To date, workshops have been held in Yolo, Humboldt, Shasta, Butte, and Sonoma Counties. School district personnel and interested parties are encouraged to attend these workshops for an in-depth overview of the programs, guidance on how to participate in the programs, as well as the opportunity to ask questions of OPSC and CDE staff. These workshops aim to equip potential applicants to the new Small School District Program with the necessary information to navigate the funding process effectively and ensure they understand all aspects of this program and additional programs available to help them meet their facility needs.

Time Extension Due to State of Emergency

During periods of emergency proclaimed by the Governor, existing regulations direct the Executive Officer to provide relief to school districts and maintain equitable participation in SAB programs, which may include extending deadlines. On April 3 and 17, OPSC held the first two of seven virtual open forum events regarding the OPSC Online Application (OPSC Online). Each of these events was attended by roughly 30 unique stakeholders. At its December 2025 meeting, the Board approved regulations to require use of OPSC Online for all application submittals beginning on January 1, 2027. To assist school districts in preparing for this change, OPSC staff is conducting a series of open forum events to walk through various workflows and functionality in OPSC Online. School district personnel and interested parties are encouraged to attend. Meeting details are on OPSC's Meetings webpage: https://www.dgs.ca.gov/OPSC/Meetings. Details of additional workshops will be announced in email blasts.

STATE AGENCY JOINT SMALL SCHOOL DISTRICT WORKSHOPS

This month's workshops were held in Kern, Fresno, Orange, Riverside, San Diego, and Monterey Counties, following March workshops held in Yolo, Humboldt, Shasta, Butte, and Sonoma Counties. A total of 93 stakeholders attended these workshops. An additional virtual workshop will be held in the near future. The meeting details, including the date of the event, will be announced

in an email blast and will be available on OPSC's Meetings webpage: https://www.dgs.ca.gov/OPSC/Meetings. Additionally, OPSC and CDE intend to make a recorded version of the workshop content available on their respective websites in the near future.

These workshops aim to equip potential applicants to the new Small School District Program to navigate the funding process effectively and ensure they understand all aspects of this program and additional programs available to help them meet their facility needs.

SCHOOL FACILITY PROGRAM

This Resolution of the State Allocation Board (hereafter referred to as the "Board") is applicable to the appropriate sections of the Education Code and is described and filed in the office of the Executive Officer and will be made available to all interested parties as the Resolution pertains to the documents attached hereto. Said documents were acted upon by the Board at its meeting on April 29, 2026.

WHEREAS, the Board has previously approved or determined to be approvable a number of projects for construction or modernization eligibility of facilities for school districts and is making apportionments and/or unfunded approvals for the grant amounts for projects that meet the Board's criteria for the apportionment of grants pursuant to Education Code Sections 17072.10, 17078.52, 17078.70, 17079 or 17074.10 or Board Regulations 1859.81.1 or 1859.83;

WHEREAS, Treasury Regulations Section 1.150-2 require the State (on whose behalf the Board is acting) to declare its reasonable intent to provide grant funding to school districts, in accordance with Board policy and law, for costs of the projects with proceeds of State bonds.

NOW THEREFORE, BE IT RESOLVED:

1. This Resolution is adopted by the Board for the purposes of establishing compliance with Treasury Regulations Section 1.150-2 and this Resolution does not bind the Board to make any additional apportionment or bind the State to incur any indebtedness.

2. The Board anticipates that some or all of the school districts listed on the list of "Projects" referred to in this Resolution will pay certain capital expenditures in connection with some or all of the project's cost prior to the issuance of bonds by the State to pay for the grants for the projects. The reimbursement of such costs is consistent with the State's budgetary and financial circumstances, and in accordance with Board policy, as no other funds or accounts of the State have been budgeted or are available to pay the costs of the projects on either a short-term or a long-term basis.

3. SCHOOL FACILITY PROGRAM UNFUNDED APPROVALS

(Lack of AB 55 Loans)

PURPOSE OF REPORT

To present to the State Allocation Board (Board) a list of School Facility Program (SFP) applications for unfunded approval.

DESCRIPTION

The projects listed on the Attachment represent SFP New Construction, Modernization, Charter School and/or Overcrowding Relief Grant projects in date order of a complete application being received by the Office of Public School Construction (OPSC).

AUTHORITY

SFP Regulation Section 1859.2 defines an Unfunded List (Lack of AB 55 Loans) as an information list of unfunded projects that was created due to the State's inability to provide interim financing from the Pooled Money Investment Account (AB 55 loans) to fund school construction projects as declared in the Department of Finance Budget Letter #33 issued on December 18, 2008.

SFP Regulation Section 1859.95 states:

"When the Board has no funds to apportion …, the Board will also accept and process applications for apportionment for purposes of developing an Unfunded List based on the date the application is Ready for Apportionment, with the exception of New Construction funding applications that utilize eligibility generated by the Alternative Enrollment Projection.

. . .

An application for funding included on an Unfunded List is eligible for reimbursement subject to adjustments in the New Construction Grants amount pursuant to Section 1859.77."

BACKGROUND

At the March 11, 2009 SAB meeting, the Board requested that Staff continue to process applications to the Board for unfunded approval, up to the bonding authority. The Attachment reflects applications being presented for unfunded approval, including SFP modernization and new construction projects in date order of a complete application being received by the OPSC. The list also includes health and safety facility hardship applications for funding that have been processed and are ready for approval regardless of received date. The unfunded approval of the applications as reflected on the Attachment does not constitute a guarantee of future funding.

RECOMMENDATIONS

1. Approve the SFP applications as presented on the Attachment.
2. Provide that these unfunded approvals do not constitute a guarantee of future funding.

Carpinteria Unified School District – Santa Barbara County

PURPOSE OF REPORT

To present the District's request for the State Allocation Board (Board) to grant a refund of the 2024/25 Fiscal Year unused site assessment fee.

DESCRIPTION

The District was assessed an unused site fee of $96,079 for the 2024/25 Fiscal Year at the December 3, 2025 Board meeting, and is being deducted from the District's State School Fund Apportionment during the months of February through May 2026. The District recently submitted documentation indicating that they have sold the site. Therefore, the District is eligible for a refund for the unused site assessment fee withheld for the 2024/25 Fiscal Year.

Site	Year	Annual Payment	Recommendation
Bailard Avenue Parcel #1-080-45 And 46	2024/25	$96,079	Refund

AUTHORITY

Pursuant to Education Code (EC) Section 17223(a), "Whenever a school district has either begun to use an unused site or has sold that site within two years of the date the Controller, pursuant to Section 17222, has deducted a certified nonuse payment from the district's State School Fund apportionment, the State Allocation Board shall certify that fact to the Controller. The Controller shall then cease to withhold any additional payments and shall return to the district from the State School Site Utilization Fund the payments, without interest, which had been withheld for the particular site during the prior fiscal year …"

BACKGROUND

As required by law, all school districts are required to report any unused school sites to the Board annually. The school districts self-certify requests for waivers and reduction of fees based on certain criteria outlined in EC Section 17219. EC Section 17223(a) allows for districts to receive a refund for sites that a district has begun to use or has sold during the previous fiscal year. The District recently submitted documentation certifying that the site has been sold.

STAFF ANALYSIS/STATEMENTS

The District has provided documentation to support its request.

RECOMMENDATION

Approve the District's request for a refund of the 2024/25 Fiscal Year unused site assessment fee in the amount of $96,079 and notify the State Controller's Office to refund the Annual Payment.

Sequoia Union High School District – San Mateo County

PURPOSE OF REPORT

To present the District's request for the State Allocation Board (Board) to grant a refund of the 2023/24 Fiscal Year unused site assessment fee.

DESCRIPTION

The District was assessed an unused site fee of $59,729 for the 2023/24 Fiscal Year at the December 3, 2024 Board meeting. This amount was deducted from the District's State School Fund Apportionment during the months of February through May in 2025. The District recently submitted documentation indicating that they are a "basic aid district." Therefore, the District is eligible for a refund of the unused site assessment fee that was withheld for the 2023/24 Fiscal Year.

Site	Year	Annual Payment	Recommendation
535 Old County Drive	2023/24	$59,729	Refund

AUTHORITY

Pursuant to Education Code (EC) Section 17222, in no event shall the unused site deductions from the State School Fund exceed an amount which would result in a district's receiving, in any school year, less than one hundred twenty dollars ($120) per pupil in average daily attendance in the district during the preceding school year.

BACKGROUND

As required by law, all school districts are required to report any unused school sites to the Board annually. The school districts self-certify requests for waivers and reduction of fees based on certain criteria outlined in EC Section 17219. EC Section 17222 allows for districts to receive a waiver if the district is considered a "basic aid district." The District recently submitted documentation certifying that it is a "basic aid district," which is an allowable waiver and, therefore, should not be charged unused site assessment fees on this site.

STAFF ANALYSIS/STATEMENTS

The District has provided documentation to support its request.

