MS. JONES: We have a quorum.

CHAIRPERSON ORTEGA: Thank you very much. Thank you all for being here today. I wanted to take a quick second to welcome the Director of General Services, Daniel
Kim. I don't think you have been at a meeting with us yet. So welcome and we look forward to working with you.

   MR. KIM: Thank you. Likewise.

   CHAIRPERSON ORTEGA: Our next item of business would be any public comment on issues that are not on the agenda.

   Seeing none, we'll move onto the Minutes.

   MS. SILVERMAN: Minutes are ready for your approval.

   CHAIRPERSON ORTEGA: We have Minutes from August 26th and September 8th. Any comments from Board members?

   MR. DIAZ: Move to approve.

   ASSEMBLYMEMBER CHAVEZ: Second.

   CHAIRPERSON ORTEGA: Moved by Mr. Diaz. Second by Mr. Chavez. Any public comment on the Minutes? Seeing none, all in favor.

   (Ayes)

   CHAIRPERSON ORTEGA: Any opposed or abstentions? Adopted unanimously. And the next, Lisa?

   MS. SILVERMAN: (Executive Officer's Statement)

   We have just a few updates regarding the program and just wanted to announce that we have currently an open filing round for the priorities of funding and that will be for projects that currently have unfunded approval, and those
projects that are receiving unfunded approval today will also be eligible to submit.

The deadline is tomorrow. So we want to encourage those folks who are eligible to submit that certification to us.

And also just an update with the Board for the projects that were apportioned. In September, $190 million were funded to projects, and a number of projects did come in at the last minute and so providing for some updates in January.

CHAIRPERSON ORTEGA: Okay.

MS. SILVERMAN: And then we wanted to update the Board, there was a question in August related to the cost of bond issuance related to our program.

The Treasurer did actually execute a bond sale. They did share with us there was a slight increase in the market costs due to the Greece climate -- local climate issues in Greece.

So they did share a report with us. So it was slightly higher than sales that occurred in March and April.

CHAIRPERSON ORTEGA: Okay.

MS. SILVERMAN: And the regulation update, there are some updates to the regulations that were approved by the Board. They were approved by the Office of Administrative Law, related to the add-on grant, was going
to be removed for public works projects, so those -- it's effective January 1st, 2016.

And we have the Board calendar for next year as well. So our next meeting is January 27th.

CHAIRPERSON ORTEGA: Any comments or questions from Board members? Okay. Seeing none, we'll move onto the Consent Agenda.

MS. SILVERMAN: Yeah. Also I wanted to highlight really quickly. I know we have seismic projects that we've been working closely with Desert Sands and again, this is to highlight that we have a streamline process that we've been working with the district and the Division of State Architect to try to alleviate some of those concerns about -- and come to some agreement related to some of the costs associated with the seismic project.

So we just wanted to highlight there is a project on the Consent Agenda that we did work very closely with these folks. And so we're looking forward to more streamlining in the future with some additional projects.

CHAIRPERSON ORTEGA: Great. Great. I think after much discussion over the issues that have been raised around the Seismic Mitigation Program that it's important to know that some of these issues can be resolved and will be brought on the Consent Agenda. So thank you for that.

Any comments or questions on the consent items?
Okay. Is there any public comment on any of the items on the consent calendar? Okay. Seeing none, is there a motion?

MR. DIAZ: Motion to approve.
CHAIRPERSON ORTEGA: Moved by Mr. Diaz.
ASSEMBLYMEMBER CHAVEZ: Second.
CHAIRPERSON ORTEGA: Second by Mr. Chavez. All in favor of the consent calendar say aye.

(Ayes)
CHAIRPERSON ORTEGA: Any abstentions or objections? No. Financials?

MS. SILVERMAN: So just -- I know we have interest of time today and wanted to give the Board an update as far as the cash that's being released on page 158.

The fund releases, the Board took action with the bond sales. There were over $42 million since we last met in cash being released, and we'll have some additional updates when we report in January as far as those projects that perfect and the timelines with the bond sale in August.

And if there's no question with that, on the Status of Funds, just wanted to share with the Board, we did have a number of projects going through the closeout and adjustment phases for all three propositions.

So there were 28 projects in the Consent Agenda that reflected some adjustments, and as a result, there's
$1.4 million of program funds returned back to the program. And we wanted to also highlight in the Consent Agenda, there was a number of approvals that also included seismic projects that were -- and a number of facility hardship projects that were approved in the agenda and $11 million of additional unfunded approvals and some conversions also did go through the Consent Agenda. And that represented over 18 items in that category.

So that leaves $126.7 million available in bond authority for the program.

And with that, we'll take questions.

CHAIRPERSON ORTEGA: Any questions about the financials? Any public comment on those items? Seeing none, Item 7 was withdrawn. So we'll move onto the legislative update.

MS. KAMPMEINERT: On page 191, we have our annual legislative update item and this is included for the Board's reference. It's a listing of bills with a brief summary of anything that may have an impact to programs administered by the Board or may be related to the programs.

We are still evaluating if any of these bills require further action by our office or by the Board, and in the event that they do, we will bring it back to the Board for consideration. But for today, it's just for information to alert everybody to the bills that have gone through.
CHAIRPERSON ORTEGA: Any comments? Okay. Without anything else, we'll move onto the three-month workload. Lisa, do you have anything --

MS. SILVERMAN: No, nothing to highlight. So we meet in January.

CHAIRPERSON ORTEGA: Okay. Any other comments from Board members? Any other public comment?

Okay. Before we adjourn, we wanted to take a point of personal privilege here of the Chair and the other Board members to recognize -- I think many of you may know that Mr. Almanza -- Esteban Almanza who had been our designee on the Board for over four years that he's been at DGS -- Department of General Services since May of 2011.

We have -- very lucky for him, been able to retire and he retired on December 1st with 32 years -- more than 32 years of state service. And so we wanted to recognize both his services to the state and his service to the Board and we have a resolution for him.

And so I hope you all will indulge us in congratulating him on his retirement and we look forward to hearing about all the great times he's having.

Mr. Almanza, if you'd like to come -- we'll hand this to you -- everybody can see how nice it is. From the State Allocation Board and it's signed by all the members of the Board.
MR. ALMANZA: Thank you.

CHAIRPERSON ORTEGA: There you go.

(Applause)

CHAIRPERSON ORTEGA: Congratulations again. I know the staff and the Board members will miss you here.

MR. ALMANZA: It's been a privilege to serve on the Board and serve the many, many schools throughout our state who are in need of this assistance. So thank you very much.

CHAIRPERSON ORTEGA: Great.

(Applause)

CHAIRPERSON ORTEGA: I don't think we have any other official items. Nothing else from Board members? Anything else from the public? Okay. Seeing none, we'll adjourn. Happy holidays, everyone.

(Whereupon, at 2:17 p.m. the proceedings were adjourned.)
