Executive Director Jemmott stated the budget is fully expended for this fiscal year.
Chair Leemhuis suggested making a separate line item to track what is needed and what has been used.

Commissioner Dolim asked where the fundraising and the expenses for the event in Los Angeles are listed in the financial statements. Commissioner Wilson stated the donations came as a response to outreach.

Commissioner Dolim asked if the Commission is responsible for the accounting of donations and if there needs to be a line item for them.

Chair Leemhuis stated the breakdown was listed in the financial statements at the time of the event. There will be a section created within an existing line item for donations and event expenses.

Executive Director Jemmott agreed that the donation and expenses incurred during the Los Angeles event should have been included in the yearend financial statements. She stated she will update the report.
Commissioner Dolim asked if there is a system put in place of yearend recognition for individuals, businesses, and organizations that make donations to the CCDA.

Chair Leemhuis agreed with the recognition and stated the certificate or other type of recognition should include, along with the governor’s signature, the signatures of the executive director and chair. He suggested taking photos of individuals receiving the certificates and then sending the photos to the recipients. He requested that staff look into adding in a separate budget for donations and events.

Chair Leemhuis asked staff to research GoFundMe, Razoo, and other ways to generate small online donations.

7. **CCDA “PLAN CHECKER” ACCESSIBILITY CHECKLIST**

Chair Leemhuis stated Gary Layman, the Chief Building Official for the city of Oroville, requested that the CCDA put together an accessibility checklist for plan checkers. Mr. Layman submitted his checklist draft to staff.

Commissioner Dolim stated the checklist the Commission will soon launch is intended for professional building inspectors out in the field and is a reminder list for them about accessibility issues. He stated Mr. Layman suggested there is a whole other support facet in building departments that is not performed by the field inspector, but is performed back in the office by plan checkers. Mr. Layman suggested a tickler plan checker accessibility checklist.

Commissioner Paravagana asked about available staff time for additional projects. Commissioner Dolim stated the field inspector checklist took effort in time and commitment, but, once the concept was determined, it became easier to put into place. Mr. Layman and CALBO have already done the groundwork on the plan checker checklist.

Chair Leemhuis suggested sending the field inspector checklist out for feedback on its use and efficacy before beginning a new project.

Commissioner Dolim asked if the CCDA website has a feature to monitor how many times the checklist has been downloaded. Executive Director Jemmott stated it does not.

Commissioner Dolim asked how the success of the checklist will be tracked without that monitoring component. Chair Leemhuis asked staff to work with the IT Department to
research tracking the number of times the strategic plan and the checklist are downloaded, and the number of times the Top Ten page is viewed.

Chair Leemhuis suggested launching a CCDA Facebook page because it encourages posting and dialogue. He recommended using it to advertise Commission meetings and events.

Commissioner Paravagna stated the need to give Mr. Layman the timeframe for beginning work on the plan checker checklist. Commissioner Dolim stated the importance of Commission collaborating with CALBO on the plan checker checklist and appointing a person to attend the plan checker checklist meetings until the CCDA can focus on it.

Chair Leemhuis agreed with being a part of the plan checker checklist, but cautioned against having tunnel vision and producing only checklists and not thinking of the broader strategic plan. Research and the CCDA website will take more of staff’s time in the near future. He asked if Commission Dolim would be available to attend CALBO meetings as a representative of the CCDA and participate in the development of the plan checker checklist.

**Action Items**

- Staff is to work with the IT Department to launch a CCDA Facebook page, and research tracking the number of times the strategic plan and the checklist are downloaded, and the number of times the Top Ten page is viewed.

He asked staff to begin work on that now. He requested a draft be presented at the July full Commission meeting so Commissioners will know what has been done so far and what needs to be done over the next six months so informed discussions can be made.