SCHOOL DISTRICT APPEAL REQUEST

SCHOOL DISTRICT DATA

School District: Selma Unified
Application Number: 70/62430-00-015
Total District Enrollment: 5,914
County: Fresno
School Name: Andrew Jackson Elementary
Project Grade Level: TK-6
Financial Hardship: No

PURPOSE OF REPORT

To present the District's request for the State Allocation Board (Board) to reinstate Board-approved California Preschool, Transitional Kindergarten and Full-Day Kindergarten Facilities Grant Program (Program) funding application 70/62430-00-015 at Andrew Jackson Elementary School, and to immediately release funding.

DESCRIPTION

On September 27, 2023, the Board approved a design advance Program apportionment for this project to construct four transitional kindergarten and four full-day kindergarten classrooms. Program regulations and policy required the District to submit a complete *Fund Release Authorization* (Form SAB 70-02) and Division of the State Architect (DSA) and California Department of Education (CDE) plan approvals within 18 months from the date of the first apportionment, by March 27, 2025. Program Regulation Section 1860.16(f) allows a district to request Board approval for an extension of up to three years from the date of the first apportionment to submit the Form SAB 70-02 and required approvals, based on other evidence of circumstances beyond the district's control that precludes it from meeting the deadline.

In 2024, the District assessed whether its current and future transitional kindergarten and kindergarten enrollment justified construction of the eight classrooms requested and approved for this project, and the assessment showed a decline in enrollment. To better fit its current and projected enrollment needs, the District reduced the scope of work to the construction of two transitional kindergarten classrooms. Due to the scope change, the District needed more time to obtain DSA and CDE plan approvals and submit a Form SAB 70-02. The District requested a seven-month extension, to October 27, 2025, based on other evidence of circumstances beyond the District's control that precluded it from meeting the original deadline. On May 28, 2025, the Board approved the District's requested seven-month extension to the fund release deadline. On June 25, 2025, the Board approved the District's amended design advance Program application with the scope change. Subsequently, the District requested and the Board approved an additional two-month extension to December 27, 2025, due to turnover of key project staff which caused delays in obtaining CDE approval and in completing the contract award process.

On December 27, 2025, the District missed the deadline to submit either a fund release request or an additional extension request. Per Program regulations, the apportionment was automatically rescinded.

DESCRIPTION (cont.)

Before the deadline, the District sent the signed forms to its consultant to submit to the Office of Public School Construction (OPSC); however, due to illness, the District's consultant did not realize they had not submitted the forms until after the deadline. When the District discovered it missed the deadline approximately two weeks later, the District and its consultant contacted OPSC. Program regulations do not include options to administratively reinstate the project, although the District has not yet exceeded the three-year maximum timeframe to request fund release and complete the project. Therefore, the District submitted a *School District Appeal Request* (Form SAB 189) (Attachment A) to OPSC on January 22, 2026.

AUTHORITY

See Attachment B.

BACKGROUND

District and Project History
The Selma Unified School District is a TK-12 school district located in Selma in Fresno County. The District currently serves a student population of 5,914. Their Free and Reduced Price Meal Percentage for the 2022-23 school year used for this application was 90.0 percent, assigning them a total of 30 preference points for the purposes of Program funding order.

Status of the Project
The District obtained DSA plan approval on September 11, 2025 and CDE plan approval on November 17, 2025 for the amended project scope of two transitional kindergarten classrooms. The District has signed construction contracts, and if this appeal is approved, the District states it will submit the Form SAB 70-02 to request an immediate release of funds. The District anticipates the completion of construction in late June 2026.

STAFF ANALYSIS/STATEMENTS

District Position
The District requests the Board allow for the reinstatement of its Program application and for an immediate release of the requested funding.

Per the District's narrative:

"The District had signed and certified the applications, sent the signed forms to SchoolWorks, and the forms were not submitted to OPSC on time. The project manager was sick when the District sent the signed forms for submittal and was out for the holidays during the week of the deadline. He thought that forms had been sent to OPSC, but did not realize they were not until after the deadline."

The full text of the District's request is included in Attachment A.

Staff Position
Staff supports the District's appeal request. If the District had submitted a third extension request before the December 27, 2025 deadline, the application would not have been automatically rescinded, and the extension request would have been presented to the next available Board meeting for consideration in the Consent Agenda. The District's request

STAFF ANALYSIS/STATEMENTS (cont.)

cannot be resolved administratively as the Program regulations do not account for the District's circumstances and thus requires Board approval.

Program Fund Release Time Extensions
At the September 27, 2023 meeting, the Board adopted regulatory amendments to the Program that extended the fund release and project completion deadlines. The Board also approved a policy to apply the extended deadlines to applications apportioned in the third and fourth Program funding rounds, which included the Andrew Jackson Elementary application. Therefore, under current Program regulations, the District was required to submit a complete Form SAB 70-02, including CDE and DSA plan approvals, and enter into a binding contract for at least 90 percent of the building construction activities of the project within 18 months of receiving an apportionment. Otherwise, Program Regulation Section 1860.16(f) allows the district to request an extension by submitting other evidence satisfactory to the Board of circumstances beyond the control of the school district. The regulation states that if the required submittals or other evidence in writing are not received within 18 months from the date of the first Apportionment, the Apportionment shall be rescinded, and the grant will return to the Program for reallocation without further Board action. Program Regulation Section 1860.16(f)(1) allows the extension to be up to three years from the date of the first Apportionment, which is the deadline to complete the project.

Previous Appeal Request for Reinstatement
A similar circumstance has occurred only once before in the Program. In July 2025, due to limited staff capacity and significant staff turnover, the Orland Joint Unified School District missed the deadline to submit either a fund release request or an additional extension request. Its funding application 70/75481-00-002 at Mill Street Elementary School was automatically rescinded. On January 28, 2026, the Board approved the Orland Joint Unified School District's appeal request to reinstate the funding application and receive an immediate fund release once a complete and valid Form SAB 70-02 and necessary plan approvals were submitted to OPSC.

Considerations
The District has demonstrated progress by obtaining the DSA and CDE plan approvals needed for fund release, and the project is under construction with anticipated completion in late June 2026, before the three-year completion deadline of September 27, 2026. The District has submitted the required plan approvals and construction documents to OPSC. If the appeal is approved, the District is ready to submit the Form SAB 70-02 and Grant Agreement needed to receive immediate funding for their project.

RECOMMENDATION

Pursuant to the Rules and Operating Procedures of the State Allocation Board, "Staff is providing the following option for the Board's consideration. A positive vote by six members is required for the Board to take action that is an alternative to staff's administrative action. Absent a positive vote by six members of the Board, staff's administrative action will stand, and the school district's appeal will be considered closed."

1. Approve the District's appeal request to reinstate the Program application and receive an immediate fund release once a complete and valid Form SAB 70-02 and a signed Grant Agreement are submitted to OPSC.

Basis of Request:

☐ Law (Statute) _____

☐ Regulation _____

☐ Other (specify) _____

Description:

The District had submitted all paperwork for the fund release forms on time but required an additional extension request for the CDE approval letter. The application process was done in a timely matter. The District had signed and certified the applications, sent the signed forms to Schoolworks, and the forms were not submitted to OPSC on time. The project manager was sick when the District sent the signed forms for submittal and was out for the holidays during the week of the deadline. He thought that forms had been sent to OPSC, but did not realize they were not until after the deadline. This delay was not the fault of the district. We apologize for the inconvenience and assure OPSC and the SAB that the project is on tract to meet the final deadline for construction completion and filing of the expenditure reports that are due this fall.

AUTHORITY

California Preschool, Transitional Kindergarten and Full-Day Kindergarten Facilities Grant Program Regulation Section 1860.16(f) states:

(f) For an Apportionment received pursuant to Section 1860.7(b) and 1860.7(d), where submittal of the necessary CDE plan approval and/or DSA-approved plans and specifications were not required at the time the Board granted an Apportionment, the School District has up to 18 months to submit the required approvals and a complete *Fund Release Request* (Form SAB 70-02) from the date of the first Apportionment. The School District may submit in writing other evidence satisfactory to the Board of circumstances beyond the control of the School District that precludes the School District from submitting the required CDE plan approval, DSA-approved plans and specifications, and a complete Form SAB 70-02 within 18 months from the date of the first Apportionment. If the required submittals or other evidence in writing are not received within 18 months of the first Apportionment, the Apportionment shall be rescinded and the Full-Day Kindergarten Facilities Grant will return to the Program for reallocation without further Board action.

(1) School Districts submitting other evidence shall have up to three years from the date of the first Apportionment to submit the required approvals and a complete *Fund Release Authorization* (Form SAB 70-02). This shall not extend the deadline in Section 1860.18.

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, April 29, 2026

PRIORITY FUNDING SCHOOL CONSTRUCTION APPORTIONMENTS

PURPOSE OF REPORT

To provide priority School Facility Program (SFP) funding Apportionments totaling approximately ~~$751.0~~ $745.6 million for the projects that submitted a valid priority funding certification.

