RE: Cal eProcure SB/DVBE Search Results

The Department of General Services, Office of Small Business & Disabled Veteran Business Enterprise Services (OSDS) has been made aware that the Cal eProcure SB/DVBE Search is not displaying the certification profiles of some certified Small Business (SB) and Disabled Veteran Business Enterprise (DVBE) firms.

We are working with Cal eProcure and the Financial Information System for California (FI\$Cal) to resolve this issue. We apologize to all that are impacted.

In the meantime, we recommend all state agencies working with bidding vendors with a certification number that does not show up in the Cal eProcure Search Result, to either use the certification profile showing the certification dates, or contact us for verification at:
