Summary of Existing Regulations

The existing 2019 California Electric Code is a part of the California Code of Regulations, Title 24, also referred to as the California Building Standards Code and incorporates, by adoption, by the California Building Standards Commission, the 2020 National Electric Code (NEC) of the National Fire Protection Association (NFPA) with BSC and/or BSC-CG amendments, as applicable, for state owned buildings & buildings constructed by the University of California and California State Universities.

Summary of Effect

This proposed action will make effective the 2020 NEC of NFPA with necessary amendments to state owned buildings and to all occupancies identified pursuant to Health and Safety Code 18938, 180 days after the publication of the next triennial edition of the California Electrical Code (CEC). This proposed action by the California Building Standards Commission will also make the 2019 CEC, inoperative for state owned buildings, and for persons applying for a building permit upon the effective date of the next triennial edition of the CEC.