DESCRIPTION

SFP regulations establish two annual filing periods to prioritize school construction funding as cash proceeds become available to provide Apportionments. Specifically, the regulations provide two 30-calendar-day periods in which school districts can request to receive an Apportionment upon meeting certain criteria, including acknowledgement that a *Fund Release Authorization* (Form SAB 50-05) must be submitted within 90 calendar days of receiving an Apportionment.

Based on SFP regulations, the recent filing period began on November 12, 2025, and closed on December 11, 2025. Requests must have been received by the Office of Public School Construction (OPSC) on or before December 11, 2025, and are valid from January 1, 2026, through June 30, 2026.

By approving this item, the State Allocation Board (Board) will provide approximately ~~$751.0~~ $745.6 million in Apportionments for ~~191~~ 189 projects from ~~90~~ 89 school districts and qualifying applicants.

AUTHORITY

See Attachment A.

BACKGROUND

Requests/Acknowledgements

Pursuant to SFP Regulations, applicants choosing to participate in the priority funding process must submit a request to convert an unfunded approval to an Apportionment. As part of the request, applicants are required to make the following acknowledgements:

- The applicant understands that the time limit on fund release shall be no more than 90 calendar days from the date of Apportionment.

BACKGROUND (cont.)

- The applicant acknowledges that failure to submit a valid Form SAB 50-05 within the 90-day period will result in the project being rescinded without further Board action. A rescinded application will revert to an unfunded approval with a new date on the Unfunded List (Lack of AB 55 Loans) that is 90 calendar days from the date of Apportionment and cannot be guaranteed bond authority.
- In the case that multiple rescissions are made by the Board, each separate application will be placed on the Unfunded List (Lack of AB 55 Loans) with a new date that is 90 calendar days from the date of Apportionment, in the order of the original unfunded approval date. The district will not be required to resubmit the application and no further application review will be required.
- The applicant acknowledges that by participating in the priority funding process, the applicant is waiving its right to the timeline for fund release submittal described in Section 1859.90.
- The applicant acknowledges that a Grant Agreement must be submitted pursuant to SFP Regulation Section 1859.90.4 and received by OPSC prior to, or concurrently with, the Form SAB 50-05.

Current Priority Funding Round and the Unfunded List (Lack of AB 55 Loans)

Requests submitted during the period that ended on December 11, 2025, will expire on June 30, 2026. This priority funding round generated approximately ~~$751.0~~ $745.6 million in valid Apportionment requests from ~~90~~ 89 applicants for ~~191~~ 189 out of 204 unique projects, which represents ~~93.63~~ 92.65 percent of the projects on the Unfunded List (Lack of AB 55 Loans) that could have submitted requests.

The attachments provide detailed lists of the Apportionment requests received during this filing period, as well as projects that remain on the Unfunded List (Lack of AB 55 Loans). The applications receiving an Apportionment are indicated in Attachments B and C. In addition, Attachment C includes ~~114~~ 116 projects that will remain on the Unfunded List (Lack of AB 55 Loans). Three of the ~~114~~ 116 remaining projects represent unfunded approvals for site or design funding for the Charter School Facilities Program that are not subject to rescission after two occurrences of non-participation in the priority funding process.

STAFF ANALYSIS/STATEMENTS

Fund Release Requirements

Applicants receiving Apportionments are required to submit a valid Form SAB 50-05 containing an original or electronic signature for each approved application. The Form SAB 50-05 must be signed by the designated District Representative and must be received by OPSC no later than 11:59 p.m. on July 28, 2026. The form may be submitted electronically via OPSC Online or via email to OPSCApplicationReviewTeam@dgs.ca.gov. OPSC will continue to accept hard copy versions that are mailed or hand delivered to the Office of Public School Construction at 707 Third Street, 3rd Floor, West Sacramento, CA 95605. If a district fails to submit a valid Form SAB 50-05 within the allotted time frame, the project will be rescinded without further Board action and will receive a new unfunded approval date of July 28, 2026, on the Unfunded List (Lack of AB 55 Loans).

Grant Agreement

For all projects approved for placement on the Unfunded List (Lack of AB 55 Loans) on or after June 5, 2017, a Grant Agreement for the project with an original or electronic signature by an authorized District Representative must be submitted prior to, or concurrently with, the Form SAB 50-05 in order for the Form SAB 50-05 to be considered valid.

Non-Participation in the Priority Funding Process

SFP regulations effective on March 25, 2013, limit the number of times a district can choose not to participate in the priority funding process for a project on the Unfunded List (Lack of AB 55 Loans). Projects receiving an Apportionment in this item that do not submit a valid Form SAB 50-05 no later than 11:59 p.m. on July 28, 2026, will receive one non-participation occurrence. If this is the project's second non-participation occurrence, the project will be fully rescinded without further Board action and will not return to the Unfunded List (Lack of AB 55 Loans)[1]. The bond authority associated with rescinded projects will return to the SFP.

[1] An exception exists for unfunded approvals for site or design funding for the Charter School Facilities Program, which are not subject to rescission after two occurrences of non-participation in the priority funding process.

STAFF ANALYSIS/STATEMENTS (cont.)

New Priority Funding Round

A new 30-day priority funding request filing period will begin on May 13, 2026 and will end on June 11, 2026. Requests submitted during that period will be valid from July 1, 2026, through December 31, 2026.

The board shall require the procedure, forms, and the submission of any information it may deem necessary or appropriate. Unless otherwise provided in the appropriation act, the board may require that applications for allocations or apportionments be submitted to it for approval."

SFP Regulation Section 1859.90.2, "Priority Funding Process" states:
"The priority funding process allows the Board to distribute available funds to districts or charter schools that request, pursuant to (a) or (b) below, as applicable, an Apportionment or an advance release of funds from a Preliminary Apportionment or Preliminary Charter School Apportionment, during specific 30-calendar day filing periods beginning with July 27, 2011 and continuing with the 2nd Wednesday of January and the 2nd Wednesday of July of 2012. Requests submitted during the filing periods described above are valid until the next filing period begins. The specific 30-

calendar day filing periods subsequent to 2012 begin with January 9, 2013 and continue with the 2nd Wednesday of May and the 2nd Wednesday of November, each calendar year. Requests submitted during the filing period beginning with January 9, 2013 are valid until June 30, 2013. Requests submitted during a filing period beginning with the 2nd Wednesday of May are valid from July 1 until December 31 of that year. Requests submitted during a filing period beginning with the 2nd Wednesday in November are valid from January 1 until June 30 of the following year. Requests must be physically received by the OPSC by the 30th calendar day of each filing period to be considered valid.

(a) In order to be considered for an Apportionment, approved advance release of design funds from a Preliminary Charter School Apportionment, or approved advance release of environmental hardship site acquisition funds from a Preliminary Apportionment, the district or charter school must provide a priority funding request in the form of a written statement signed by an authorized representative that includes each of the project Application numbers, and the type of Apportionment request (e.g., Apportionment, separate Apportionment for design or site acquisition), within the 30-calendar day filing period, and shall contain the following:
(1) Statement that the request is to convert the unfunded approval to an Apportionment or to receive an approved advance release of funds; and
(2) Acknowledgement that a valid, original signature Form SAB 50-05 must be submitted and physically received by the OPSC within 90 calendar days of Apportionment or approved advance release of funds request, except for a Career Technical Education Facilities Project in (a)(5), and that failure to do so will result in the rescission of the Apportionment or approved advance release of funds request without further Board action; and
(3) Acknowledgement that a Grant Agreement must be submitted pursuant to Section 1859.90.4 and physically received by the OPSC prior to, or concurrently with, the Form SAB 50-05 referenced in (a)(2); and
(4) Acknowledgement that, if the district submits the Form SAB 50-05 on or after July 1, 2013 and is required to submit an LCP third party report, pursuant to Section 1859.97(b), the report will be submitted to the OPSC and the DIR at least 60 days prior to submitting the Form SAB 50-05; and
(5) For those receiving an Apportionment, acknowledgement that by participating in the priority funding process, the district or charter school is waiving its right to the timeline for fund release submittal described in Section 1859.90.
(6) For a Career Technical Education Facilities Project that was granted an unfunded approval without the required CDE plan approval and/or required DSA-approved plans and specifications, the applicant's request must include:
(A) Acknowledgement that the applicant must submit the required approval(s) to the OPSC within 12 months from the date of the Apportionment. If the required submittal(s) is not received within 12 months, the Apportionment shall be rescinded without further Board action pursuant to Section 1859.197(c)(1); and
(B) Acknowledgement that a valid, original signature Form SAB 50-05 must be submitted and physically received by the OPSC within 90 calendar days of the submittal described in (6)(A) and that failure to do so will result in the rescission of the Apportionment without further Board action; and
(C) Acknowledgement that a Grant Agreement must be submitted pursuant to Section 1859.90.4 and physically received by the OPSC prior to, or concurrently with, the Form SAB 50-05 referenced in (a)(6)(B).

