Department of General Services Energy Efficient State Property Revolving Fund Annual Legislative Report January 1, 2014

Background

The American Recovery and Reinvestment Act of 2009 (ARRA) provided funds to the United States Department of Energy to make allocations to its existing programs. Accordingly, on June 25, 2009, the California Energy Commission (CEC), in its role as the State Energy Office in California, received \$226,093,000 for distribution under federal guidelines.

On June 28, 2009, Governor Schwarzenegger signed Assembly Bill 11 from the Fourth Extraordinary Session of the 2009-2010 Session (ABX4 11), adding sections 25470 through 25474 to the Public Resources Code (PRC), and creating the Energy Efficient State Property Revolving Fund (Loan Fund). Under the terms of the statute, the CEC transferred \$25 million to the Department of General Services (DGS) to administer the Loan Fund and finance energy efficient retrofits at state facilities. Participating state agencies would use the savings realized through the retrofits to service their debt to the Loan Fund. PRC Section 25473 requires DGS to provide the Legislature with an annual report on the projects identified and planned for each fiscal year.

Fiscal Years 2009-2010 through 2011-2013

DGS allocated the original \$25 million to nine departments in 12 loans, funding 70 projects at over 400 buildings. All of these projects will be closed by December 2013. The table that follows this section contains information about the projects funded through the Loan Fund during fiscal years 2009-10 through 2011-12.

At the end of 2011-2012, the CEC transferred \$1.5 million of ARRA funding to the Loan Fund, and over the course of 2012-2013, additional transfers totaling \$1,243.948.04 occurred. The Loan Fund balance increased as repayments took place, with a total of \$3,947,409.02 returning in 2011-12 and \$3,652,635.85 in 2012-13.

In 2011-12, the pool of qualified energy service companies (ESCOs) that DGS established under the authority of Public Resources Code Section 388 expired. DGS staff spent 2012-13 preparing and receiving approval from legal counsel for a Request for Qualifications to establish a new pool and a subsequent Request for Proposals template for future projects.

Fiscal Year 2013-2014

To date in 2013-14, DGS has approved two loans:

- The California Department of Public Health (CDPH) has borrowed \$3,100,000, to replace boilers at their Richmond laboratory. The new equipment will reduce the campus's annual carbon footprint by 1.6 million pounds, or 743 metric tons, of carbon dioxide (CO₂). According to the United States Environmental Protection Agency's calculator, this reduction is equivalent to the amount of gasoline to fuel 155 cars for a year or the amount of electricity 102 homes use annually.
- The California Department of Corrections and Rehabilitation (CDCR) has borrowed \$888,467 to implement a lighting upgrade at the Salinas Valley State Prison that will reduce its electricity use by 2,713,146 kilowatt hours and save \$253,408 per year.

As of October 31, 2013, the fund balance available for allocation was \$10,650,000.00 and annual loan repayments in February 2014 will add approximately \$4,000,000.00 to the fund. The disbursement of these funds will occur throughout 2013-14 to the following potential projects:

- DGS has issued Requests for Proposals (RFPs) for two DGS buildings that will utilize the Loan Fund, the San Diego Office Building and the CalTrans District 11 Building.
- Preparations are underway to issue up to 12 additional RFPs for energy efficiency retrofits at the facilities listed in the table that follows. The number of actual loans that these efforts will generate will vary depending on the cost of the resulting projects.
