Amend Regulation Section 1859.82

Section 1859.82. Facility Hardship.

A district is eligible for facility hardship funding to repair, replace, or construct new classrooms and related facilities if the district demonstrates there is an unmet need for pupil housing or the condition of the facilities, or the lack of facilities, is a threat to the health and safety of the pupils. A facility hardship is available for:

- (a) Repair of facilities, New classrooms and/or subsidiary facilities (corridors, toilets, kitchens and other non-classroom space), or replacement facilities if either (1) or (2) are met:
 - (1) The facilities are needed to ensure the health and safety of the pupils if the district can demonstrate to the satisfaction of the Board that the health and safety of the pupils is at risk. Factors to be considered by the Board shall include the close proximity to a major freeway, airport, electrical facility, high power transmission lines, dam, pipeline, industrial facility, adverse air quality emission or other health and safety risks, including structural deficiencies required by the DSA to be repaired, seismic mitigation of the Most Vulnerable Category 2 Buildings as verified by the DSA, traffic safety or because the pupils reside in remote areas of the district and transportation to existing facilities is not possible or poses a health and safety risk. The total available funding for seismic mitigation related and ancillary costs for the Most Vulnerable Category 2 Buildings is \$199.5 million.
- (A) If the request is for replacement facilities, a cost/benefit analysis must be prepared by the district and submitted to the OPSC that indicates The district shall prepare and submit to the OPSC an Application which includes a cost/benefit analysis which will be used to compare the total costs to remain in the classroom or related facility and mitigate the problem is at least 50 percent of to the Current Replacement Cost of the classroom or related facility. The cost/benefit analysis may include applicable site development costs as outlined in Section 1859.76. The cost/benefit analysis shall not include increased costs associated with high performance related costs or

components, with the exception of those high performance components that were pre-existing in the classroom or related facility.

1. If the total cost to remain in the classroom or related facility is less than 50 percent or less than of the Current Replacement Cost, the district may qualify for either grant below, as applicable:

4. a. Modernization Excessive Cost Hardship Grant for Rehabilitation Costs pursuant to Section 1859.83(e), or
2. b. A grant not to exceed 50 percent of the cost estimate that has been reviewed and approved by the OPSC and approved by the bBoard for seismic rehabilitation repair.

2. If the total cost to remain in the classroom or related facility is greater than 50 percent of the Current Replacement Cost and the Application is for replacement facilities, the district may qualify for a grant for a new or replacement school or replacement facilities as a new construction project.

3. If the total cost to remain in the classroom or related facility is greater than 50 percent of the Current Replacement Cost and the Application is for the repair, not the replacement, of a Qualified Historical School Building, the district may qualify for funding as a new construction project. The district must demonstrate that the facility meets the definition of a Qualified Historical School Building. Qualified Historical School Building status must be determined by an appropriate local, state, or federal governmental agency or by a person(s) who meets the Professional Qualification Standards set forth by the Secretary of the Interior's Standard and Guidelines for Archeology and Historical Preservation.

(B) If the request is for replacement facilities that include structural and/or seismic deficiencies, the cost/benefit analysis must also include a report from a licensed design professional identifying the minimum work necessary to obtain DSA approval. The report must contain a detailed cost estimate of the repairs. The cost/benefit analysis shall not include increased costs associated with high performance related costs or components, with the exception of those high performance components that were pre-existing in the classroom or related facility. The report and cost estimate shall be subject to review by the OPSC for conformance with the Current Construction Cost Publication by the Sierra West Group and, at the OPSC's discretion, the DSA. For seismic deficiencies of the Most Vulnerable Category 2 Buildings, the report and the cost estimate for the minimum work necessary must be reviewed by the DSA.