(b) In order to be considered for an approved advance release of site acquisition funds from a Preliminary Charter School Apportionment, the district or charter school must provide a priority funding request in the form of a written statement signed by an authorized representative within the 30-calendar day filing period, and shall contain all of the following:
(1) Statement that the request is to convert the advance release of funds to an approved advance release of funds request; and,
(2) Acknowledgement that a valid, original signature Form SAB 50-05 must be submitted and physically received by the OPSC within 180 calendar days of the approved advance release of funds request and that failure to do so will result in the rescission of the approved advance release of funds request without further Board action; and
(3) Acknowledgement that a Grant Agreement must be submitted pursuant to Section 1859.90.4 and physically received by the OPSC prior to, or concurrently with, the Form SAB 50-05 referenced in (b)(2); and
(4) Acknowledgement that it must provide evidence that it has entered into the Charter School Agreements within 90 calendar days of approval of the advance release of funds request and that failure to do so will result in the rescission of the approval without further Board action.

(c) If a district or charter school receives an Apportionment or approved advance release of funds request through the priority funding process, the OPSC must receive a valid, original signature copy of the Form SAB 50-05 within the specified time period, pursuant to (a)(2), (a)(6) or (b)(2), as applicable, and a Grant Agreement, pursuant to (a)(3), (a)(6)(C), or (b)(3), as applicable. Upon submittal of the original signature copy of the Form SAB 50-05, if OPSC determines that the Form SAB 50-05 is not valid, the district will have ten business days to amend the Form SAB 50-05 in order to make the Form SAB 50-05 valid. If the OPSC does not receive a valid, original signature copy of the Form SAB 50-05 within the time period:
(1) The priority funding Apportionment or approved advance release of funds request shall be rescinded without further Board action, and
(2) If the Application is not subject to rescission pursuant to Section 1859.90.3(c) as defined in Section 1859.90.3(d), the Application shall return to the Unfunded List (Lack of AB 55 Loans) with a new unfunded approval date that is 90 calendar days from the date of Apportionment or approval of the advance release of funds request.

(d) In the event that the amount of requests received during a specific 30-calendar day filing period exceeds the funds available, the Board shall apportion based on the unfunded approval date and the Application received date up to the available cash from each bond source. Projects that have requested to participate in the priority funding process for which an Apportionment cannot be provided shall retain their date order position on the Unfunded List (Lack of AB 55 Loans). Requests not converted to Apportionments will not be returned to the district or kept by the OPSC.

(e) In the event that unexpected cash proceeds from sources other than bond funds become available for use for priority funding Apportionments, at a public meeting the Board may, based on considerations relevant to the amount of time available to effect a distribution of funds, waive the 30-calendar day filing provision specified in this section for impacted school districts to provide funds more rapidly.

(1) OPSC shall identify and invite impacted school districts to submit a priority funding request that meets all other criteria in (a) above.
(2) Requests submitted under this provision shall be valid from the date the priority funding request is submitted until the end of the regularly scheduled filing period specified above.
(3) Requests submitted under this provision must comply with all other requirements of the priority funding process in this Section and Section 1859.90.3.
(4) Districts may decline to submit a request outside the normal 30-calendar day filing period without consequence. If the option to submit a request is declined, the requirements to participate in the standard 30-calendar day filing periods specified in (a) above remain in effect.
(5) Unexpected cash proceeds from sources other than bond funds include, but are not limited to, the $250 million appropriated from the General Fund to the 2016 State School Facilities Fund as a result of the enactment of Statutes of 2021, Chapter 44, Section 163 (Assembly Bill 130).

(f) For purposes of this section “rescinded” or “rescission” shall mean that the Apportionment or approved advance release of funds request returns to unfunded approval status with a new unfunded approval date, except for (a)(5)(A). The new unfunded approval date will be 90 calendar days from the Apportionment date. The district or charter school will not be required to re-submit the Application and no further Application review will be required.”

SFP Regulation Section 1859.90.3, “Participation in the Priority Funding Process” states:
“This section applies to Applications for funding for new construction, modernization, Overcrowding Relief Grant, Career Technical Education Facilities Program, Facility Hardship pursuant to Sections 1859.82.1 and 1859.82.2, and Charter School Facilities Program, excluding advance release of design and/or site acquisition funds from a Preliminary Charter School Apportionment.

(a) For each Application on the Unfunded List (Lack of AB 55 Loans) for new construction, modernization, Facility Hardship pursuant to Sections 1859.82.1 or 1859.82.2, the occurrences of (1) or (2) below shall be limited after the effective date of this regulation section [March 25, 2013]. For each Application on the Unfunded List (Lack of AB 55 Loans) for Overcrowding Relief Grant, Career Technical Education Facilities Program, and Charter School Facilities Program, excluding advance release of design and/or site acquisition funds from a Preliminary Charter School Apportionment, the occurrences of (1) or (2) below shall be limited after the effective date of this regulation section [October 1, 2014]:
(1) The district abstains from participating in a priority funding 30-calendar day filing period described in Section 1859.90.2 for the Application on the Unfunded List (Lack of AB 55 Loans).
(2) The Application receives a priority funding Apportionment pursuant to Section 1859.90.2(a), and the district fails to meet the fund release requirements pursuant to Section 1859.90.2(c).

(b) The first occurrence of (a)(1) or (a)(2) shall result in the following, as applicable:
(1) If (a)(1) occurs, the Application shall retain its place on the Unfunded List (Lack of AB 55 Loans).

(2) If (a)(2) occurs, the priority funding Apportionment shall be rescinded and the Application shall be returned to the Unfunded List (Lack of AB 55 Loans) pursuant to Section 1859.90.2(c)(2).

(c) If subsection (b) has occurred, a subsequent occurrence of either (a)(1) or (a)(2) shall result in the rescission of the Application's Apportionment and/or unfunded approval, as applicable, and the removal of the Application from the Unfunded List (Lack of AB 55 Loans) without further Board action. The Application shall be returned to the applicant.

(d) For purposes of subsection (c), "rescinded" or "rescission" of an unfunded approval shall mean that the bond authority associated with the Apportionment or unfunded approval, as applicable, returns to the appropriate School Facility Program bond authority source for reallocation. If applicable, the pupils housed in the project will be added back to the district's baseline eligibility pursuant to Sections 1859.51(d) for new construction or 1859.61(d) for modernization."

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, April 29, 2026

PROPOSED REGULATORY AMENDMENTS FOR THE SCHOOL FACILITY PROGRAM

PURPOSE OF REPORT

To present the State Allocation Board (Board) with clarifying changes to the Grant Agreement [Proposition 2] regarding common eligible and ineligible uses of the Project Construction and Management Grant for the Small School District Program (SSDP).

DESCRIPTION

On February 25, 2026, the Board approved proposed regulatory amendments, on an emergency basis, that implement Proposition 2 provisions authorizing the Board to establish the SSDP for school districts and county offices of education that have an enrollment of 2,500 or fewer pupils.

This item seeks Board approval of clarifying language changes to the School Facility Program (SFP) Grant Agreement [Proposition 2] related to the SSDP. SSDP applicants may request an additional grant for Project and Construction Management services from another local educational agency, state department, or a certified private construction consulting entity. The proposed amendments to the Grant Agreement [Proposition 2] specify eligible uses and limitations of the Project and Construction Management Grant, and other SFP grants related to the development of the required SFP Five-Year School Facilities Master Plan (Master Plan) for the Board's consideration.

AUTHORITY

Education Code (EC) Section 17070.35 – General Provisions states, in part:

> (a) In addition to all other powers and duties as are granted to the board by this chapter, other statues, or the California Constitution, the board shall do all of the following:
> (1) Adopt rules and regulations, pursuant to the rulemaking provisions of the Administrative Procedure Act, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, for the administration of this chapter….

EC Section 17078.35 – Assistance to Small School Districts states, in part:

> For purposes of this article, the following definitions apply:
> …
> (d) "Project and construction management grant" means a grant for purposes of obtaining the services from a county office of education, other local educational agency with applicable school facilities construction expertise, applicable state department, or a certified private construction consulting entity from the list maintained pursuant to paragraph (2) of subdivision (d) of Section 17078.47, to assist with the planning, site acquisition, preconstruction, construction, and closeout of a project.
> (e) "Small school district" is a school district, as defined in Section 17070.15, with an enrollment of fewer than 2,501 pupils.

STAFF ANALYSIS/STATEMENTS

After the emergency regulations were approved by the Board in February, the Office of Public School Construction (OPSC) identified the need to clarify the eligible uses and limitations of the Project and Construction Management Grant as it relates to the development of the required Master Plan. With the passage of Proposition 2, school districts and county offices of education are required to submit a Master Plan as a condition of participating in the SFP. The development and adoption of a Master Plan would typically be considered an operational expense for school districts and county offices of education. Thus, any costs associated with development and adoption of a Master Plan are not typically eligible expenditures of SFP grants. However, Education Code Section 17078.35(d), made operative by voter approval of Proposition 2 in November 2024, explicitly provides for an additional grant in the SSDP for project and construction management to "assist with the planning … of a project."

