Increase your green and reportable State Agency Buy Recycled Campaign (SABRC) purchasing by buying Remanufactured Ink and Toner Cartridges. This contract is Environmentally Preferable (EPP), aka "green". Remanufactured cartridges reuse components from spent cartridges which result in reduced landfill disposal and lower purchasing costs. Remanufactured cartridges purchased through the Statewide Contracts are required to meet the same performance standards as new cartridges.

Visit the DGS Buying Green website for specific details on the EPP qualities of this contract. Details pertaining to the SABRC compliant line items can be found within the contract.
