Proposed Building Standard

Title 24 Part #: Part 5
Section #: Section 422.2
Proposing State Agency: Building Standards Commission and DSA
This comment is intended for review during: 45-Day Comment Period

Your recommendation based on the criteria of Health and Safety Code Section 18930(a):
Further Study Required

In support of your recommendation above, provide the rationale based on the criteria of Health and Safety Code Section 18930(a). If you recommend anything other than approve, cite the criteria in your comment. If you oppose a proposed building standard, offer a solution or alternative for the state agency to consider.

Remove the reference to required Privacy Compartments in multi stall all gender restrooms. K-12 schools fall under the jurisdiction of DSA and District's are concerned about installing floor to ceiling partitions in multi stall restrooms due to the lack of supervision for each of the stalls/compartment. Instead, allow each District to determine the appropriate amount of privacy for the toilet and urinal stalls for multi stall all gender restrooms. An additional concern is the ability to adequately clean the individual compartments in the custodian's allotted time, if the walls are attached to the ground and there is no gap between.
