Procurement and Contracting Officers (PCOs)**

RE: Cal eProcure's New SCPRS Search Functionality

The purpose of this Broadcast Bulletin is to announce the NEW State Contract and Procurement Registration System (SCPRS) search functionality of [Cal eProcure](#). Below are just a few of the improvements and benefits you can expect to see:

- Expanded search parameters can be used to develop custom data extract in a downloadable format.
- All the Procurement data can be accessed in a central location. SCPRS search doubles as the statewide purchasing open data source.
- Increased transparency for Statewide purchases by providing transactional view to line item details, reported EPP/SABRC data, and prime and subcontracting data.
- Increased transparency of individual transactions over time, including changes to the dollar amount and a more transparent tracking of their amendments.

A detailed walkthrough guide on how to conduct a SCPRS search can be found on DGS' [eProcurement website](#).

Questions related to the FISCAL system technical issues should be addressed to:

FISCAL Service Center
(855) 347-2250
