DSA SS/CC 04/21-1-1	<b>4-309(c)2</b>				Editorial revision of the word “modifications” to “work” to provide consistent and accurate use of terms in Part 1 and the California Existing Building Code (Part 10).	
DSA SS/CC 04/21-1-2	<b>4-309(c)2B</b>				Exception is repealed because it does not add value to the regulations, is inconsistent with the definition of “rehabilitation” in the regulations and has resulted in confusion among stakeholders.	
DSA SS/CC 04/21-1-3	<b>4-309(e)</b>				Title is added to section for consistency with other alphabetic subsections in this section. Reference pointer added to coordinate with proposed adoption on repair regulations in the California Existing Building Code (Part 10).

Amend sections listed below

Item Number 2	Code Section	CAC Action	Agency Response	Public Comments	Annotations	CBSC Action
DSA SS/CC 04/21-2	4-316(a)				Proposal clarifies the intent of the provision that plans, specifications and observation of the work of construction may be under the responsible charge of a professional engineer qualified to perform services and registered in that branch of engineering applicable to the work, whether that is a new project, addition, alteration, or repair, so long as that work doesn't involve architectural or structural work or changes.	

**CHAPTER 4 ADMINISTRATIVE REGULATIONS FOR THE DIVISION OF THE STATE ARCHITECT—STRUCTURAL SAFETY (DSA-SS), GROUP 1: SAFETY OF CONSTRUCTION OF PUBLIC SCHOOLS, ARTICLE 5: CERTIFICATION OF CONSTRUCTION**

Amend sections listed below

Item Number 3	Code Section	CAC Action	Agency Response	Public Comments	Annotations	CBSC Action
DSA SS/CC 04/21-3-1	4-330				Proposal clarifies the intent of the provision that construction commences on all school buildings within an approved project within four years or the approval is void for those school buildings which have not yet commenced construction. Given this proposed four-year rule, extensions no longer apply which also alleviates an unnecessary administrative burden. With the removal of extensions, it is necessary to add an exception permitting DSA to withdraw approval or institute post-approval requirements as necessary to address life-safety concerns in response to information received after approval of plans and before commencement of construction.	

Item Number 3	Code Section	CAC Action	Agency Response	Public Comments	Annotations	CBSC Action
DSA SS/CC 04/21-3-2	4-335(d)5				Clarifying requirements to provide DSA with test reports when requested.

DSA SS/CC 04/21-3-4	4-335.1(b)1				Correct term for AASHTO's laboratory assessment program is provided due to name change.	
DSA SS/CC 04/21-3-5	4-335.1(b)2				Clarifying a laboratory engineering manager is required for each facility providing services on DSA regulated projects.

DSA SS/CC 04/21-4-2	4-509				The revisions include the elimination of a fee for review of landscape plans and revisions to the self-certification form to include a provision that periodic site observations during construction will occur to ensure the landscape planting and irrigation work is completed in accordance with the requirements of the CALGreen Section 5.304 requirements for outdoor water use adopted by DSA-SS. This singular form is going to be used in lieu of two separate self-certification documents.
