**RE: Mailing Equipment, Supplies, and Maintenance - Cooperative Agreement -  
2024 USPS Technology Requirements**

---

This broadcast is to inform state departments of the new 2024 United States Postal Service (USPS) mailing technology requirements.

Effective June 2024, USPS will require all mailing systems meet Intelligent Mail Indicia (IMI) standards. All non-IMI machines will become decertified on June 30, 2024, and must be withdrawn from service by December 31, 2024.

State departments should contact their mailing equipment contractor for more information to ensure compliance with the new standards and avoid interruption of services.
