Your recommendation based on the criteria of Health and Safety Code Section 18930(a):
Approve

In support of your recommendation above, provide the rationale based on the criteria of
Health and Safety Code Section 18930(a). If you
recommend anything other than approve, cite the criteria in your comment. If you oppose a
proposed building standard, offer a solution or alternative for the state agency to consider.

We would like to express our strong support for the joint HCD/DSA proposed amendments in HCD Item 1 Sec. 202 – "Public Housing" and DSA Item 2.09 Ch. 2 Sec. 202 – "Public Housing." This revised definition is the product of many years of work by the Division of the State Architect, HCD, the housing development community, the code enforcement community, and the disability advocacy community. It accomplishes several important goals, including 1) bringing the CBC into full compliance with the ADA standards, as mandated by state and federal law; 2) providing much needed clarity to the code enforcement and housing development community; and 3) ensuring accessibility for people with disabilities.
