

# SESSION 4 (Working Lunch)

## *View Through Your Eyes*

# Lunchtime Conversation

1. What are the most important things that DSA could do to improve the plan review process?
2. What are the most important things that DSA could do to improve the construction oversight process?
3. Given California's emphasis on water and energy conservation, and the DSA's existing statutory authority to provide Mechanical Electrical Plumbing Energy review, what is your opinion of the DSA providing this service?
4. What trends in the design of learning spaces are you noticing (e.g. collaboration spaces, furniture, outdoor learning, tear down/rebuild etc.)?
