Summary: Would require a local agency to provide specified reductions in required parking for certain development projects in which a designated historical resource, as defined in the bill, is being converted or adapted, unless otherwise required by local ordinance. Summary: Current law requires that a participant in any civil or criminal proceeding, court-ordered or court-provided alternative dispute resolution, or administrative hearing of a public agency, who is hearing impaired be provided with a functioning assistive listening system or a computer-aided transcription system, upon his or her request. Current law requires, if a computer-aided transcription system is requested, sufficient display terminals be provided to allow the hearing impaired individual to read the real-time transcript of the proceeding without difficulty. This bill would require an individual requiring the services of an operator of a computer-aided transcription system to give advance notice of this need, as specified, and would require the operator to provide the speech-to-text equipment to be used, unless otherwise provided by the court.

Summary: The Bagley-Keene Open Meeting Act requires, with specified exceptions, that all meetings of a state body, as defined, be open and public, and all persons be permitted to attend any meeting of a state body, except as provided. Current law, among other things, requires a state body that elects to conduct a meeting or proceeding by teleconference to post agendas at all teleconference locations, to identify each teleconference location in the notice and agenda, and to make each teleconference location accessible to the public. This bill, for an advisory board, advisory commission, advisory committee, advisory subcommittee, or similar multimember advisory body that does not have rulemaking authority, would instead require a member of a state body participating by teleconference to be listed in the meeting minutes.

Summary: The California Building Standards Law provides for the adoption of building standards by state agencies by requiring all state agencies that adopt or propose any building standard to submit the building standard to the California Building Standards Commission for approval or adoption.
