

10. PUBLIC WORKS CONTRACTS

10.00 INTRODUCTION

(Rev 06/26)

This chapter is intended to provide guidance in the preparation, administration, and execution of small or minor public works contracts

An asterisk “*” used in this chapter indicates the dollar amount currently in effect as of the date of the most recent SCM I update, which is subject to change in accordance with applicable laws and Budget Letters issued by the Department of Finance (DOF). This chapter applies to public works contracts which are below the dollar amount designated by DOF as a project under PCC 10105. Currently, this dollar amount is \$484,000*.,

This chapter does not apply to public works contracts which are defined as projects under PCC § 10105 by agencies listed in PCC § 10106. Currently, in addition to DGS, those agencies are: the Department of Transportation (DOT), Department of Water Resources (DWR), Department of Parks and Recreation (Parks), the Department of Corrections and Rehabilitation (CDCR), the Military Department, and the California High Speed Rail Authority (CalHSRA). Additionally, some agencies may have other legislative authority to carry out specific types of public works projects. These agencies falling under PCC § 10106 and those with other legislative authority may execute public works contracts for any amount and are not subject to the review and approval of the DGS (PCC § 10100 et seq.). However, public works projects falling outside of these agencies’ specific authority are subject to the same requirements as those which apply to agencies without independent authority..

Public works contracts have significant requirements for both contractors and agencies, including, but not limited to, the requirement that agencies notify the Department of Industrial Relations (DIR) when awarding a contract for a public works project using the online PWC-100 and the requirement that all contractors and subcontractors who bid or work on a public works project must register with DIR. (See LC §§ 1771 et seq., and related regulations.)

10.05 DEFINITIONS (Rev 06/26)

- A. A public works contract is defined as “an agreement for the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind,” (PCC § 1101).
- B. A project, for purposes of the State Contract Act (PCC § 10100 et seq.), is defined as the “erection, construction, alteration, repair, or improvement of any State-owned structure, building, road, or other State improvement of any kind with a total cost exceeding an amount periodically adjusted by the Director of Finance (PCC § 10105). The current amount is \$484,000*.

Note: Some contracts meet the definition of “public works” under Labor Code section 1720, thereby requiring prevailing wages, but may not meet the definition of public works under Public Contract Code § 1101 and/or the State Contract Act and, therefore, may not be subject to other provisions of the Public Contract Code and this Chapter 10. (See 95 Ops. Cal. Atty. Gen. 102 (2012).)

10.10 AUTHORIZATION AND APPROVAL OF PUBLIC WORKS CONTRACTS (Rev 06/26)

NOTE: There is no NCB process available for Public Works Contracts. Additionally, DGS/OLS review and approval of contracts less than \$50,000 is not required. See GC § 14616.

Table 10.1 is limited to Public Work contracts. It does not apply to nor provide authority for Architectural and Engineering contracts.

Table 10.1

Dollar Amount of Contract	Authorization and Approvals Required	Legal Reference
Between \$50,000 and \$484,000*	DGS/OLS (DGS/RESD approval may be required depending on the nature of the work to be performed)	PCC § 10295, GC § 14616

Greater than \$484,000*	DGS/RESD (Form 23) and counsel for the contracting agency or the Office of the Attorney General	PCC § 10108.6 PCC § 10220, PCC § 10295,
-------------------------	--	---

Agencies awarding public works contracts must consult with DGS/RESD to determine whether DGS/RESD approval is required prior to beginning any necessary design work and prior to bidding any time they are carrying out a public work of improvement, regardless of amount. This obligation is the sole responsibility of the contracting agency. For public works contracts in the amount of \$484,000 or less, approval by DGS/OLS will be premised on the assumption that the agency has properly consulted with DGS/RESD prior to soliciting bids.

10.15 PUBLIC WORKS CONTRACTS BETWEEN \$1,000 AND \$484,000* (Rev 06/26)

A. Prepare the bid package as follows:

1. Prepare detailed plans and specifications.

a. Work specifications

Prepare clear and complete written specifications for the work. The specifications must be adequate in detail to apprise the prospective bidder of the character and extent of the work to be done and to ensure that the bids will be comparable and competitive. Room for speculation and conjecture must be reduced to a minimum.

b. Product specifications

Specifications may not be drafted in a manner that limits the bidding, directly or indirectly, to any one specific concern, or calling for a designated material, product, item, or service by a specific brand or trade name unless the specification is followed by the words "or equal." If the agency is aware of an equal product manufactured in California, it must name such product in the specifications (PCC § 3400). Special

rules applicable to roofing contracts are also contained in PCC sections 3002 and 3004.

