office of Public School Construction during the application review process.
10/8/2014	Long Beach Unified/ Los Angeles	TBD	District requests Seismic Mitigation Program replacement funding in order to rehabilitate an existing facility.
1/21/2015	Garvey Elementary School District/Los Angeles	10/2015	The District is requesting to adjust the amount of repayment owed as a result of the transfer of Special Education Local Plan Area Facilities that were constructed with an SFP Financial Hardship grant.
6/11/2015	Santa Ana Unified School District/Orange	10/2015	The District is requesting to retain savings from Overcrowding Relief Grant Projects for use on other high priority capital outlay projects.
6/25/2015	Palm Springs Unfied School District/Riverside	10/2015	District requests Seismic Mitigation Program replacement funding in order to rehabilitate an existing facility.
7/31/2015	Natomas Charter School/ Sacramento	11/2015	The Charter School is requesting expedited processing of a charter school funding application and/or an apportionment without participation in the Priority Funding process.
*Please note: Tentative SAB Date is not a guaranteed meeting date and may be subject to change.			

STATE ALLOCATION BOARD MEETING DATES

The State Allocation Board (SAB) meeting dates for the 2015 calendar year are as follows:

Board Date	Type of Meeting
September 8, 2015	Consent
October 28, 2015	Monthly (Consent/Appeals/Action)
December 9, 2015*	Monthly (Consent/Appeals/Action)

These are projected dates depending upon the discussion with the Vice-Chair and Chair based on workload.

The SAB meets in different rooms within the State Capitol at 4:00 p.m. when the State Legislature is in session and at 2:00 p.m. when the State Legislature is out on recess. Due to scheduling changes within the Legislature, some of the SAB meetings may be cancelled or changed with short notice.

* The date and time will be determined.

INFORMATION ITEM

SCHOOL FACILITY PROGRAM
NEW CONSTRUCTION AND MODERNIZATION UNFUNDED LIST
(as of July 14, 2015)

The New Construction and Modernization projects on this list have received an "unfunded" approval by the State Allocation Board (SAB). Note that an "unfunded" approval does not guarantee a future apportionment by the SAB.

Published monthly in the SAB Agenda.

This report is also on the OPSC Web site at:
www.dgs.ca.gov/opsc

SCHOOL FACILITY PROGRAM
APPLICATIONS RECEIVED BEYOND BOND AUTHORITY LIST
(as of July 31, 2015)

The applications on this list represent School Facility Program (SFP) New Construction and Modernization projects in date order received that were received on or after November 1, 2012 through July 31, 2015. These applications have been received, but not reviewed, by the Office of Public School Construction (OPSC). This list is presented to the State Allocation Board for acknowledgement, but not approval pursuant to SFP Regulation Section 1859.95.1.

Published monthly in the SAB Agenda.

This report is also on the OPSC Web site at:
www.dgs.ca.gov/opsc

SCHOOL FACILITY PROGRAM
OFFICE OF PUBLIC SCHOOL CONSTRUCTION FUNDING WORKLOAD LISTING
(Applications Received Through July 31, 2015)

The New Construction and Modernization projects on this list represent completed applications awaiting the Office of Public School Construction processing and scheduling to the State Allocation Board.

This list includes future workload that is identified as:

- Pending reflects workload that has been processed by the OPSC but awaiting further information/documentation from the district.
- Reviewing reflects currently being processed by the OPSC.

Pursuant to SFP Regulation Section 1859.95.1, this list also includes applications that were received, but not reviewed by the Office of Public School Construction (OPSC). This list is presented to the State Allocation Board for acknowledgement.

This list is also available on the Internet and is updated on the first and third Fridays of each month.
www.dgs.ca.gov/opsc

*The projects on this report only represents completed applications that are awaiting Office of Public School Construction (OPSC) processing and scheduling to the State Allocation Board. It does not reflect the Office of Public School Construction's complete workload or guarantee the project is within available bond authority.
** Includes Facility Hardship Non-Seismic applications.

This list includes future workload that is identified as:

- Pending reflects workload that has been processed by OPSC but awaiting further information/documentation from the district.
- Reviewing reflects currently being processed by OPSC.

INFORMATION ITEM

FINANCIAL HARDSHIP PROGRAM QUALIFYING CRITERIA

Regulation Section 1859.81. Financial Hardship.

