Summary: Current law establishes the California Americans with Disabilities Act Small Business Capital Access Loan Program (ADA program), within the Capital Access Loan Program, to assist small businesses in financing the costs of projects that alter or retrofit existing small business facilities to comply with the federal Americans with Disabilities Act. This bill would modify the definition of a small business for purposes of the ADA program to instead mean a business that is independently owned and operated and not dominant in its field, and that has 30 or fewer full-time employees or that has less than \$5,000,000 in total gross annual income from all sources. The bill would thereby expand the types of businesses that qualify for funding under the ADA program.