During the stakeholder meeting process for SSDP regulatory development, OPSC received a question related to this topic and published the following advisory in the April 17, 2025, stakeholder meeting report:

> **Stakeholder Feedback**
> Can a school district that receives a preliminary apportionment from the Small Size School District Program use the funding that is provided from the preliminary apportionment to comply with the five-year school facilities master plan requirement?
>
> **OPSC Response**
> If a school district is eligible for and receives Financial Hardship assistance as part of the Program application, the school district will be eligible to receive advance site and/or design funding and the project and construction management grant at the preliminary apportionment stage. The costs necessary to develop the required five-year school facilities master plan can be an eligible expenditure specifically for projects receiving the project and construction management grant. Education Code (EC) Section 17078.35(d) specifies that the new project and construction management grant is available for small school districts to obtain services that, in part, assist with project planning. SFP expenditures eligible for development of the five-year school facilities master plan are limited to the state and local matching share of the project and construction management grant. Expenditures beyond those amounts should not be reported on the Expenditure Report, as they would be considered operational costs of the school district and ineligible SFP expenditures.

After presenting the proposed SSDP regulations to the Board in February, staff noticed that this clarification had not been included in the Grant Agreement [Proposition 2] amendments. Therefore, staff proposes to add language to the portions of the Grant Agreement [Proposition 2] for Common Eligible Project Expenditures and Common Ineligible Project Expenditures to ensure that future SSDP applicants and grantees are informed of this allowable use for the Project and Construction Management Grant. In addition, clarifications are added to ensure that other program applicants and grantees are aware of the limitations of the use of SFP grants related to the development of the Master Plan.

For the SSDP, the proposed amendments state that expenditures related to the cost of preparing a Master Plan up to the total state and district share of the Project and Construction Management grant amount are allowed if an entity described in EC Section 17078.35(d) is retained for and performs this function. However, any expenditure exceeding

STAFF ANALYSIS/STATEMENTS (cont.)

this amount would be considered operational costs of the school district and therefore ineligible SFP expenditures. Expenditures are also limited to those incurred on or after July 3, 2024, which was the date the legislation that placed Proposition 2 on ballot was enacted (Chapter 81, Statutes of 2024, Assembly Bill 247 - Muratsuchi).

In addition to a few regulatory reference corrections, including the definition of the Form SAB 50-12 on the Grant Agreement [Proposition 2], staff is presenting a sample comparison of the Board's previously approved regulatory amendments to the Grant Agreement [Proposition 2] from the February 25, 2026 Board agenda item and the proposed clarifying language below. The full text of the proposed Grant Agreement [Proposition 2] with the clarifying language is reflected on Attachment A. For reference, the February 25, 2026 Board item and the full text of the Grant Agreement [Proposition 2] that was approved by the Board as part of the February 2026 item are included as Attachment B. Please note that Attachment B does not include the additional attachments that were presented as part of the February 2026 Board item, as staff has not proposed changes to those documents.

For the Small School District Program grantee receiving the Project and Construction Management Grant, expenditures incurred prior to July 3, 2024.

For the grantee receiving the Project and Construction Management Grant, costs for the development of a School Facility Program Five-Year School Facilities Master Plan that exceed the total State and applicable required District share of the Project and Construction Management Grant.

Proposed Language Changes regarding Common Ineligible Project Expenditures for All (non-SSDP) SFP Separate Apportionment for Design costs, All SFP Site Acquisition Costs, and All (non-SSDP) SFP Adjusted Grant Applications (double underlined, double strikethrough, and highlighted):

RECOMMENDATIONS

1. Adopt the proposed amendments to the Grant Agreement [Proposition 2] as shown on Attachment A.

2. Authorize the Executive Officer to combine both the proposed regulatory amendments in this Board item along with the emergency regulations previously approved by the Board into one rulemaking file and file the regulations with the Office of Administrative Law on an emergency basis and make the regulations permanent.

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, February 25, 2026

PROPOSED EMERGENCY REGULATORY AMENDMENTS FOR THE SCHOOL FACILITY PROGRAM

PURPOSE OF REPORT

To present the State Allocation Board (Board) with recommendations for the adoption of School Facility Program (SFP) regulatory amendments, on an emergency basis, for the Kindergarten through Grade 12 Schools and Local Community College Public Education Facilities Modernization, Repair, and Safety Bond Act of 2024 (Proposition 2), which was approved by a majority of California's voters on November 5, 2024. These proposed amendments are related to the implementation of the Small School District Program (Program).

AUTHORITY

See Attachment A.

DESCRIPTION

To implement Proposition 2 provisions, the Office of Public School Construction (OPSC) conducted multiple stakeholder meetings to discuss and receive feedback on proposed regulatory amendments resulting from statutory additions and amendments to Education Code (EC). At several of these stakeholder meetings, OPSC introduced proposed concepts and regulations for the Program.

Based upon staff proposals at these stakeholder meetings and the feedback received, OPSC determined that the proposed regulatory amendments related to this topic are able to move forward for Board consideration after some minor adjustments to the version presented in the most recent stakeholder meeting, which are summarized in the Staff Analysis/Statements component of this item.

This item seeks Board approval of staff's recommendation to adopt the proposed regulatory amendments to the SFP regulations to implement and align with new statutory requirements pursuant to the provisions of Proposition 2. This item also seeks Board approval of staff's recommendation to adopt the new *Application for Small School District Program Preliminary Apportionment* (Form SAB 50-12) to align with the proposed regulatory amendments.

BACKGROUND

The passage of Proposition 2 made numerous changes to the SFP that are applicable to applications received on or after October 31, 2024. Staff held six stakeholder meetings for the proposed regulatory amendments presented in this item, on February 13, April 17, June 26, September 18, December 10, 2025, and January 29, 2026. This item includes the seventh set of proposed regulatory amendments for the Board's consideration to implement Proposition 2 provisions

BACKGROUND (cont.)

for applications received on or after October 31, 2024. Additional proposed amendments will be presented at future Board meetings.

Below is an overview of the relevant Proposition 2 statute.

Small School District Program
EC Article 11.5, comprised of EC Sections 17078.35, 17078.36, 17078.37, and 17078.38, was made operative with passage of Proposition 2 to allow the Board to provide a preliminary application process, preliminary apportionment, separate design grants, project assistance grants, and project and construction management grants to Small School Districts (Districts) that meet eligibility requirements and have an enrollment of 2,500 or fewer pupils. The following is a summary of the new statutes:

EC Section 17078.35 defines the following terms for the purposes of Article 11.5:

- "Final Apportionment" has the same meaning as "apportionment" as defined in subdivision (a) of EC Section 17070.15, which is "an allocation of funds for the purpose of eligible new construction, modernization, or hardship approved by the [State Allocation Board] for an applicant school district."
- "Preliminary Application" means an application for a preliminary apportionment.
- "Preliminary Apportionment" means a reservation of bond authority for eligible applicants in advance of full compliance with all the application requirements otherwise required for an apportionment under the SFP.
- "Project and Construction Management Grant" means a grant for purposes of obtaining the services from a county office of education, other local educational agency with applicable school facilities construction expertise, applicable state department, or a certified private construction consulting entity from a list established by the California Department of Education (CDE) pursuant to EC Section 17078.47(d)(2), to assist with the planning, site acquisition, preconstruction, construction, and closeout of a project.
- "Small School District" is a school district, as defined in EC Section 17070.15, with an enrollment of fewer than 2,501 pupils. "Fewer than 2,501 pupils" is equal to "2,500 or fewer pupils," the phrasing used in this discussion. The term "School District" is defined in EC Section 17070.15(q) to mean a School District or a County Office of Education.

EC Section 17078.36 states that all SFP provisions apply to the Program except for provisions that expressly conflict with provisions in Article 11.5. This section also specifies that projects funded under Article 11.5 shall not exceed the amounts made available under Proposition 2. EC Sections 101412(a)(1)(A) and (a)(2)(A) authorize up to ten percent of the amounts allocated in Proposition 2 to New Construction and Modernization to be available for the Program. At its January 22, 2025 meeting, the Board set aside the full ten percent of New Construction and

BACKGROUND (cont.)

Modernization bond authority for the Program: $330 million for New Construction projects and $400 million for Modernization projects.

EC Section 17078.37 states that all Program projects must submit a preliminary application to the Board and meet all applicable eligibility requirements for applications for New Construction (pursuant to Article 3, commencing with EC Section 17071.75) or Modernization (pursuant to Article 6, commencing with EC Section 17073.10). This means that the bond authority for the total estimated state costs of a project will be reserved at the time of preliminary apportionment, and then the grants will be amended to reflect the actual scope of work in the approved plan set when the full funding conversion application is processed. If requested and determined to be eligible, the Board will also provide a project and construction management grant that is equal to five percent of the state share of the preliminary apportionment.

