BUSINESS/FACILITY CRITERIA

As of the date of the inspection, the business at this facility employed 50 or fewer employees on average over the past three years, or for the years it has been in existence if less than three years, as evidenced by wage report forms filed with the Employment Development Department.

The CASp must post this notice on the day of the inspection, in a conspicuous location within five feet of all public entrances to buildings inspected. The CASp shall instruct the business to keep the notice in place for 120 days, or until any construction-related accessibility violations in the area inspected by the CASp are corrected, whichever occurs first.

CASP INSPECTION REPORT TIMELINE

If the business meets the business/facility criteria described above, the CASp must provide the written CASp inspection report to the business or property owner within 30 days of the inspection.