Except for Joint-Use Projects and Career Technical Education Facilities Projects, a district is eligible for financial hardship to fund all or a portion of its matching share requirement after demonstrating the requirements of (a), (c), and (d) below:

(a) The district is financially unable to provide all necessary matching funds for an eligible project. To determine this, an analysis shall be made of the district's financial records by the OPSC including data and records maintained by the CDE and the County Office of Education. The analysis shall consist of a review of the district's latest Independent Audit regarding funds available from all capital facility accounts, including, but not limited to, developer fees, funds generated from capital facility certificates of participation, federal grants, redevelopment funds, sale proceeds from surplus property, the appraised value of facilities approved for replacement pursuant to Section 1859.82, bond funds either encumbered, unencumbered or authorized but unsold, and savings from other SFP projects. All funds thus identified that have not been expended or encumbered by a contractual agreement for a specific capital outlay purpose prior to the initial request for financial hardship status shall be deemed available as a matching contribution.

After the initial request for financial hardship status is granted, no further encumbrances will be approved by the OPSC and all prospective revenue made available to the district's capital facility accounts shall be deemed available as matching contribution on the subsequent financial hardship review, with the exception of:

(1) Approved interim housing expenditures.
(2) Funding to pay for previously recognized multi-year encumbrances approved at the initial financial hardship approval.
(3) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the Federal Renovation Program when the amount expended out of that fund does not exceed the maximum Federal Renovation Grant amount.
(4) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the School Facilities Needs Assessment Grant Program or Emergency Repair Program when the amount expended out of that fund does not exceed the maximum grant amount apportioned.
(5) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the Career Technical Education Facilities Program when the amount expended out of that fund does not exceed the applicant's share of the maximum grant amount apportioned.
(6) Funding that is transferred into a Special Reserve Fund and used for the express purpose of the Overcrowding Relief Grant when the amount expended out of that fund does not exceed the amount of the site acquisition and design costs of the project and the district has submitted an approved Form SAB 50-11.
(7) Funding that is used for the express purpose of reimbursing the State a proportionate share of financial hardship received when there has been a transfer of a special education program and title to the facility. In addition, the funding was used within five years of the title transfer.
(8) Funding to pay for obtaining a structural report pursuant to Section 1859.82 for an approvable and funded seismic mitigation project.
(9) All other capital facility funding for a period of three years when no subsequent financial hardship request is made during this period, with the exception of the funding identified in (6). The three-year period begins with the date of the most recent financial hardship new construction or modernization adjusted grant funding apportionment.

When Overcrowding Relief Grant funding is set aside pursuant to (6) and the School District has not submitted, or the OPSC has not accepted, a Form SAB 50-04 for an Overcrowding Relief Grant within three years from the date of deposit into the Special Reserve Fund, or the School District has not met the requirements in Sections 1859.90 or 1859.105, remaining funds plus interest accrued at the Pooled Money Investment Board rate at that

time period shall be deemed available as matching contribution on a subsequent financial hardship project or be captured through an audit adjustment pursuant to Section 1859.106.

The financial hardship analysis is subject to approval by the Board.

(b) From the funds deemed available as a matching contribution, the district may retain $19,776 per classroom in each enrollment reporting period for the cost to provide interim housing for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of classrooms needed for interim housing for the currently unhoused pupils shall be the sum of the positive numbers determined in (b)(7) as follows:

(1) Determine the current enrollment of the district by grade level as shown on the latest Form SAB 50-01.
(2) Determine the New Construction Grants apportioned by grade level for all SFP projects and LPP funded under the provisions of Sections 1859.12 or 1859.13 where the district has submitted Form SAB 50-06 indicating that the project is 100 percent complete.
(3) Subtract (b)(2) from (b)(1).
(4) Determine the number of classrooms by grade level reported in Part 1, Line 8 on Form SAB 50-02.
(5) Multiply the classrooms determined in (b)(4) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe.
(6) Subtract the product determined in (b)(5) from the difference determined in (b)(3) by grade level.
(7) Divide the difference by grade level determined in (b)(6) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

From the funds deemed available as a matching contribution, the district may also retain $19,776 per portable toilet unit in each reporting period for the cost to provide necessary interim toilet facilities for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of toilet facilities needed for interim housing shall be the sum of the positive numbers determined in (b)(7) divided by eight rounded up to the nearest whole number.