EC Section 17078.38 requires the Board to adopt regulations on the following:

- Preliminary application
- Preliminary apportionment
- Apportionment of design grants, project assistance grants, and project and construction management grants to qualifying financial hardship applicants, as part of the preliminary apportionment
- Substantial progress requirements on apportionments for design and site grants
- Requirements for a final apportionment for the project

STAFF ANALYSIS/DISCUSSION

Stakeholder Meetings
Stakeholder meetings were conducted on February 13, April 17, June 26, September 18, December 10, 2025, and January 29, 2026. At the initial February 2025 meeting, OPSC provided an overview of the new statutory requirements for the Program codified in EC Sections 17078.35 through 17078.38 and discussed broader components of implementing the statute.

The June meeting was the first time OPSC presented proposed regulations, and the September meeting was the first time OPSC presented the Form SAB 50-12 outside of conceptual discussion. At the December meeting, OPSC proposed updates to the regulations and the Form SAB 50-12 as it was previously presented to update certifications and align with the proposed regulations. Finally, at the January 2026 meeting, OPSC proposed additional updates to the regulations to provide clarity to the site acquisition and various supplemental grants associated with a Preliminary Program Apportionment, in conjunction with proposed amendments to the *Fund Release Authorization* (Form SAB 50-05) and the Grant Agreement [Proposition 2].

STAFF ANALYSIS/DISCUSSION (cont.)

Stakeholder Feedback
Staff appreciate those who attended and those who raised questions or provided feedback. Feedback that was received for each respective stakeholder meeting may be found on Attachment H, alongside the items as previously presented. The table below provides summaries and responses to the feedback OPSC received after the last stakeholder meeting held on January 29, 2026. Collectively, staff's recommendations presented in this item were informed by stakeholder feedback and represent staff's final recommendations for implementation of the Program provisions in Proposition 2.

Stakeholder Feedback	OPSC Response
1. At the January 29, 2026 stakeholder meeting, OPSC clarified the existing "Occupancy Requirement" pursuant to SFP Regulation Section 1859.70(a), as it relates to the submittal process of a New Construction application within the Program. OPSC stated that school districts may not occupy classroom facilities within a New Construction project prior to the submittal of the Form SAB 50-12 and the *Application for Funding* (Form SAB 50-04). The stakeholder raised a concern that this proposal may prevent school districts from receiving funds for eligible New Construction projections, to the extent that there are school districts that need to construct and occupy classrooms after the passage of Proposition 2, but prior to January 15, 2027, which is the proposed date that OPSC would begin accepting Program applications for New Construction. While there is currently New Construction bond authority remaining for new applications in the standard SFP, the stakeholder expressed that authority could potentially be exhausted prior to January 15, 2027. The stakeholder indicated that if small school districts are unable to submit an application for either the standard SFP	**1.** OPSC acknowledges the stakeholder's concern related to the New Construction bond authority remaining under the standard SFP in anticipation of the Program's opening date for New Construction applications. However, based on currently available New Construction bond authority and a projected annual New Construction processing rate of approximately $469.2 million (based on the 2025 processing rate for New Construction funding), OPSC estimates that New Construction bond authority from Proposition 2 will be available into 2031. Therefore, it appears highly unlikely that New Construction bond authority for the standard SFP will be exhausted prior to the Program's proposed opening date of January 15, 2027, for New Construction applicants. Applicants that may need to occupy classrooms prior to the Program opening date have the option to submit a New Construction application to the standard SFP.

STAFF ANALYSIS/DISCUSSION (cont.)

Stakeholder Feedback	OPSC Response
1. (cont.) or the new Program prior to occupying classrooms in this circumstance, then they would not be able to participate in either program. The stakeholder suggested considering grandfathering options for small school districts who must proceed with occupying classroom facilities prior to the Program opening date.	**1. (cont.)**

Proposed SFP Regulations
Below is a summary of the proposed SFP Regulation amendments, which are included as Attachment B:

SFP Regulation Section 1859.2 – Definitions
The new term "Final Small School District Program Apportionment" means a Preliminary Program Apportionment that has been converted to a Final Program Apportionment in accordance with Sections 1859.157.4 through 1859.157.7.

The new term "Form SAB 50-12" means the *Application for Small School District Program Preliminary Apportionment* (Form SAB 50-12), which is proposed to be incorporated by reference.

The existing term "General Location" is amended to add a reference to Section 1859.157.1.

The existing term "Median Cost" is updated to include a reference to EC Section 17078.24 and the Preliminary Program Apportionment pursuant to EC Section 17078.37, which indicates that preliminary applications shall be accepted and apportionments made for new construction and modernization grants "in a manner substantially identical to the preliminary apportionment requirements established in EC Section 17078.24…"

The new term "Preliminary Small School District Program Apportionment" means a reservation of bond authority for eligible applicants under the statutory authority of the Education Code. This reservation of bond authority is in advance of full compliance with all of the application requirements otherwise required for a Final Program Apportionment pursuant to Chapter 12.5 of the Education Code.

The new term "Project and Construction Management Grant" means a grant for purposes of obtaining the services from a county office of education, other local educational agency with applicable school facilities construction expertise,

applicable state department, or a certified private construction consulting entity from the list maintained pursuant to paragraph (2) of subdivision (d) of EC Section 17078.47, to assist with the planning, site acquisition, preconstruction, construction, and closeout of a project.

SFP Regulation Section 1859.18.1 – Five Year School Facilities Master Plan
The Board approved proposed regulations on an emergency basis related to the five-year school facilities master plan (Master Plan) required by Proposition 2 for applications submitted on or after October 31, 2024, at the January 28, 2026, Board meeting. Section 1859.18.1(f) is added within those regulations, subject to Office of Administrative Law approval, to include timeframes for applicants to the Program, illustrated in the table below:

Small School District Program Applications		
Date of Application Submittal	**When is a local governing board resolution required?**	**When is the Master Plan required?**
On or after October 31, 2024	At the time of application submittal for a Preliminary Apportionment	By the time the application request for Final Apportionment is submitted to OPSC using the *Application for Funding* (Form SAB 50-04)

SFP Regulation Section 1859.51 – Adjustments to the New Construction Baseline Eligibility
The proposed amendments to this section are as follows:

- The addition of the phrase “complete and valid” as it relates to Forms SAB 50-01 or 50-05 submitted to OPSC, consistent with existing regulatory language pertaining to the submittal of applications to OPSC.
- Capitalizing the defined term “School District” throughout for consistency with existing regulatory language.

SFP Regulation Section 1859.74.1 – Site Acquisition Guidelines
This section is proposed to be amended to include certification information for Districts that submit a Form SAB 50-12 and request site acquisition funding authorized by Section 1859.74.

SFP Regulation Section 1859.90.2 – Priority Funding Process
The proposed amendments to this section are as follows:

- Introductory text is amended to include reference to the Preliminary Program Apportionment.

STAFF ANALYSIS/DISCUSSION (cont.)

- Subsection (a) is amended to include reference to approved advance release of design, project assistance, the Project and Construction Management Grant, and/or any site acquisition funds from a Preliminary Program Apportionment as it relates to a District providing a priority funding request.
- Subsection (c) is added to describe the requirements for participation in the Priority Funding process for a District to request an Apportionment or approved advance release of funds resulting from a Preliminary Program Apportionment.
- Non-substantive amendments are also added to this Section, primarily to capitalize defined terms, and subsequent subsections have been relabeled appropriately.

SFP Regulation Section 1859.90.3 – Participation in the Priority Funding Process
This section is updated to specify that the advance release of design, project assistance, the Project and Construction Management Grant, and any site acquisition funds from a Preliminary Program Apportionment are excluded from occurrences related to non-participation in the Priority Funding Process.

SFP Regulation Section 1859.106 – Program Accountability Expenditure Audit
Subsection (f) is added to the regulations to specify that if a District requests the Project and Construction Management Grant and does not obtain project and/or construction management services described in EC Section 17078.35, and does not expend any funds on these services, the total project cost will be reduced for the Project and Construction Management Grant and associated required matching share.

SFP Regulation Section 1859.107 – Amending and Withdrawal of Applications
Amendments within this Section are proposed to specify how OPSC will address circumstances when a District submits more than one application for the same scope of work under one or more Board-administered programs to OPSC.

Additions to this section are as follows:

- OPSC has added a paragraph to this section that states if a District submits more than one application for the same scope of work under one or more Board-administered program(s), OPSC will return all other applications containing the common scope of work upon the first Board action on an application for funding sharing the common scope of work.
- This section also outlines the process by which a District may request a modification of scope in an application that shares a common scope of work with another application (but may not add any additional scope), prior to the first Board action on one of these applications.
- Non-substantive amendments are made to capitalize defined terms.

