INFORMATIVE DIGEST

Reference: Government Code Section 11346.5(a)(3).

Summary of Existing Laws

Sections 16000-16023 of the Health & Safety Code are known and cited as the Essential Services Buildings Seismic Safety Act of 1986. Section 16022 of the Health & Safety Code authorizes the State Architect to establish building standards for state-owned and state-leased essential services buildings.

Health and Safety Code, Section 18949.1, transfers the responsibilities of DSA to adopt regulations relating to building standards, to the California Building Standards Commission.

Sections 17280-17317 and 81130-81147 of the Education Code are known and cited as the "Field Act". Sections 17310 and 81142 of the Education Code authorize the State Architect to establish building standards for public elementary and secondary schools, and community colleges.

Sections 81052 and 81053 of the Education Code authorize the State Architect to establish building standards which a community college may elect to use in lieu of those standards promulgated in accordance with Education Code section 81142.

Summary of Existing Regulations

Existing building standards which prescribe the design and construction requirements for the repair, alternation, addition, and change of occupancy to existing state-owned or state-leased essential services buildings, public elementary and secondary schools, and community colleges are promulgated by the Division of the State Architect. These regulations are contained in title 24, part 10, California Existing Building Code.

Summary of Effect

The proposed action would adopt California Code of Regulations, title 24, part 10, by adopting the most recent edition of the selected model building code (International Existing Building Code (IEBC), 2021 edition) and carrying forward existing amendments. In addition to editorial and clarifying updates, the proposed action will:

- Adopt selected model code definitions and remove extraneous amendment definitions: Amendment definitions in Chapter 3 have been relocated to Chapter 2 as appropriate for consolidation and consistency, and removed where found to be contradictory, redundant or extraneous.
- Amendments are added to coordinate part 10 requirements with continuing regulations in the Chapter 4 of Part 1 (California Administrative Code) as well as ASCE 7 & ASCE 41.