- c. The specifications shall provide for a period of at least thirty-five (35) days after the award of the contract for submission of data substantiating a request of an “or equal” item. PCC § 3400(c) provides an exception if the agency makes a finding, included in the specifications, that a particular material, product, item, or service is designated by specific brand or trade name for any of the following purposes: 1) so that a field test or experiment may be made to determine the product’s suitability for future use; 2) in order to match other products in use on a particular public improvement either completed or in the course of completion; 3) in order to obtain necessary item that is only available from one source; or 4) in order to respond to a declared emergency.
2. Obtain approval from:
 - a. The State Fire Marshall (SFM):

SFM approval is required for changes in occupancy or use; remodels and modifications; and anytime flammable, combustible or hazardous materials will be stored or planned for the site.
 - b. The Department of General Services, Division of the State Architect, Access Compliance (DSA/AC):

DSA/AC review and approval is required for work involving construction of new, permanent or temporary buildings and facilities; or for renovation, structural repair, alteration, or additions to existing buildings and facilities including those identified as historic buildings.
3. Prepare the Notice to Contractors, including the following notifications:
 - a. A statement that the 5% small business preference, not to exceed \$50,000, will be granted (i) to a certified small business [or, as applicable, a certified small business for the purpose of public works], or (ii) to a non-small business if 25% of their bid is to a certified small business (a completed form STD 811 must be submitted with the bid proposal to request this preference).
 - b. The Contractors State License Board license classification necessary to bid on the contract (PCC § 3300).
 - c. Where to obtain bid packages.
 - d. Date, time, and place that bids must be received to be considered.
 - e. Notice that the successful bidder must enter into a contractual agreement in the form of a Standard Agreement STD 213.

- f. Prevailing Wages:
- The prevailing wage rates for each of the crafts or trade classifications involved in the proposed work to be contracted for must be set forth in the invitation for Bids (IFB) and in the contract itself.

Note: In lieu of specifying the rate of wages in the IFB and in the contract, the agency may include a statement that copies of the prevailing rate of per diem wages are on file at its principal office and shall be made available to any interested party upon request.
 - Obtain from the [Department of Industrial Relations](http://www.dir.ca.gov) (www.dir.ca.gov) or any source authorized by the Department of Industrial Relations, the prevailing wage rates before requesting bids. (LC §§ 1770 and 1773).
- g. Date, time, and place of a pre-bid meeting and/or site inspection. Mandatory pre-bid meetings shall not occur fewer than five (5) calendar days after the first publication of the initial Notice to Bidders (PCC § 6610).
- h. If the contract is estimated to exceed \$ 5,000:
- Statement that the contract is subject to State contractor nondiscrimination and compliance requirements (2 CCR Div. 4.1, Ch. 5, Art. 2).
- i. If the contract involves an expenditure in excess of \$25,000:
- Necessity of providing a payment bond (STD 807) equal to 100% of the total amount payable under the contract per PCC § 7103.

The specifications must be adequate in detail to apprise the prospective bidder of the character and extent of the work to be done and to ensure that bids will be comparable and competitive. Room for speculation and conjecture must be reduced to a minimum.

2. Product specifications

Specifications may not be drafted in a manner that limits the bidding, directly or indirectly, to any one specific concern, or calling for a designated material, product, item, or service by a specific brand or trade name unless the specification is followed by the words "or equal." request of an “or equal” item. PCC sections 3400 and 10129 provide that if the agency makes a finding, included in the specifications, that a particular material, product, item, or service is designated by specific brand or trade name for any of the following purposes: 1) so that a field test or experiment may be made to determine the product’s suitability for future use; 2) in order to match other products in use on a particular public improvement either completed or in the course of completion; 3) in order to obtain necessary item that is only available from one source; or 4) in order to respond to a declared emergency.

B. Prevailing Wages:

10.25 PUBLIC WORKS CONTRACTS REQUIRED LANGUAGE (Rev and Renumbered 04/26)

A. Instructions To Bidders

1. Employment of undocumented aliens

“No State agency or department, as defined in PCC § 10335.7, that is subject to this code, shall award a public works contract to a bidder or contractor, nor shall a bidder or contractor be eligible to bid for or receive a public works contract, who has, in the preceding five (5) years, been convicted of violating a State or Federal law regarding the employment of undocumented aliens PCC § 6101.”

The

assignment made by the contractor and all additional assignments made by the subcontractors and suppliers shall be deemed to have been made and will become effective at the time the awarding body tenders final payment to the contractor without further acknowledgment or the necessity of tendering to the awarding body any written assignments.”

“If an awarding body receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under GC §§ 4550 – 4554, the assignor shall be entitled to receive reimbursement for actual legal costs incurred and may, on demand, recover from the public body any portion of the recovery, including treble damages, and attributable overcharges that were paid by the assignor but were not paid by the public body as a part of the bid price, less the expenses incurred in obtaining that portion of the recovery. On demand in writing by the assignor, the assignee shall, within one year from such demand, reassign the cause of action assigned under GC §§ 4550 – 4554 if the assignor has been or may have been injured by the violation of law for which the cause of action arose and (a) the assignee has not been injured thereby, or (b) the assignee declines to file a court action for the cause of action.”
