A project school site will be considered lacking full-day kindergarten facilities if the kindergarten enrollment, based on the most current CBEDS Report or School District documents such as registration for the school or classroom attendance rosters, exceeds the existing kindergarten classroom capacity prior to the construction of the project. For purposes of determining classroom capacity, a loading standard of 25 kindergarten pupils per classroom will be used and all kindergarten classrooms will be loaded for full-day instruction unless the School District indicates that an existing classroom(s) will continue to be used for non-full day instruction at the completion of the project.

(2) The School District lacks the facilities to provide full-day kindergarten instruction at the project school site.

A project school site will be considered lacking full-day kindergarten facilities if the current kindergarten enrollment exceeds the existing kindergarten classroom capacity prior to the construction of the project. Classrooms constructed as kindergarten classrooms or altered to house kindergarten students, regardless of current use, will be included when determining the existing kindergarten classroom capacity, as determined by CDE. For purposes of determining classroom capacity, a loading standard of 25 kindergarten pupils per classroom will be used and all kindergarten classrooms will be loaded for full-day instruction unless the School District indicates that an existing classroom(s) will continue to be used for non-full-day instruction at the completion of the project.

(b) For Program funds provided pursuant to Section 1860.3(b) and Apportioned in the 2019-2020 and 2020-2021 fiscal years, a School District may apply for these Program funds by submittal of a Form SAB 70-01, if all of the following requirements are met:

(3) The project school site did not offer a Full-Day Kindergarten Program as of July 1, 2019.
(4) The School District will use Program funds to convert a Part-Day Kindergarten Program to a Full-Day Kindergarten Program.

(c) OPSC will determine the project scope for the Approved Application based on the schoolsite’s enrollment patterns and the usage of each facility at the schoolsite. OPSC shall consult with CDE prior to determination of the Approved Application’s project scope.

(d) The Approved Application shall include the following documentation:

(a) Financial Hardship: 40 points if a School District demonstrates it meets the requirements under Section 1860.14.

(c) The Board shall apportion projects in the following order:

1. School Districts will be funded based on the total preference points, determined by the sum of subdivisions (a) and (b) above. If School Districts submit multiple applications in the same funding round, OPSC will use the priority order assigned to each application by the School Districts on the Form SAB 70-01 and then fund Approved Applications in the following order:

   A. School Districts shall have their first priority projects funded in order based on total preference points until all School Districts have had their first priority project funded, or until all funds are exhausted for that funding round, whichever comes first.

   B. School Districts with the same total preference points will be placed into a lottery system to determine School District funding order. The School District with the higher Low Income percentage will be funded first.

   C. If School Districts have the same total preference points and the same Low Income percentage reported to one decimal place, projects will be placed into a lottery system to determine School District funding order. The School District with the higher Low Income percentage will be funded first.

2. If sufficient funding remains after funding first priority projects pursuant to (1), School Districts with multiple Approved Applications will be funded in the following order:

   A. The School District with the highest total preference points shall have their remaining projects funded in priority order until all projects are funded, or until all funds are exhausted for that funding round, whichever comes first. Funding shall then be provided to the School District with the next highest total preference points.

   B. School Districts with the same total preference points with Approved Applications will be placed into a lottery system to determine School District funding order. The highest remaining priority project for each School District participating in the lottery will be funded until all projects from each School District participating in the same lottery round have been funded, or until all funds are exhausted for that funding round, whichever comes first.

   B. A tie breaker will be used for School Districts with the same total preference points by using the exact Low Income percentage to one decimal place, as identified in the most recent Free and Reduced Price School Meals data on file at the CDE. The School District with the higher Low Income percentage will be funded first.

   C. If School Districts with the same total preference points are still tied after the review of the Low Income percentages, projects will be placed into a lottery system to determine School District funding order. The highest remaining priority project for each School District participating in the lottery will be funded until all projects from each School District participating in the same lottery round have been funded, or until all funds are exhausted for that funding round, whichever comes first.

3. If the Board does not have sufficient funding to fully apportion a School District’s Approved Application, that School District may elect to either:

   A. Accept partial funding for the project. If partial funding is accepted, the Apportionment shall become the full and final apportionment for the project.

   B. Decline to accept funding for the project. If partial funding is declined, the Board may offer partial funding to the next Approved Application, based on funding order determined in (c)(1) and (c)(2) above.
