

# The DGS Equipment Maintenance Management Insurance Program (EMMP)

The DGS Equipment Maintenance Management Insurance Program (EMMP). A competitively bid program designed to help all California state agencies maintain and repair their state-owned equipment. The program replaces existing third-party and equipment manufacturer service contracts and enables departments to reduce the annual cost of equipment maintenance, improve service performance, and enhance tracking of maintenance events and costs.

## What does EMMP cover?

- Information Technology systems
- Telephone and voicemail systems
- BioMedical, Imaging, Laboratory
- PC's, laptops, printers, scanners, plotters
- Mailing systems Audio/visual systems
- Office automation equipment (copiers/multi-function/fax machines)
- Other equipment may be eligible.

**Contact us to verify your eligible equipment.**

## More is better.

By consolidating the state's maintenance needs into one insurance program, the EMMP is the cost-effective and innovative solution to equipment care that offers:

**Significant cost savings** of up to 25 percent from current or traditional equipment maintenance and repair spend.

**Asset management** through online access to equipment portfolio, service events and management reports.

**Administrative efficiency** by eliminating time spent bidding for and managing multiple maintenance and repair service contracts.

**Ease of use** with one point of contact to manage all your maintenance needs.

### DID YOU KNOW?

# \$40M

EMMP has helped the State of California save more than \$40 million since 2010.

**More than 40+ state departments participate in the EMMP**, including Corrections and Rehabilitation, Correctional Health Care Services, Technology, Public Health, and Justice, CalVet, State Hospitals, and CalEPA

## Let's talk. We can help.

Send an email to the DGS Office of Risk and Insurance Management for a no-obligation quote to begin the process: [EMMP@dgs.ca.gov](mailto:EMMP@dgs.ca.gov)