The intention of the addition to this section is to specify the process for a District when it has more than one application(s) for funding under one or more Board

administered program(s) that share a common project scope. Upon processing and prior to any Board action on an application for funding, OPSC will verify if there are any other application(s) received by OPSC in which a shared common project scope is identified. Once identified, and prior to any Board action on the application for funding, OPSC will collaborate with the District to verify if the District requests to modify the scope of work in the identified application(s) for funding by clearly delineating remaining eligible scope of work. Otherwise, OPSC shall return all other application(s) containing the common scope of work after Board action.

Modifications Since the Last Stakeholder Meeting
OPSC has updated the proposed amendments to this section to replace references to an "Approved Application" with "application(s) for funding received by OPSC," so as to more broadly refer to all Board-administered program(s) with respect to applications that may share the same scope of work.

Article 13.5 – Small School District Program
Article 13.5 is proposed to be added to the SFP Regulations, consisting of sections 1859.156 through 1859.158.

SFP Regulation Section 1859.156 – General
This section is created to establish that if a District wishes to participate within the Program pursuant to the provisions of EC Sections 17078.35 through 17078.38, the District must submit a Form SAB 50-12.

This section also specifies that applications for Preliminary Program Apportionments will be processed in order of receipt of a complete and valid Form 50-12, and lists the requirements for New Construction and Modernization eligibility separately from one another. New Construction eligibility establishment and adjustments must be submitted with the Form SAB 50-12 using the current enrollment year. Additionally, this section indicates that the Form SAB 50-12 must be submitted prior to the date of occupancy for any classrooms.

Modifications Since the Last Stakeholder Meeting
As discussed, but not previously presented within the proposed regulations in the January 29, 2026 stakeholder meeting, this section states that applicants must meet the occupancy requirements pursuant to Section 1859.70(a), wherein "…The Board shall only provide New Construction funding if the Approved Application was received by the OPSC prior to the date of Occupancy for any classrooms included in the construction contract."

OPSC would like to clarify that, consistent with the treatment of Preliminary Applications under the Charter School Facility Program, applicants who have the necessary plan approvals and contracts signed at the stage of submitting a Form SAB 50-12 to OPSC may submit a Form SAB 50-04 for purposes of a Final Program Apportionment concurrently or immediately following the submittal of a

Form SAB 50-12.

SFP Regulation Section 1859.157 – Application Process
This proposed regulation section is added to do the following:

- Specifies that OPSC, on behalf of the Board, will begin accepting Program Modernization applications on November 2, 2026, and New Construction applications on January 15, 2027.
- Outlines the application process, wherein valid and complete applications will be processed and funded in date order received, and in the event that there are more applications submitted on the same date than can be funded with available program authority, a lottery system will be used to select the project(s) to be funded.
- Specifies the process for when Program funds set aside pursuant to EC Sections 101412(a)(1)(A) and 101412(a)(2)(A) are exhausted, wherein the Board would cease accepting Form SAB 50-12 submittals and return any Form SAB 50-12 submittals that were not approved due to insufficient funds for the Program.

Staff notes that at the December 3, 2025 Board meeting, the Board approved regulatory amendments that require all document submittals related to programs administered by the Board to be completed using OPSC Online beginning January 1, 2027. Subject to approval of these regulations by the Office of Administrative Law, Program applications submitted on or after January 1, 2027 must be submitted via OPSC Online. OPSC will provide outreach and technical assistance to applicants to facilitate this process.

SFP Regulation Section 1859.157.1 – Preliminary Apportionment Grant Determination for New Construction Applications8
This proposed regulation section is added for purposes of Preliminary Apportionment Grants for New Construction applications, and specifies the following:

- Defines the calculation for the Preliminary Program Apportionment for New Construction funding.
- Within subsection (a), delineates additional grants that will be provided for eligible New Construction applicants, in addition to methodologies for determining site acquisition and site development value calculations at the time of Preliminary Program Apportionment, in alignment with the Critically Overcrowded Schools (COS) regulatory framework.
- Subsection (b) outlines the calculation for the inflator factor for New Construction projects.
- Subsection (c) specifies that the calculation for the Project and Construction Management Grant will be made after the inflator factor is calculated for the Preliminary Program Apportionment (subsection [b]), and that the grant will be equal to five percent of the sum of the amounts determined in subsections (a) and (b).

STAFF ANALYSIS/DISCUSSION (cont.)

Modifications Since the Last Stakeholder Meeting
This section has been updated since the stakeholder presentation on January 29, 2026, to reorganize the supplemental grants to better align with their presentation on the Form SAB 50-12. Additionally, subsection (a)(6)(A) was updated to include the Actual Site Cost pursuant to Section 1859.74(a), to align with the Form SAB 50-12.

SFP Regulation Section 1859.157.2 – Preliminary Apportionment Grant Determination for Modernization Applications
This proposed regulation section is added for purposes of Preliminary Apportionment Grants for Modernization applications, and specifies the following:

- Defines the calculation for determining the Preliminary Program Apportionment for Modernization funding.
- Within subsection (a), delineates additional grants that will be provided for eligible Modernization applicants.
- Subsection (b) outlines the calculation for the inflator factor for Modernization projects.
- Subsection (c) specifies that the calculation for the Project and Construction Management Grant will be made after the inflator factor is calculated for the Preliminary Program Apportionment (subsection [b]), and that the grant will be equal to five percent of the sum of the amounts determined in subsections (a) and (b).

Modifications Since the Last Stakeholder Meeting
Subsection 1859.157.2(a)(10) was added to reference the Career Technical Education supplemental grant, as this was erroneously omitted in prior presentations of the proposed regulations.

Additionally, subsections (a)(1) through (a)(15) were re-ordered to align with the Form SAB 50-12 supplemental grants.

SFP Regulation Section 1859.157.3 – Preliminary Small School District Program Apportionment Fund Release
This proposed regulation section is added to define qualifications for an applicant to receive an advance release of funds at the time of a Preliminary Program Apportionment, and the amount of advance funds that may be released.

Subsections (a) and (b) specify that applicants eligible for Financial Hardship assistance can receive an advance release of funds for design and/or site acquisition at the time of a Preliminary Program Apportionment. Staff notes that Attachment G illustrates the application and fund release process for Financial Hardship applicants to the Program.

STAFF ANALYSIS/DISCUSSION (cont.)

Subsection (c) specifies that any applicant (irrespective of eligibility for Financial Hardship assistance) can receive an advance release of funds for environmental hardship site acquisition at the time of a Preliminary Program Apportionment.

Applicants who are neither eligible for Financial Hardship assistance nor an advance release of funds for environmental hardship site acquisition at the time of a Preliminary Program Apportionment would not be eligible to receive funds until the Preliminary Program Apportionment is converted to a Final Program Apportionment and the District submits a Form SAB 50-05 and grant agreement for fund release.

SFP Regulation Section 1859.157.4 – Conversion of Preliminary Small School District Program Apportionment
This proposed regulation section is added to define the parameters for a District requesting conversation of a Preliminary Program Apportionment to a Final Program Apportionment, wherein the District must submit a valid and complete Form SAB 50-04 and meet all of the criteria outlined in the following subsections:

- Subsection (a) specifies that the total number of pupil grants requested on the Form SAB 50-04 cannot exceed the number approved on the Preliminary Program Apportionment. Additionally, this subsection specifies the total number on the Form SAB 50-04 must be for at least 50 percent of the pupil grants approved by the Board on the Preliminary Program Apportionment for New Construction funding, or for at least 60 percent of the pupil grants approved by the Board on the Preliminary Program Apportionment for Modernization funding.
- Subsection (b) notes that applicants seeking Financial Hardship assistance during their request to convert to a Final Apportionment must re-qualify using the Form SAB 50-04 at the time of conversion.
- Subsection (c) states that any applicant with a qualifying Small School District enrollment of 2,500 students or fewer at the time the applicant received a Preliminary Program Apportionment may convert to a Final Program Apportionment. This subsection is intended to ensure that applicants who received a Preliminary Program Apportionment can convert to a Final Program Apportionment even in the event that the applicant's current enrollment exceeds 2,501 students at the time the applicant submits a Form SAB 50-04.
- Subsection (d) states that funding for Modernization supplemental grants shall be calculated using the enrollment demonstrated within the Preliminary Program Apportionment for purposes of the Minimum Essential Facility and Transitional Kindergarten Classroom supplemental grants.

STAFF ANALYSIS/DISCUSSION (cont.)

Modifications Since the Last Stakeholder Meeting
Staff added an additional paragraph within this proposed Section to clarify that if desired, applicants may submit a complete and valid Form SAB 50-04 at the same time as the submittal of a complete and valid Form SAB 50-12.

