

GENERAL INSTRUCTIONS

This form is used to request a preliminary apportionment for the new construction or rehabilitation of Charter School facilities. This form may be submitted by either a Charter School directly or by a School District on behalf of a Charter School, provided the school is within the geographical boundaries of the School District. The apportionment will be a reservation of funds for the project to allow time to receive the necessary approvals from other State entities and shall be converted to a Final Charter School Apportionment based on Sections 1859.165 through 1859.166.1.

The applicant must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the Office of Public School Construction (OPSC), the Division of the State Architect (DSA) and the California Department of Education (CDE) for all project applications submitted to those agencies, which assist those agencies to track a particular project throughout the entire state application review process. If a PTN has already been assigned to this project by prior submittal of the plans and specifications to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be created using the OPSC Online Application located on the OPSC web site at www.dgs.ca.gov/OPSC.

Prior to submitting this form, the Board must determine or adjust the appropriate School District's eligibility for new construction funding on the Form SAB 50-03. If the School District has a pending reorganization election that will result in the loss of eligibility for the proposed project, the School District may not file this application until the Board has adjusted the School District's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02, and Form SAB 50-03. The following documents must be submitted with this form (as appropriate):

For new construction and rehabilitation projects,

- Verification of the Charter School's written notification to the School District of its intent to apply for State funding pursuant to Education Code Section 17078.53(b) for a Charter School applying on its own behalf.
- A narrative describing the proposed project. Include the estimated general scope of the project intended, the number of classrooms being rehabilitated and/or constructed, the grade level of the pupils that will be served in the rehabilitated and/or constructed classrooms, estimated opening date of the school, the Charter School General Location, if the project will include new construction or rehabilitation of existing facilities, and if the facilities are of permanent or portable construction.

For new construction projects,

- Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03 (if not previously submitted by the School District).
- If the Charter School is applying for a Preliminary Apportionment on its own behalf, a School District board resolution certifying to the number of the School District's unhouseed pupils, pursuant to Section 1859.162.1(a), that the project will house, the supporting documentation used to generate this number, and the school board meeting minutes that recorded the approval of the certification.
- For School Districts applying on behalf of a Charter School, supporting documentation for arriving at the number of the School District's unhouseed pupils that

will be housed in the Charter School project, pursuant to Section 1859.162.2(b), as reported in Section 4(b) of this form).

- An estimated recommended site size letter from the CDE.
- An Appraisal or Preliminary Appraisal of the property, or documentation supporting the Median Cost of the property, if requesting site acquisition funds. See Section 1859.163.2(a).
- Supporting documentation for relocation expenses and/or Department of Toxic Substances Control (DTSC) costs, if requesting amounts other than the 15 percent standard allowance. See Section 1859.163.2(b).
- A cost estimate for site development using the actual data for the specific site or the historical data of School Facility Program projects within the School District or adjacent School Districts within the General Location, if requesting amounts other than the standard allowance of \$70,000 per acre. See Section 1859.163.1(a)(3).

For purposes of determining an amount for site acquisition pursuant to Section 1859.164.2(b), the following documents must be submitted with this form (as appropriate):

- Contingent site approval letter from the CDE.
- Preliminary appraisal of property.

For rehabilitation projects,

- For a Charter School submitting a Preliminary Apportionment for rehabilitation on its own behalf, an agreement between the School District and the Charter School for use of the facilities to be rehabilitated. The agreement must have been discussed and approved at a School District board meeting.
- A drawing of the school site that identifies all classrooms and subsidiary facilities and specifies the square footage and age of each building that will be included in the project.

Requests for new construction or rehabilitation funding are available only to applicants that have current financial soundness status from the California School Finance Authority. Applicants may apply for a separate amount for the design and for the new construction site acquisition on the same project for a Preliminary Charter School Apportionment previously approved by the Board. Applicants may apply for a separate amount for the design of the project by submittal of Form SAB 50-05.

For a complete list of the application submittal guidelines, consult the Access Charter School Facilities Funding web page at www.dgs.ca.gov/OPSC/Services.

If the Charter School or School District is requesting a Preliminary Apportionment for new construction after the initial baseline new construction eligibility was approved by the Board and the School District's current California Basic Education Data System (CBEDS) enrollment reporting year is later than the enrollment reporting year used to determine the School District's baseline eligibility or adjusted eligibility, the School District must complete a new Form SAB 50-01, based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. The School District must also update its new construction eligibility by separation of Special Day Class from regular K-12 grade level pupils by submitting a revised Form SAB 50-02 and Form SAB 50-03, if it has not already done so. A Small School District with 2,500 or less enrollment as defined in Section 1859.2 will have its new construction eligibility adjusted as provided in Section 1859.51(j).

SPECIFIC INSTRUCTIONS