(C) The seismic mitigation projects must meet all of the following requirements:

1. The construction contract was executed on or after May 20, 2006;
2. The project funding provided shall be for the minimum work necessary to obtain DSA approval;
3. The building is designed for occupancy by students and staff; and
4. The DSA concurs with a report by a structural engineer, which identifies structural deficiencies that pose an unacceptable risk of injury to its occupants in a seismic event. If the unacceptable risk of injury is due to the presence of faulting, liquefaction or landslide, these hazards must be documented by a geologic hazards report prepared by an engineering geologist in accordance with California Building Code, Part 2, Chapter 18, section 1803A and with the concurrence of the California Geological Survey.

The structural engineer's report shall conform to the guidelines prepared by the DSA, in accordance with Education Code Section 17310.

(D) Notwithstanding Sections 1859.93 and 1859.93.1, all applications for the seismic mitigation of the Most Vulnerable Category 2 Buildings shall be funded in the order of receipt of an Approved Application for funding.

(E) If an Application for the seismic mitigation of the Most Vulnerable Category 2 Buildings cannot be fully apportioned or approved for placement on the Unfunded List (Lack of AB 55 Loans) because insufficient funding is available, the applicant may accept the remaining funding amount or refuse funding entirely. If partial funding is accepted, the applicant will remain eligible for the additional amount of seismic funds, up to the initial funding

request, if funds become available within the Seismic Mitigation Program authority amount of \$199.5 million. If funding is refused, the Board shall consider funding the next project eligible for funding pursuant to this Section.

For any Application for the seismic mitigation of the Most Vulnerable Category 2 Buildings not apportioned or approved for placement on the Unfunded List (Lack of AB 55 Loans) pursuant to this Section, the application shall be returned to the applicant.

Replacement facilities and square footage amounts used to determine funding for a Qualified Historical School Building shall be allowed in accordance with the square footage amounts provided in the chart in Section (b) below. If the facility eligible for replacement is not shown in the chart in Section (b) below, the replacement facility shall be limited to the square footage replaced. If the Qualified Historical School Building is a facility type not shown in the chart in Section (b) below, the square footage amounts used to determine funding shall be limited to the existing square footage of the Qualified Historical School Building. The grant amount provided shall be \$173.30 per square foot for Toilet Facilities and \$96.30 per square foot for all other facilities. The amounts shown will be adjusted in the manner prescribed in Section 1859.71. For any project funded in whole or in part from any State bond funds for which the construction contract is awarded prior to January 1, 2012, the district may be eligible for the funding provided to initiate and enforce a LCP as prescribed in Section 1859.71.4(a). For any project for which the construction contract is awarded on January 1, 2012 through June 19, 2014, the grant may be adjusted in the manner prescribed in Section 1859.71.4(c) and subject to the limitations established in Section 1859.71.4(d).

Any grants provided pursuant to (b) above, shall be reduced by fifty percent of any insurance proceeds collectable by the district for the displaced facilities and fifty percent of the net proceeds available from the disposition of any displaced facilities.

APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 04/08/15.16)

GENERAL INFORMATION

If this application is submitted when there is Insufficient Bond Authority, as defined in Regulation Section 1859.2, the School District must adopt and submit a school board resolution, pursuant to Regulation Section 1859.95.1. For information regarding remaining bond authority, contact the Office of Public School Construction (OPSC) prior to submittal of this application.

The Board will only provide new construction funding if this form is submitted prior to the date of occupancy of any classrooms included in the construction contract. If the district has a pending reorganization election that will result in the loss of eligibility for the proposed project, the district may not file an application for funding until the Board has adjusted the district's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03.

For purposes of Education Code Section 17073.25, the California Department of Education (CDE) is permitted to file modernization applications on behalf of the California Schools for the Deaf and Blind.

Prior to acceptance of an application for funding that includes a financial hardship request:

- If the application is submitted pursuant to Section 1859.81, the district must have its financial hardship status "pre-approved" by the OPSC. To apply for a financial hardship "pre-approval", consult the OPSC Web site at www.dgs.ca.gov/opsc.

In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at www.dgs.ca.gov/opsc.

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.dgs.ca.gov/opsc "PT Number Generator."

1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment).
