

Report on the

**Disability Access and Education Revolving Fund
2024 Activity Report – Issued 2025**

**State of California
Gavin Newsom, Governor**

**Government Operations Agency
Nick Maduros, Secretary**

**Department of General Services
Ana M. Lasso, Director**

**Division of the State Architect
Ida A. Clair, FAIA, State Architect**

Legislative Background

Senate Bill 1186 (Steinberg, Chapter 383, Statutes of 2012) created Government Codes §4465, §4467, §4469, and §4470. These provisions require applicants for local business licenses or equivalent instruments to pay an additional fee to local governments for deposit into a local Access Compliance Fund (ACF), with a portion submitted to the Division of the State Architect (DSA) for deposit into the state's Disability Access and Education Revolving Fund (Fund).

Assembly Bill 1379 (Thurmond, Chapter 667, Statutes of 2017) increased the fee from \$1 to \$4 and changed the revenue distribution from 70/30 to 90/10 (local/state). The bill also added a requirement for local governments that do not issue business licenses to levy the fee on building permits. It originally included sunset provisions to revert to original terms on January 1, 2024.

Assembly Bill 2164 (Lee, Chapter 895, Statutes of 2022) made the \$4 fee and 90/10 split permanent by repealing sunset provisions. The bill also expanded allowable ACF uses to include financial assistance to small businesses for accessibility-related improvements.

Senate Bill 748 (Roth, Chapter 76, Statutes of 2023) made amendments to Government Code §4469 requiring local governments to provide applicants for a business license or equivalent permit with a mandatory disclosure statement about disability access requirements, available resources, and related compliance obligations.

Fund Purpose

Government Code §4465 establishes the Fund's purpose to increase compliance with accessibility requirements by:

- Increasing the number of Certified Access Specialists (CAsp).
- Maintaining DSA oversight of the CAsp program including adopting best practices guidelines, providing continuing education on construction-related accessibility requirements, and performing audit and discipline functions.
- Expanding education and outreach efforts to facilitate compliance with accessibility requirements, including consultation and collaboration with the Department of Rehabilitation and the California Commission on Disability Access (CCDA).

Reporting Requirements

Pursuant to Government Code §4470(c), DSA is required to submit an annual report that includes the following:

I. TOTAL FEES COLLECTED BY EACH CITY AND COUNTY

The total fees collected by each local government for the ACF during the previous calendar year.

II. TOTAL FEES TRANSMITTED TO THE FUND

The total fees transmitted by each local government to DSA for the Fund during the previous calendar year.

III. DISTRIBUTION OF FUND RESOURCES

A breakdown of how Fund resources were distributed, including expenditures for:

- A. Administrative services by DSA
- B. Moderating CASp certification and examination fees
- C. Establishing and maintaining CASp program oversight
- D. Developing and disseminating educational materials

I. TOTAL FEES COLLECTED BY EACH CITY AND COUNTY

DSA received 363 annual reports from local governments, documenting collection by the jurisdictional entities of \$7,231,032 in total in ACF fees for the 2024 calendar year: an increase of 18% in reporting over the prior year. Additionally, 481 jurisdictions submitted fees to DSA in 2024 for deposit in the Fund, representing a 6% increase in fee remittance compared to calendar year 2023.

These positive trends in both annual reporting and fee remittance can be attributed to DSA's increased outreach efforts in addition to collaboration with the CCDA.

Of the 481 jurisdictions that have submitted fees to the Fund, 75% submitted an annual report. Not all of California's 541 local governments (city, county, or a city and county) submit annual reports or collect fees; local government participation is at 89%.

DSA does not have any enforcement authority over local governments for collection of the fee. Fee submittal and annual collection reporting are dependent on the local governments' execution of the law. Attempts are made to maintain contact with all 541 local governments in California, regardless of previous participation in fee submittal, to remind local governments of the current requirements and to alert them of statutory changes.

Three notifications were sent to local governments reminding them of the 2024 annual report submittal deadline of March 1, 2025, and the option of submitting their annual report electronically. The first notification was a letter sent on December 19, 2024, the second January 16, 2025, and the third was one week from the deadline on Feb. 25, 2025. The information was also posted to DSA's website.

The following is an explanation of the breakdown demonstrated in the appendices:

- Appendix A lists the 2024 annual collection amounts, as reported by each local government that submitted fees by the deadline to DSA in the 2024 calendar year.
- Appendix B lists the local governments that reported their 2024 annual collection amounts but did not submit fees to DSA.
- Appendix C lists the local governments that submitted fees to DSA in the 2024 calendar year but did not report their annual collection amount.
- Appendix D lists the local governments that neither transmitted 2024 collections nor submitted an annual report before the March deadline.

II. **TOTAL FEES TRANSMITTED TO THE FUND**

DSA received \$1,034,711 in payments from local governments during the 2024 calendar year for deposit in the Fund. This represents a 10% increase from the fee collected in 2023.

III. **DISTRIBUTION OF FUND RESOURCES**

In 2024, DSA spent \$272,930 of Fund resources on the activities prescribed under Government Code §4465. These activities include:

A. Administrative Services by DSA

DSA spent \$158,661 of Fund resources on administrative services in 2024. The primary administrative services with Fund resources include administering the fee collection system, maintaining correspondence with 541 local governments, reviewing annual reports, and transitioning reporting forms to a new software platform. The database of jurisdictional contact information for 541 reporting cities and counties is updated regularly by DSA staff to facilitate effective outreach.