SFP Regulation Section 1859.157.5 – Time Limit on Preliminary Small School District Program Apportionment
This proposed regulation section specifies the following:

- Subsection (a) requires a complete and valid request to convert a Preliminary Program Apportionment to a Final Program Apportionment to be made within four years of the date of the Preliminary Program Apportionment, unless the applicant receives Board approval of a one-year extension.
- Subsection (b) specifies that if subsection (a) is not met, then the Preliminary Program Apportionment shall be rescinded without further Board action and returned to the fund source.
- Subsection (c) specifies that if subsection (a) is not met, and the District has received an advance release of funds as provided in Section 1859.157.3, the following shall occur:
    - The Preliminary Program Apportionment shall be rescinded without further Board action and funds not released to the applicant shall be returned to the fund source.
    - Applicable New Construction or Modernization eligibility shall be adjusted by the number of pupil grants not used, equal to the number requested on the Form SAB 50-12, less the pupil grants equivalent to the total amount of state funding retained by the applicant.
    - Funds released pursuant to Section 1859.157.3(a) or (b) shall be reduced to cost incurred and closed out pursuant to Section 1859.106, with a corresponding New Construction or Modernization baseline eligibility adjustment for the pupil grants assigned to the Preliminary Program Application. These funds shall be returned to the fund source.

To clarify the meaning of “fund source” within this Section, in accordance with EC Sections 101412(a)(1)(A) and (a)(2)(A), up to 10 percent of the New Construction and Modernization authority authorized under Proposition 2 shall be available to Districts for purposes of the Program pursuant to Article 11.5. At the January 2025 Board meeting, the Board took action to make the full amounts available for the Program. With that action, any funds returned will remain in the Small School District Program unless the Board takes an alternative action in the future.

SFP Regulation Section 1859.157.6 – Preliminary Small School District Program Apportionment Time Limit Extension
This proposed regulation section outlines the process wherein an applicant may request a single-one year extension to the time limit prescribed in Section 1859.157.5, provided the District has provided evidence of one of the following:

STAFF ANALYSIS/DISCUSSION (cont.)

- CDE has made a contingent or final approval for the project or proposed site and the Division of the State Architect (DSA) has confirmed that the final plans for the project have been submitted for DSA review and approval, or
- Other evidence satisfactory to the Board.

Additionally, this section specifies that OPSC must receive the one-year extension request from the applicant on or prior to the deadline for the time limit elapsing.

Modifications Since the Last Stakeholder Meeting
Since the last stakeholder meeting, this section has been updated to clarify language regarding the deadline for OPSC's receipt of a one-year extension request.

SFP Regulation Section 1859.157.7 – Final Small School District Program Apportionment Grant Determination
This proposed regulation section specifies how the amount of the Final Program grant is determined, and the process for Board approval of conversions from Preliminary Program Apportionments to Final Program Apportionments. Specifically:

- Subsection (a) outlines that if the Final Program Apportionment is equal to or less than the Preliminary Program Apportionment, the Final Program Apportionment shall be funded entirely, with any difference being returned to the fund source, and the Final Program Apportionment being full and final.
- Subsection (b) notes that if the Final Program Apportionment is greater than the Preliminary Program Apportionment, the Board shall approve an increase using any remaining balance in the fund source, if applicable, subject to the following provisions:
    - Subsection (b)(1) specifies that availability of any remaining balance in the fund source shall be prioritized in date order that OPSC received a complete and valid Form SAB 50-04.
    - Subsection (b)(2) states that in the event there are more applications submitted on the same date than can be funded with the balance in the fund source, a lottery system will be used to determine the funding order.

SFP Regulation Section 1859.157.8 – Final Small School District Program Apportionment Fund Release
This proposed regulation section notes that after an applicant has converted a Preliminary Program Apportionment to a Final Program Apportionment, it may request a release of the remaining funds, pursuant to Sections 1859.90 or 1859.90.2.

STAFF ANALYSIS/DISCUSSION (cont.)

SFP Regulation Section 1859.158 – Substantial Progress and Expenditure Reporting Timelines
This proposed regulation section is added to outline substantial progress and expenditure reporting timelines for Districts receiving funds through the Program. Specifically, this proposed regulation requires the following:

- Subsection (a) states that School Districts must submit an expenditure report on the *Expenditure Report* (Form SAB 50-06) in accordance with the following Program reporting requirements:
    - (a)(1) requires that the first expenditure report is due one year from the date any funds were released for the project, or upon notice of completion of the project to OPSC, whichever occurs first. A project is deemed complete when either of the following occur:
        - (a)(1)(A) specifies a project is complete when the notice of completion for the project has been filed with OPSC, all invoices, claims, and change orders are satisfied and the facility is in use.
        - (a)(1)(B) specifies three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.
    - (a)(2) further denotes that the second and subsequent expenditure reports (as applicable) are due annually beginning one year from the first report, or upon notice of completion of the project to OPSC, whichever occurs first. The final report must be made no later than three years from the date of the final fund release for an elementary school or four years from the date of the final fund release for a middle or high school project.

- Subsection (b) requires a progress report in the form of a narrative due 18 months from the date any funds were released, except as specified. This report is to include information regarding the progress the School District has made toward substantial completion of the project.
- Subsection (c) requires a progress report in the form of a narrative due 12 months from the date the site acquisition funds were apportioned to the School District, pursuant to Section 1859.75.1. This report must include information regarding the progress the School District has made towards acquiring the site.
- Subsection (d) outlines the certification process related to district-owned site acquisition costs for respective school sites.

Proposed Form SAB 50-12
The proposed Form SAB 50-12 on Attachment C is the application the District shall use to apply for a Preliminary Program Apportionment. This form incorporates all of the proposed and existing regulatory requirements, and is a multiuse form for both New Construction and Modernization funding requests for the Program.

STAFF ANALYSIS/DISCUSSION (cont.)

The funds that can be reserved at the Preliminary Small School District Program Apportionment stage include pupil grants; 50 years or older pupil grants; replacement funding for 75 years or older facilities; all New Construction and Modernization funding supplemental grants, including those recently provided as a result of the passage of Proposition 2; the Project and Construction Management Grant; excessive cost hardship grants; and the local funding adjustment grant.

Modifications Since the Last Stakeholder Meeting
Within the General Instructions of the Form SAB 50-12, OPSC has added further definition specific to Special Day Class pupils to align the language on the Form to existing regulatory language.

Additionally, Section 5.e.3) on the Specific Instructions of the Form SAB 50-12 is modified to add a more exact regulatory reference. Section 5.e.4) is updated to delete duplicative hazardous material/waste removal instructions, to include a more exact regulatory reference, and to add language regarding a Response Action checkbox.

Section 5.f. is updated to provide additional detail and more exact regulatory references regarding an allowance for site development.

Next, Section 6.d. is updated to include a specific reference to the amount that may be requested at the Preliminary Program Apportionment stage, respective to site development costs for 50 years or older permanent buildings.

Within the body of the Form SAB 50-12, Section 5.e.4) is updated to include a checkbox for a Response Action, as applicable.

Next, the previously presented Section 8, Priority Order, has been removed since the January 29, 2026 stakeholder meeting. Applicants will not indicate a priority order as all applications will be processed in date order received, rather than by a priority order number, in alignment with the proposed Section 1859.157. This amendment renumbers subsequent sections.

Three additional sections have been added to the Form SAB 50-12: Section 14 (Project Progress Dates), Section 15 (Prevailing Wage Monitoring and Enforcement Costs), and Section 16 (Construction Delivery Method). These sections mirror the Form SAB 50-04, both in the form and in the instructions, to ensure Districts that have signed construction contracts and are submitting a Form SAB 50-12 may indicate that information upon application submittal. This amendment renumbers subsequent sections.

Finally, within the Certification Section of the Form SAB 50-12, a certification is added to reflect the Five-Year School Facilities Master Plan requirements for applications submitted to OPSC on or after October 31, 2024.

STAFF ANALYSIS/DISCUSSION (cont.)

Sections 3, 4 and 5 under the Ineligible Project Expenditures (H) are updated to clarify ineligible expenditures related to the Project and Construction Management Grant.

Proposed Amendments to the Form SAB 50-04
At the January 29, 2026 SAB meeting, staff proposed Section 1859.157.4(d)(1) and (d)(2), which states that for purposes of determining the calculation(s) respective to the Minimum Essential Facility and Transitional Kindergarten modernization supplemental grants, applicants shall use the qualifying enrollment as determined at the time of the Preliminary Program Apportionment. OPSC determined since the meeting that the Form SAB 50-04 needed to be updated to align with the proposed regulations. As such, proposed amendments to the Form SAB 50-04 may be found on Attachment F. Specifically, under Sections 6 g. and 6 h., staff has included a sentence that directs applicants to use the enrollment as determined by Section

STAFF ANALYSIS/DISCUSSION (cont.)

1859.157.4 (d)(1) and (d)(2). The intention of this update is to ensure clarity of the timing of the determination and to align with the proposed regulations.

Additionally, staff identified a non-substantive amendment to the General Instructions under number nine, which amends “three” to “five,” as it relates to the period of time a District with 2,500 or fewer enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of five years from the date the district’s baseline eligibility was approved by the Board.

RECOMMENDATIONS

1. Adopt the proposed amendments to the SFP Regulations as shown on Attachment B.
