

**Department of General Services**  
**Energy Efficient State Property Revolving Fund**  
**Annual Legislative Report January 1, 2021**

**Background**

The American Recovery and Reinvestment Act of 2009 (ARRA) provided funds to the U.S. Department of Energy (DOE) to make allocations to its existing programs. Subsequently, on June 25, 2009, the California Energy Commission (CEC), in its role as the DOE's state energy office in California, received \$226,093,000 for distribution under federal guidelines.

On July 28, 2009, Governor Schwarzenegger signed Assembly Bill 11 from the fourth extraordinary session of the 2009-10 session (ABX4 11), adding Chapter 5.7 to the Public Resources Code (PRC), and creating the Energy Efficient State Property Revolving Fund (Loan Fund). Under the terms of the statute, the CEC transferred \$25 million to the Department of General Services (DGS) to administer the Loan Fund and finance energy efficient retrofits at state facilities. Participating state agencies would use the savings realized through the retrofits to service their debt to the Loan Fund.

PRC Section 25473 requires DGS to provide the Legislature with an annual report on the projects identified and planned for each fiscal year.

**Fiscal Years 2009-10 through 2012-13**

To comply with ABX4 11, DGS utilized the pool of qualified energy services companies (ESCOs) established under the authority of Public Utilities Code Section 388 to implement energy efficiency measures at state facilities. The department allocated the original \$25 million to nine departments through 12 loans, funding 70 projects. During fiscal year 2012-13, the CEC initiated four transfers totaling \$2,630,725 of unutilized ARRA funds to supplement the Loan Fund. The table that follows lists the projects funded through the Loan Fund during fiscal years 2009-10 through 2012-13.
