This Budget Letter advises state departments of the current late payment penalty rates.

The California Prompt Payment Act (Act), Government Code (GC) section 927 et seq., requires state departments to automatically calculate and pay the appropriate late payment penalties if they fail to pay properly submitted, undisputed invoices or grants for victim services or prevention programs, and refunds or other undisputed payments due to individuals on or before the date required by the Act. The Act applies to invoices for goods and/or services acquired by state departments and specific grant claims.

The Act requires different rates for penalty payments paid as follows:

- A. Small businesses, nonprofit organizations, nonprofit public benefit corporations, including grantees that provide victim services and prevention programs as defined in GC section 927.2.
- B. Other businesses, including local government grantees that provide victim services or prevention programs as defined in GC section 927.2.
- C. Refunds or other payments due to individuals.

Other Payments Due to Individuals	Greater than \$10	1.39%	0.0000381	0.08%	0.0000022

To calculate late payment penalties, multiply the amount subject to penalties by the applicable daily penalty rate, as shown in the table, to determine the penalty amount per day. The penalty amount per day is then multiplied by the number of calendar days the payment is late to determine the penalty amount. The penalty payment is charged to the fiscal year based on the payment due date.
