Proposed Building Standard

Title 24 Part #:
Section #: CBC 11A, sections 1136A.1, 1136A.2, 1138A.2, 1138A.3, 1142
Proposing State Agency: HCD
This comment is intended for review during: 45-Day Comment Period

Your recommendation based on the criteria of Health and Safety Code Section 18930(a):
Further Study Required

In support of your recommendation above, provide the rationale based on the criteria of Health and Safety Code Section 18930(a). If you recommend anything other than approve, cite the criteria in your comment. If you oppose a proposed building standard, offer a solution or alternative for the state agency to consider.

1. Item 6 of the initial statement of reasons addresses the depth of obstructed reach range. Have there been any studies that recommend also lowering the receptacle / switch heights to accommodate the deeper obstruction? We suggest a consideration to lower the obstructed high forward and side reach of 1138A.3.1 to 42" unless studies suggest otherwise.

Thank you