From the funds deemed available as a matching contribution, the district may also retain $19,776 per classroom in each reporting period for the cost to provide necessary interim housing for the currently unhoused pupils displaced as a result of a SAB approved seismic mitigation project pursuant to Section 1859.82. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of classrooms needed for interim housing shall be the quotient of the displaced pupils by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

If the district's available funds, as determined by the OPSC analysis less costs for interim housing, is less than its matching share, the district will be deemed to have met the requirements of this Subsection.

(c) The district has made all reasonable efforts to fund its matching share of the project by demonstrating it is levying the developer fee justified under law or an alternative revenue source equal to or greater than the developer fee otherwise justified under law at the time of request for hardship and the district meets at least one of the following:

(1) The current outstanding bonded indebtedness of the district issued for the purpose of constructing school facilities in accordance with Education Code Section 17072.35 or 17074.25 as appropriate, at the time of request for financial hardship status, is at least 60 percent of the district's total bonding capacity. Outstanding bonded indebtedness includes that part of general obligation bonds, Mello-Roos Bonds, School Facility Improvement District Bonds and certificates of participation which the district is paying a debt service that was issued for capital outlay school facility purposes.
(2) The district had a successful registered voter bond election for at least the maximum amount allowed under Proposition 39 within the previous two years from the date of request for financial hardship status. The proceeds from the bond election that represent the maximum amount allowed under the provisions of Proposition 39 must be used to fund the district's matching share requirement for SFP project(s).
(3) It is a County Superintendent of Schools.
(4) The district's total bonding capacity at the time of the request for financial hardship status is $5 million or less.
(5) Other evidence of reasonable effort as approved by the SAB.

If the district's request for financial hardship status is denied by the Board, the district may be deemed eligible for rental payments of $2,000 per year per classroom under the Emergency School Classroom Law of 1979 for a two year period when relocatable classroom buildings are available and the district provides financial documentation that it is unable to afford the full rental amount and any other information satisfactory to the Board that the rental reduction is necessary. The number of classrooms eligible for the $2,000 rental payments shall be the sum of the numbers determined in (c)(5)(B) as follows:

(A) Determine the number of pupils by grade level that the district requested a New Construction Grant on the Form SAB 50-04 that were denied financial hardship status.

(B) Divide the number by grade level determined in (c)(5)(A) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

(d) The district has not signed a contract for acquisition or construction of classrooms that replace existing facility(ies), which were included in the determination of the district's new construction eligibility pursuant to Education Code Section 17071.75, in a locally funded project during the five-year period immediately preceding the district's application for financial hardship assistance. This restriction may be lifted if the Board finds that unforeseen and extenuating circumstances existed that required the district to use local funds to replace the facility(ies).

(e) If the district meets the financial hardship requirements in this Section, the amount of financial hardship is equal to the district's matching share less funds deemed available in (a).

(1) Once a district has been notified by the OPSC that it meets the requirements of financial hardship in this Section, the district may file Form SAB 50-04 under the provisions of financial hardship anytime within a period of 180 calendar days from the date of the OPSC notification.

(2) If the district does not submit Form SAB 50-04 under the provisions of financial hardship within 180 calendar days of the OPSC notification of approval of financial hardship status, the district must re-qualify for financial hardship status under the provisions of this Section by submittal of a new request for financial hardship status.

(3) If the district submits Form SAB 50-04 within 180 calendar days of the OPSC notification of approval of financial hardship and the project(s) has been included on an unfunded list for more than 180 calendar days, a review of the district's funds pursuant to (a) will be made to determine if additional district funds are available to fund the district's matching share of the project(s).

Financial hardship approval status by the OPSC for a separate design and/or site apportionment does not apply to any subsequent funding for the project(s).

(f) If the district submits Form SAB 50-04 within 180 calendar days of the OPSC notification of approval of financial hardship and the project(s) has been included on the "Unfunded List (Lack of AB 55 Loans)" for more than 180 calendar days as a result of the State of California's inability to provide interim financing from the Pooled Money Investment Account (AB 55 loans), the Board may suspend the unfunded review requirement as defined in Regulation Section 1859.81(e). Projects added to any other unfunded list shall be subject to the review detailed in Regulation Section 1859.81(e). Regulation Section 1859.81(f) shall become inoperative July 1, 2011.

(g) A project added to an unfunded list on or after July 1, 2011 will be subject to the review detailed in section (e)(3). For projects added to an unfunded list between February 25, 2009 and June 30, 2011, only the district's financial records on or after July 1, 2011 will be considered in calculating any adjustment to the district's matching share.
