

District Contacts

OPSC has improved the District Contact page to list all individuals that have been authorized access to a school district's information in OPSC Online.

Performance Enhancements

OPSC has improved the performance of the Main Dashboard, including more commonly used search functions and filtering. The ability to view application statuses has been fixed on the Main Dashboard.

The Application Management and Accounting Summary & Detail pages have been refactored to improve performance and are intended to load in under 30 seconds.

Eligibility Baseline Export

OPSC has added the ability to export all data from the Baseline Eligibility pages into Microsoft Excel.

Project Information Worksheet Data

OPSC has migrated legacy Project Information Worksheet (PIW) data into OPSC Online so that users can view historical data based on the last submitted PIW.