B. Moderation of Certification and Examination Fees for CASp

DSA spent \$29,011 of Fund Resources on streamlining the CASp certification process and continued to monitor areas for improvement in 2024 through the following activity:

- **Significant increase in examination offerings, examination locations, and CASp certifications without increasing fees:** DSA hosted the CASp examinations at its four regional office locations in 2024, which has significantly increased examination opportunities for candidates year-over-year, offering four regional testing locations instead of one location in the north and one in the south. In 2024, DSA offered 20 CASp examinations, to 291 registered candidates, resulting in the certification of 77 new CASps. For reference, in 2023, DSA offered 6 examinations to 223 registered candidates resulting in 59 new CASps. This expansion reflects a notable year-over-year growth of 30% in new CASps and a 30% increase in candidate registrations. The robust improvement is attributed to increased examination opportunities local to the candidate, respect for exam rigor, and the recognition of the value of CASp certification.

In 2024, DSA saw a 30% increase in CASp certifications.

Since SB 116 was enacted in 2013, DSA has seen a 127% gross increase in total CASps.

C. Maintaining Oversight of the CASp Program

The CASp program provides an essential resource to the public, and DSA's oversight of the program ensures individuals certified are held accountable to rigorous standards and are tested for their specialized expertise. CASps offer accessibility inspection services for hire, and inspection reports inform business and facility owners of their compliance status to applicable construction-related accessibility standards and their obligation to provide access to their goods and services to the public. Compliance with applicable standards significantly limits the owner's liability exposure thereby reducing unnecessary litigation in the court system.

DSA spent \$30,100 of Fund resources on oversight of the CASp program through the following activities:

- **Providing technical guidance to CASps:** DSA provided technical support to CASps on the accessibility standards, best practices for inspection reports, and reporting requirements established in state law.
- **Providing technical guidance to local jurisdictions and the public:** DSA provided guidance to local jurisdictions and the public on CASp services and accessibility compliance. This guidance was provided through a variety of channels, including the CASp 101 webinar offered three times per year, presentations at conferences, town halls in partnership with the CCDA and local jurisdictions, and through its technical assistance services via phone and email.

- **Updating the online database:** DSA updated the online database of CASps. This database includes information on each CASp's qualifications, experience, and availability. The database is used by businesses and individuals to find qualified CASps to inspect their properties.
- **Responding to occasional complaints filed against CASps:** DSA investigated and responded to occasional complaints filed against CASps.

D. Developing and Disseminating Educational Materials to Facilitate Compliance DSA spent \$55,158 of Fund resources on expanded education and outreach for CASps in 2024 through the following activities:

- **Updating educational content for the Learning Management System (LMS):** DSA's office ensured educational resources for CASps and examination candidates were current and effective by reviewing and updating course material for CASp 101 and other courses related to accessibility, such as the update to the Accessibility for Electric Vehicle Charging Stations course.
- **CASp Code Discussion Group (CCDG):** DSA reinstated the CCDG, a monthly webinar series organized by DSA which serves as a platform for CASps, design professionals, and code enforcers to engage in discussions about state and federal laws, regulations, building standards for accessibility and engage with local and national accessibility specialists who provide insights on accessibility topics. After a two-year hiatus due to staff shortages, the CCDG was successfully reinstated in 2024, conducting 11 sessions throughout the year and attracting a total of 2,274 individual registrants, showcasing strong interest and engagement in accessibility education provided by DSA. Participation in these sessions offers attendees the opportunity to earn continuing education units, thereby supporting their professional development and knowledge of applicable construction-related accessibility standards.
- **CASp 101 Certification and Practice (CASp 101):** DSA hosted three CASp 101 live webinars in 2024 through its LMS. The CASp 101 is a 3-day webinar course which provides training for CASps, candidates interested in seeking certification, and individuals who want to find out more about the CASp program. The course includes six hours of instruction hosted over three sessions and included time for questions of DSA accessibility staff. CASp continuing education credit is offered for taking the course. In 2024, DSA registered 272 individuals for the webinar series.
- **Collaborative Outreach with CCDA:** In 2024, DSA partnered with the CCDA to conduct a statewide survey to better understand the use of CASps within the jurisdiction and to collect information on jurisdictional accessibility programs

utilizing the ACF. DSA shared its updated jurisdictional contact database with CCDA to provide a broader reach for the survey.

CCDA utilized these resources to expand engagement with California's cities and counties, and promote participation in the ACF survey, which allowed for gathering detailed information about CASp activities and ACF utilization, in addition to responding to questions regarding the ACF. DSA collaboration with CCDA in this effort enabled broad outreach, facilitated a deeper understanding of accessibility compliance requirements, and informed the future development of targeted guidance and educational materials for local governments.

- **Speaking Event:** Due to statewide budget constraints and restrictions on travel, DSA had limited in-person speaking events compared to prior years. In October of 2024, DSA accessibility staff joined CASps from across the state at the Certified Access Specialist Institute (CASI) bi-annual summit in Millbrae, CA. The CASI biennial summit brings together CASps and other accessibility professionals from across the state and country for seminars and educational opportunities on a wide range of accessibility topics. DSA's exhibit table provided educational resources and DSA's accessibility staff was available to discuss questions related to the CASp program and California Building Code accessibility requirements.
- **Electronic Communications:** DSA sent emails throughout 2024 to promote CASp education. Specifically, DSA promoted the CASp 101 and CCDG programs, the availability of continuing education opportunities on its LMS, and provided CASp examination information to its subscribed email list. In 2024, DSA conducted 24 unique email campaigns, issuing over 238,000 emails.

APPENDIX A

SB 1186 COLLECTION RESULTS FOR 2024

ANNUAL FEE COLLECTION REPORTED BY PAYING JURISDICTION

Fee Status: Paid

Report Status: Submitted

LOCAL GOVERNMENT (Organized by City, then County)	TOTAL FEE COLLECTION REPORTED
Alameda	\$ 34,274.00
Albany	\$ 11,168.00
