Strategic Context

Role of the Collaboratives

- **Who:** TK-12 districts, postsecondary institutions, employers, community stakeholders
- **What:** \$250M in grants to fund targeted partnerships to
 - (a) Improve specific supports for students and families; and
 - (b) Create specific career pathways needed to fuel regional economies.
- **Why:** Collaboration takes work.
 - Over the next several years, we'll see the impact of investments made across education and workforce systems.
 - The collaboratives will cultivate the relationships and people infrastructure to ensure the collaboration is successful and community-driven.

Existing Models

- One of the models for this statewide investment is the **Fresno K-16 Collaborative**.
- **Fresno K-16 Collaborative:**
 - Organic, multi-year partnership between education leaders
 - Focus on data-sharing, dual enrollment, student supports, and employer partners
 - Serves to build relationships and convene key partners to successfully build career pathways

Program Status

- Program will be administered by the Office of Public School Construction(OPSC), an office within DGS, with the assistance of a Third-Party Administrator (TPA) as a subject matter expert particularly with respect to higher education systems.

 - Stakeholder meetings are open to the public and feedback is welcome
 - Meetings will be webcast and/or on Zoom
 - Estimated timing of stakeholder meetings is January-February 2022
- Estimated Grant Filing Period is March/April 2022
