

SURVEY FEEDBACK

SUGGESTIONS TO IMPROVE THE PLAN REVIEW PROCESS

- Better consistency between plan reviewers.
- Better collaboration between the DSA plan reviewers.
- Develop graphical guidance.
- Reduce DSA oversight.
- Streamline the plan review process: electronic review, consistent comments, and only review.

SUGGESTIONS TO IMPROVE THE CONSTRUCTION OVERSIGHT PROCESS

- More oversight staff: project Inspectors and field inspectors.
- Expedite the process by giving the field staff more control.
- Better consistency by DSA.
- Increase DSAbox documentation capabilities.

FEEDBACK ON IMPLEMENTATION OF MECHANICAL ELECTRICAL PLUMBING REVIEW BY DSA

- There is some interest in having DSA perform Mechanical Electrical Plumbing reviews.
- Some clients have no interest or think it's already being done by other entities.
- Client concern with the increase to DSA's workload causing delays and increasing the project cost if the review has a fee.
- Consider self-certifying on Mechanical Electrical Plumbing review.

FEEDBACK ON DESIGN TRENDS

- Flexible design.
- More space: indoors and outdoors.
- Durability and ongoing maintenance.
- More options for building and project delivery.
