RE: California State Contracts Register (CSCR) Rate Change

Effective July 1, 2006, the California State Contracts Register (CSCR) advertisement rate was increased by one dollar. The rate for advertisement and exemption notice (Std. 821) publications is now \$41.00.

Included in the ad price are edits after publication, online bid package posting, and unrestricted publication length.

CSCR online bid package posting enables departments to take advantage of significant savings potential. Online bid posting frees up staff time, plus saves mailing and printing costs. It simplifies bidder list creation and notifying potential bidders of addenda.

With a worldwide viewership and over 17,000 subscribers to our automated personalized vendor notification system, the Subscription Outreach Service, your advertisement will reach not just a wide audience, but the right audience.

For more information on the CSCR's services, please contact CSCR staff:
