P. Definition of Services Provided Under the Waiver

Definitions of each of the services approved by the Centers for Medicare and Medicaid Services of the Department of Health and Human Services under the existing 1915 (c) Home- and Community-Based Services Waiver are as follows. The numbers in parentheses are program code designations for the particular service.

1. **ADULT DAY SUPPORT CENTER (1.0):** This is a community-based program that provides nonmedical care to meet the needs of functionally-impaired adults. Services are provided according to an individual plan of care in a structured comprehensive program that will provide a variety of social, psychosocial, and related support services in a protective setting on less than a 24-hour basis. The State Department of Social Services (DSS) licenses these centers as community care facilities. Eligible clients are those who:
  - Need, but do not have, a caretaker available during the day;
  - Are isolated and in need of social stimulation;
  - Need a protective setting for social interaction; and/or,
  - Need psychological support to prevent institutionalization.Care in adult day support centers will be provided when specific therapeutic goals are stipulated in the client's plan of care. Adult day support center care is not meant to be merely diversional or recreational in nature.
2. **ADULT DAY CARE (1.1):** Will be provided to MSSP clients who are identified in their plan of care as benefiting from being in a social setting with less intense supervision and fewer professional services than offered in an adult day support center. Adult Day Care services will be provided when the client's plan of care indicates that the service is necessary to reach a therapeutic goal. Adult day care centers are community-based programs that provide nonmedical care to persons 18 years of age or older in need of personal care services, supervision, or assistance essential for sustaining the activities of daily living or for the protection of the individual on less than a 24-hour basis. The DSS licenses these centers as community care facilities.
3. **HOUSING ASSISTANCE (2.2, 2.3, 2.4, 2.5 AND 2.6):** These services are necessary to ensure the health, welfare, and safety of the client in his or her physical residence or home setting. As specified in the client's plan of care, services may include provision of physical adaptations and assistive

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

devices, emergency assistance in situations which demand relocation and assistance to restore utility service. Housing Assistance services include:

- a. **MINOR HOME REPAIRS AND ADAPTIVE EQUIPMENT (2.2):** Minor Home Repairs do not involve major structural changes or repairs to a dwelling. Adaptive Equipment is defined as those items necessary for accessibility (e.g., ramps, grab bars, handrails; items above what is covered by the State Plan and, installation), safety (e.g., electrical wiring, smoke alarms), or security (e.g., locks). Eligible clients are those whose health and/or safety or independence are jeopardized because of deficiencies in their place of residence. This service is limited to clients who are owners/occupiers of their own home, or those in rental housing where the owner refuses to make needed repairs or otherwise alter the residence to adapt to special client needs. Written permission from the landlord (including provision for removal of modifications, if necessary) is required before undertaking repairs or maintenance on leased premises. All services shall be provided in accordance with applicable State or local building codes.
- b. **NONMEDICAL HOME EQUIPMENT AND SUPPLIES (2.3):** Includes those assistive devices, appliances and supplies which are necessary to assure the client's health, safety and independence. This service includes the purchase or repair of nonmedical home equipment and appliances such as refrigerators, stoves, microwave ovens, blenders, kitchenware, heaters, air conditioners, fans, washing machines, dryers, vacuum cleaners, furniture (i.e., couches, lamps, tables, chairs [including recliners and lift chairs]), mattresses and bedding under the following circumstances:
  1. The client is receiving Deinstitutional Care Management services, and the items are required to facilitate discharge from the institution to a community residence.
  2. The client's assessment identifies the need for this service including how it is a necessary support if the client is to remain in the community, and the care plan specifies the required item(s).

In either circumstance, the following criteria must be met and documented in the case record:

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

1. The items are unobtainable through other resources, and their purchase would be a financial hardship for the client.
  2. The items are necessary to preserve the client's health, improve functional ability and assure maximum independence, thereby preventing elevation to a higher level of care and avoiding more costly institutionalization.
- c. EMERGENCY MOVE (2.4): Involves facilitating a smooth transition from one living situation to another. Eligible clients are those who, due to loss of residence or the need for a change in residence, require assistance with relocation. Services may be provided by moving companies or other individuals who can guarantee the safe transfer of the client's possessions. Activities may include materials and labor necessary for such moves.
- d. EMERGENCY UTILITY SERVICE (2.5): Allows for payment of utilities only when the client has no other resources to meet this need. Additionally, the client must be at risk to receive a shut-off notice and the potential shut off of utility services would place the health and safety of the client in jeopardy. Elderly individuals are more vulnerable to extremes in environmental changes because of decreased physiologic reserves, less flexible homeostatic processes, and decreased resistance to stress. These extremes affect organ systems that already are vulnerable because of physiologic and pathologic changes.
- e. TEMPORARY LODGING (2.6): Allows for payment of hotel or motel lodging for those clients, usually from rural areas, who must travel long distances and stay overnight for medical treatments not available in their home area. Lodging rates shall not exceed State per diem limits; these limits vary depending on geographic area.
4. CHORE (3.1): Is for purposes of household support and applies to the performance of household tasks rather than to the care of the client. Chore activities are limited to: household cleaning, laundry (including the services of a commercial laundry or dry cleaner), shopping, food preparation, and household maintenance, as long as the client does not live in a Residential Care Facility for the Elderly (RCFE). Client instruction

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

in performing household tasks and meal preparation may also be provided.

This service is for purposes of household support for those services above and beyond those available through the residual In-Home Supportive Services (IHSS) Program. Examples include:

- a. The MSSP client has not yet been assessed for IHSS, and needs services in the interim until IHSS services can be arranged.
  - b. The regular IHSS provider is not available, and IHSS cannot provide a substitute.
  - c. IHSS services are in place; however, MSSP has assessed a greater need. In these cases, every effort will be made to negotiate with IHSS towards an increase in those services before authorizing expenditure of waiver funds.
5. PERSONAL CARE (3.2): This service is provided to those clients who are not eligible to receive it under the State Plan. This service provides assistance to maintain bodily hygiene, personal safety, and activities of daily living (ADL). These tasks are limited to nonmedical personal services: feeding, bathing, oral hygiene, grooming, dressing, care of and assistance with prosthetic devices, rubbing skin to promote circulation, turning in bed and other types of repositioning, assisting the individual with walking, and moving the individual from place to place (e.g., transferring). Client instruction in self care may also be provided; may also include assistance with preparation of meals, but does not include the cost of the meals themselves.

Purchase of toiletries and other personal care supplies may be covered where there are no other resources and the purchase would create a financial hardship. These items include: shampoo, soap, lotion, tooth brush and paste, toothettes, shavers, medication assistive devices (e.g., medi-sets, pill crushers), incontinence supplies not covered under the State Plan, disposable gloves and wipes.

When specified in the plan of care, this service may also include such housekeeping chores as bed making, dusting, and vacuuming, which are essential to the health and welfare of the recipient. The household chores which are performed by the worker are essentially ancillary to the provision of the client-centered care. Thus, if food is spilled, it may be

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

cleaned up, and when bed linen is soiled it may be changed, washed, and put away. However, at no time would household chores become the central activity furnished by a personal care worker.

When a personal care service is to be performed by an unlicensed health care worker (e.g., Home Health Aide), permissible duties will be limited to those allowed by the worker's employer, or permissible according to the Board of Registered Nursing policy on unlicensed assistive personnel, and as permitted by the individual's certification (if applicable).

Personal care service providers may be paid while the client is institutionalized. This payment is made to retain the services of the care provider and is limited to seven (7) calendar days per institutionalization.

6. HEALTH CARE (3.3): Addresses the care of health problems by appropriately licensed or certified persons when such care is not otherwise available under the State Plan. These services will be provided based on the following criteria:

The client assessment identifies need for this support and the care plan reflects the required items.

MSSP utilizes all of the health care services available under the State Medicaid Plan prior to purchasing these services as waived services.

MSSP's clients are extremely frail and, on occasion, in need of health-related services that cannot be provided under Medi-Cal, e.g., no Medi-Cal provider in that local area. Such services are especially critical for persons recently discharged from acute hospitals or who are otherwise recovering at home from an acute illness or injury. This MSSP service supplements benefits provided by the existing Medi-Cal program, using providers who meet standards under Provider Qualifications: Licensure and Certification, Appendix 26 of the Site Manual.

- The service is provided by authorized individuals when such care is prescribed or approved by a physician.
- Services may include the following professionals/services:
  - a. Pharmacists: pharmacy consultations.

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

- b. Registered nurses or licensed vocational nurses: skilled nursing services.
  - c. Nutritionists/Registered Dietitians: nutritional assessment or counseling.
  - d. Occupational, physical, or speech therapists: consultation, including client assessment, training, and planning.
  - e. Other health professionals specific to the identified need of the client: art, dance, exercise, massage, music, and recreation therapists.
7. PROTECTIVE SUPERVISION (3.7): Ensures provision of supervision in the absence of the usual care provider to persons in their own homes who are very frail or otherwise may suffer a medical emergency, to prevent immediate placement in an acute care hospital, skilled nursing facility, or other 24-hour care facility, e.g., Residential Care Facility for the Elderly (RCFE). Such supervision does not require medical skills and can be performed by an individual trained to summon aid in the event of an emergency. May also provide a visit to the client's home to assess a medical situation during an emergency (e.g., natural disaster). Waived Service funds may not be used to purchase this service until existing county Title XX Social Services and Title XIX Medi-Cal resources have been fully utilized and an unmet need remains.
8. PROFESSIONAL CARE ASSISTANCE (PCA)(3.9): Is provided to those clients who are also receiving services under the Personal Care Services Program (PCSP) (Fund Code 6). PCA is a comprehensive skilled service delivered by a home health aide (HHA). The HHA works under the supervision of a registered nurse employed by a home health agency. The specific tasks provided are the same as listed under Personal Care (3.2) above. However, the special needs and circumstances of Waiver clients are such that they require a provider who can make observations and exercise judgement regarding the execution of specific tasks and the overall provision of care. The training and expertise of a HHA is greater and more specialized than that of a provider working under the State Plan. This higher level of skill is required to meet the needs of the frail elderly clients served under the Waiver. When PCA is performed by an unlicensed health care worker (e.g., Home Health Aide), permissible duties will be limited to those allowed by the worker's employer, or permissible according to the Board of Registered Nursing policy on

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

unlicensed assistive personnel, or as permitted by the individual's certification (if applicable).

Purchase of toiletries and other personal care supplies may be covered where there are no other resources and the purchase would create a financial hardship for the client. These items include: shampoo, soap, lotion, tooth brush and paste, toothettes, shavers, medication assistive devices (e.g., medi-sets, pill crushers), incontinence supplies not covered under the State Plan, disposable gloves and wipes.

PCA service providers may be paid while the beneficiary is hospitalized up to seven (7) calendar days per each hospitalization. This payment is necessary to retain the care provider for services when the beneficiary returns home.

9. CARE (CASE) MANAGEMENT: Assists clients in gaining access to needed Waiver and other State Plan services, as well as needed medical, social, and other services, regardless of the funding source. Care managers are responsible for ongoing monitoring of the provision of services included in the client's plan of care. Additionally, care managers initiate and oversee the process of assessment and reassessment of client level of care and the monthly review of plans of care.
  - a. SITE-PROVIDED CARE (CASE) MANAGEMENT (50): The MSSP care management system vests responsibility for assessing, care planning, authorizing, locating, coordinating and monitoring a package of long-term care services for community-based clients with a local MSSP site contractor and specifically with the site care management team. The care management teams at each of the local sites are trained professionals working under the job titles of nurse care manager and social work care manager; these professionals may be assisted by care manager aides. The teams are responsible for care management services including the assessment, care plan development, service authorization/delivery, monitoring, and follow up components of the program. Although the primary care manager will be either a senior services counselor or health practitioner, both professionals will be fully utilized in carrying out the various case management functions. Care records must document all client contact activity each month.

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

- b. PURCHASED CARE (CASE) MANAGEMENT (4.3): for the vast majority of MSSP clients, care management services are provided solely by site care management staff. However, clients have the right to request care management by qualified outside vendors. In some cases of temporary need, the site may retain an outside vendor to provide the services of a care manager. If either of these two situations arises, the site must ensure that there is no overlap between Site- Provided Care Management (50) and Purchased Care Management (4.3). Any duplication of these services will be subject to recovery and will be collected through formal channels administered by DHS Payment Systems Division, Recovery Section. Additional case-specific resources may be purchased from social, legal/ paralegal specialists in the community in order to augment the resources and skills of site-based case managers. Examples include the purchase of more skilled diagnostic and consultant services by social, and legal/paralegal professionals. Fees necessary to procure birth certificates or other legal documents required for establishment of public benefits or assistance are also covered.
10. DEINSTITUTIONAL CARE MANAGEMENT (DCM) (4.6): This service is used ONLY with individuals who are institutionalized. It allows care management and waiver services to begin up to 180 days prior to an individual's discharge from an institution. It may be used in two situations, as follows:
- a. Where MSSP has gone into a facility (nursing facility or acute hospital) to begin working with a resident to facilitate their discharge into the community.
  - b. Where an established MSSP client is institutionalized and MSSP services are necessary for the person to be discharged back into the community.

In either situation, all services (monthly Administration and Care Management, plus any purchased services) provided during this period are combined into one unit of DCM and billed upon discharge. For those individuals who do not successfully transition to the waiver, all services provided are combined into one unit of DCM and billed at the end of the month the decision is made to cease MSSP activity.

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

11. RESPITE (5.1, 5.2): The State's Medicaid Plan does not provide for respite care. By definition, the purpose of respite care is to relieve the client's informal caregiver and thereby prevent breakdown in the informal support system. Respite service will include the supervision and care of a client while the family or other individuals who normally provide primary care take short-term relief or respite which allows them to continue as caregivers. Respite may also be needed in order to cover emergencies and extended absences of the caregiver.

As dictated by the client's circumstances, services will be provided In-Home (5.1) or Out-of-Home (5.2) through appropriate available resources such as board and care facilities, skilled nursing facilities, etc. Federal Financial Participation will not be claimed for the cost of room and board except when provided as part of respite care in a facility approved by the State that is not a private residence. Individuals providing services in the client's residence shall be trained and experienced in homemaker services, personal care, or home health services, depending on the requirements in the client's plan of care.

12. TRANSPORTATION (6.3 [ESCORT, HOUR] AND 6.4 [ONE-WAY TRIP]): These services provide access to the community (e.g., non-emergency medical transportation to health and social service providers) and special events for clients who do not have means for transportation or whose mobility is limited, or who have functional disabilities requiring specialized vehicles and/or escort. These services are in contrast to the transportation service authorized by the State Medicaid Plan which is limited to medical services or clients who have documentation from their physician that they are medically unable to use public or ordinary transportation. Whenever possible, family, neighbors, friends, or community agencies which can provide this service without charge will be utilized.

Transportation services are usually provided under public paratransit or public social service programs (e.g., Title III of the Older Americans Act) and shall be obtained through these sources without the use of MSSP resources, except in situations where such services are unavailable or inadequate. Service providers may be paratransit subsystems or public mass transit; specialized transport for the elderly and handicapped; private taxicabs where no form of public mass transit or paratransit is available or accessible; or private taxicabs when they are subsidized by public programs or local government to service the elderly and handicapped (e.g., in California, some counties provide reduced fare

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

vouchers for trips made via private taxicabs for the elderly and handicapped).

Escort services will be provided when necessary to assure the safe transport of the client. Escort services may be authorized for those clients who cannot manage to travel alone, and require assistance beyond what is normally offered by the transportation provider. This service will be provided by trained paraprofessionals or professionals, depending on the client's condition and care plan requirements.

13. MEAL SERVICES (7.1, 7.2, and 7.3): These services may be provided daily, but are not to constitute a full nutritional regimen (three meals a day) [42 CFR 440.180 (b)].
  - a. CONGREGATE MEALS (7.1): Meals served in congregate meal settings for clients who are able to leave their homes or require the social stimulation of a group environment in order to maintain a balanced diet. Congregate meals can be a preventive measure for the frail older person who has few (if any) informal supports, as well as a rehabilitative activity for people who have been physically ill or have suffered emotional stress, due to losses associated with aging. This service should be available to MSSP clients through Title III of the Older Americans Act. MSSP funds shall only be used to supplement congregate meals when funding is unavailable or inadequate through Title III or other public or private sources.
  - b. HOME DELIVERED MEALS (7.2): For clients who are homebound, unable to prepare their own meals and have no caregiver at home to prepare meals for them. As with Congregate Meals, the primary provider of this service is Title III of the Older Americans Act. MSSP funds shall only be used to supplement home-delivered meals when they are unavailable or inadequate through Title III or other public or private sources.
  - c. FOOD (7.3): Provision of food staples is limited to purchase of food to facilitate and support a client's return home following institutionalization, and to food purchases which are medically required.

If oral nutrition supplements (ONS) are to be included in the care plan, efforts must be made to obtain them through a Medi-Cal

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

Treatment Authorization Request (TAR). If this is not possible or appropriate, the rationale will be documented.

If ONS are to be purchased with waived services funds, the following must be recorded in the client record:

- The nurse care manager has assessed the client's nutritional needs and concluded that an ONS is advised; AND
- The use of home-prepared drinks/supplements (e.g., instant breakfast, pureed food) has been explored and found not to meet the client's needs.

Following the criteria described above, ONS may be purchased initially for a period of three months. When it is determined that it is desirable to continue beyond that time, the client's personal physician must be notified, and additional supporting documentation must be obtained by either:

1. A nutritional screening recommending this alternative (preferably a consultation or assessment obtained from a nutritionist or dietitian, but if these resources are not available, a screen conducted by the primary care manager in consultation with the nurse care manager; see MSSP Site Manual, Appendix 21, for an example of a nutritional screen), or
2. A prescription obtained from the physician, or
3. Approval (verbal or in writing) for this service from the physician noted in the record.

If the service is to be continued beyond six months, the following criteria will be documented in the client record, and repeated every six months thereafter for as long as an ONS is being purchased with waived services funds:

1. A prescription obtained from the physician, AND
2. A review of the client's nutritional status will be conducted by the nurse care manager. The purpose of the review is to assure the appropriateness of continuing to provide an ONS for an individual client. It is preferred that the review be conducted by obtaining an assessment from a nutritionist or dietitian. If these resources are not available, a member of the care management staff will complete a nutritional screen

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

(see MSSP Site Manual, Appendix 21, for an example of a nutritional screen).

When the client or family is purchasing the ONS, the care manager should advise them to notify the client's physician.

14. PROTECTIVE SERVICES (8.3, 8.4, and 8.5): These services include protection for clients who are isolated and homebound due to health conditions; who suffer from depression and other psychological problems; individuals who have been harmed, or threatened with harm (physical or mental) by other persons or by their own actions; or those whose cognitive functioning is impaired to the extent they require assistance and support in making and carrying out decisions regarding personal finances.

- a. SOCIAL REASSURANCE (8.3): Includes periodic telephone contact, visiting or other social and reassurance services to verify that the individual is not in medical, psychological, or social crisis, or to offset isolation; expenses for activities and supplies required for client participation in rehabilitation programs; therapeutic classes and exercise classes are also provided. Such services shall be provided based on need, as designated in the client's plan of care. The MSSP has found that isolation and lack of social interaction can seriously impact some clients' capacity to remain independent. Lack of motivation or incentive or the lack of any meaningful relationships can contribute to diminishing functional capacity and premature institutionalization.

These services are often provided by volunteers or through Title III of the Older Americans Act; however, these services may not be available in a particular community and do, infrequently, require purchase. The waiver will be used to purchase friendly visiting only if the service is unavailable in the community or is inadequate as provided under other public or private programs.

- b. THERAPEUTIC COUNSELING (8.4): Includes individual or group counseling to assist with social, psychological, or medical problems which have been identified in the assessment process and included in the client's care plan.

The MSSP has found that therapeutic counseling is essential for preventing some clients from being placed in a nursing facility (NF).

**ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)**

This service may be utilized in situations where clients or their caretakers may face crises, severe anxiety, emotional exhaustion, personal loss/grief, confusion, and related problems. Counseling by licensed or certified counselors in conjunction with other services (e.g., respite, IHSS, meals) may reverse some states of confusion and greatly enhance the ability of a family to care for the client in the community, or allow the client to cope with increasing impairment or loss.

- c. **MONEY MANAGEMENT (8.5):** This service assists the client with activities related to managing money and the effective handling of personal finances. Services may be either periodic or as full-time substitute payee. Services may be provided by organizations or individuals specializing in financial management or performing substitute payee functions.

The MSSP has found that assistance with managing day-to-day household finances is often required by frail elderly. These clients may be isolated by geography or by not having a trustworthy other person to rely upon. Failure to meet personal financial obligations frequently results in eviction, disconnection of utilities, or jeopardizes eligibility for maintenance programs such as Supplemental Security Income (SSI) and Medicaid. Money management services ensure a stable living environment and avoid institutionalization.

- 15. **COMMUNICATIONS SERVICES (9.1 and 9.2):** Clients who receive these services are those with special communication problems such as vision, hearing, or speech impairments and persons with physical impairments likely to result in a medical emergency. Services shall be provided by organizations such as: speech and hearing clinics; organizations serving blind individuals; hospitals; senior citizens centers; providers specializing in communications equipment for disabled or at-risk persons. Services shall be available on a routine or emergency basis as designated in the client's plan of care.
  - a. **COMMUNICATION/TRANSLATION/INTERPRETATION (9.1):** The provision of translation and interpretive services for purposes of instruction, linkage with social or medical services, and conduct of business is essential to maintaining independence and carrying out the ADL and Instrumental Activities of Daily Living (IADL) functions.

ARTICLE I. DEFINITIONS AND RESOLUTIONS OF LANGUAGE CONFLICTS (Cont)

For non-English speaking clients, this service is the link to the entire in-home and community-based service delivery system. MSSP resources shall be used to support this service only where family and community resources are unable to meet the need, and as described in the care plan.

- b. COMMUNICATION/DEVICE (9.2): The rental/purchase of 24-hour emergency assistive services, or installation of a telephone, to assist in communication (excluding hearing aids, eye appliances, and monthly telephone charges) for clients who are at risk of institutionalization due to physical conditions likely to result in a medical emergency. Purchase of emergency response systems is limited to those clients who live alone, or who are alone for significant parts of the day, and have no regular caregiver for extended periods of time, and who would otherwise require extensive routine supervision. The following are allowable:
  - 1. 24-hour answering/paging.
  - 2. Beepers.
  - 3. Medic-alert type bracelets/pendants.
  - 4. Intercoms
  - 5. Life-lines.

  - 7. Monitoring services.
  - 8. Light fixture adaptations (blinking lights, etc.)
  - 9. Telephone adaptive devices not available from the telephone company.
  - 10. Other electronic devices/services designed for emergency assistance.

Telephone installation or reactivation of service will only be authorized to enable the use of telephone-based electronic response systems where the client has no telephone, or for the isolated client who has no telephone and who resides where the telephone is the only means of communicating health needs. This service will only be authorized when the client has a medical/health condition that makes him/her vulnerable to medical emergency (e.g., congestive heart failure or emphysema).
