Concurrent with this notice, the Energy Commission has published modifications to the proposed voluntary Standards in Title 24, Part 11. The modifications are known as the 15-day language and are the proposed revisions to the voluntary standards that the Energy Commission will consider adopting.

Agenda

Notice is hereby given that the Energy Commission proposes to adopt revisions to the voluntary standards in the California Code of Regulations, Title 24, Part 11. The proposed amended voluntary standards are published as CALGreen Appendices 4.2

and 5.2 and would go into effect on January 1, 2020, following approval of the California Building Standards Commission.

Background

On January 19, 2018, the Energy Commission published a Notice of Proposed Action (NOPA) regarding these proposed revisions to CALGreen. In the NOPA, the Energy Commission specified a 45-day public comment period ending on March 5, 2018, and listed March 21, 2018, as a potential adoption date for the proposed language.

Staff has considered comments submitted during the 45-day public comment period and have made substantive and sufficiently related changes to the draft express terms based on these comments. The Energy Commission is therefore releasing a revision of the draft express terms for 15-day public review and comment, and continuing the public hearing for adoption on the date specified in this notice, consistent with the above.

The 15-day language and related documents can be obtained from the contact persons designated below or from the Energy Commission website at <http://www.energy.ca.gov/title24/2019standards/rulemaking/documents/>.

Should the Energy Commission determine that substantial and sufficiently related changes to the 15-day language are needed, this item will be continued to a future public hearing, a revised set of 15-day language documents will be prepared, and a future public hearing will be separately noticed.
