

WATER CONSERVATION at School Facilities

Tips for
students and staff:

Discuss water conservation
with landscapers and
janitorial crews

Post signs promoting
conservation in
areas where water
is used

Create a “water-saving
suggestion box” for
students and staff

Develop programs
to promote water
conservation in
the community

Stay informed about the
latest requirements for
water conservation

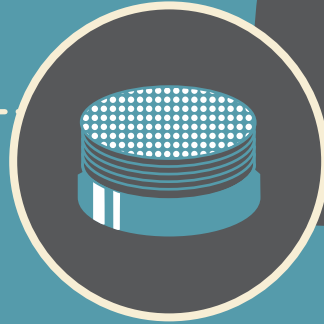

Tips for
landscapers and janitorial crew:

Conduct water audits
of buildings and
landscape areas
to identify issues

Install aerators and
water efficient
plumbing fixtures

Keep fixtures and
irrigation systems
in good repair and
fix leaks promptly

Landscape with native,
drought tolerant
plants, and
mulch regularly

Capture rainwater
for future use
