RE: California 1122 Public Safety Procurement Program (CPSPP)

This Broadcast Bulletin announces the implementation of the California 1122 Public Safety Procurement Program (CPSPP) — also known as the 1122 Program.

This program establishes sources for non-IT commodities that have been competitively assessed, negotiated, or bid by the Federal General Services Administration (GSA). The program enables State departments with delegated purchasing authority granted by DGS to purchase equipment and supplies for Counter Drug, Homeland Security and Emergency Management activities from Federal GSA schedules. The California Governor's Office of Emergency Services (CalOES) has been appointed as the designated State Point of Contact (SPOC) to certify eligible State departments to participate in the program. The Department of General Services (DGS), Procurement Division, in conjunction with CalOES, is responsible for developing statewide procurement policies and procedures for this program.

In order to use the 1122 procurement method, departments must apply and become certified by the California Office of Emergency Services. [Click here](#) to access information for CalOES' 1122 program. Once certified by CalOES, departments must obtain delegated purchasing authority from DGS in the 1122 Public Safety Procurement Program category. This delegation will be indicated on the department's Purchasing Authority Approval Letter.

State departments are to refer to Chapter 6, Section G of Volume 2, of the State Contracting Manual for updated policies and procedures pertaining to this program.
