OPSC Online

Release 35 Notes
10/16/2026

Application Wizards

- NEW! The new form *Application for Small School District Program Preliminary Apportionment* (Form SAB 50-12) has been added for New Construction projects. The new form can be found on the main OPSC Online Dashboard under "Create New SFP Funding Application".
- The *Eligibility Certification/Projection* (Form SAB 50-01) wizard can enrollment projection calculation has been updated to include a new section to report Transitional Kindergarten enrollment with the Office of Administrative Law's (OAL) approval of the State Allocation Board's regulations on October 15 to update the enrollment projections. School districts are not required to use the new section until OAL has approved the regulations.

Known Bug

- OPSC is in the process of updating the exported version of the Form SAB 50-01 to incorporate the changes as a result of the new section to report Transitional Kindergarten enrollment. OPSC Online will not export the current version approved by OAL on October 15.
