

The Sixth Funding Cycle of the Career Technical Education Facilities Program (CTEFP) is now open and the Office of Public School Construction (OPSC) is now accepting funding applications electronically.

Upon receiving a passing score, applicants are advised to submit their funding application to OPSC at earliest convenience as applications will be processed on a flow basis. Cycle Six funding applications must be received by OPSC on or before **April 6, 2020**.

Applicants are encouraged to submit funding applications electronically using the OPSC Online System. The OPSC Online System has been enhanced to allow applicants to complete and submit applications fully online with no hard copy required. Required documents, such as the score letter and cost estimates may be uploaded and attached to the funding application. Access to the OPSC Online System is found on the OPSC website as follows:

Go to “Services,” then click “Access Career Technical Education Facilities Funding,” then, under the “Information and Resources” header, click “50-10 Online Submittal.”

The OPSC Online System can also be accessed from the OPSC website by clicking “Resources,” then clicking “Online Application Tools for School Construction Projects,” then, under the “Online Application and Tools” header, click “OPSC Online Application Submittal Link.”

Applicants may elect to use a CDE score letter from Cycles Four or Five provided there are no changes to the original grant application submitted to CDE.

For additional information or assistance, please contact OPSC at (916) 375-4815 or by [email](mailto:OPSCCTEFP@dgs.ca.gov) at OPSCCTEFP@dgs.ca.gov.
