## **Overview**

Pursuant to Government Code Sections 11011 and 14684.3 (f), the Department of General Services (DGS) prepares an Annual Report to the Legislature on state-owned real property that has been authorized for disposition as surplus and excess real property that has been identified for long-term lease for the development of affordable housing.

## **Surplus Property**

DGS reports to the Legislature annually, with respect to each parcel of land authorized to be sold as surplus, giving the following information:

- (1) A description or other identification of the property.
- (2) The date of authorization.
- (3) With regard to each parcel sold after the next preceding report, the date of sale and price received, or the value of the land received in exchange.
- (4) The present status of the property, if not sold or otherwise disposed of at the time of the report.

The 2023 report on surplus property is organized as follows:

- **Section 1.** Properties that have been sold or otherwise removed from the state's property rolls since the 2022 report. In 2023, there were two property sales.
- **Section 2.** Properties that have been authorized as surplus and are pending disposition. There are currently 10 properties in this category.
- **Section 3.** Properties that have been identified as excess and are pending surplus authorization. There is currently one property in this category.

## **Excess Property for Affordable Housing**

Executive Order N-06-19 and Government Code Section 14684.3 require DGS to identify excess state property that is suitable for long-term lease for the development of affordable housing. Pursuant to Government Code Section 14684.3, DGS reports to the Legislature on the status of the excess state properties identified, including, but not limited to, whether the property has been leased and, if so, for what purpose.

The 2023 report on excess property is organized as follows:

- **Section 4.** Properties that were leased for affordable housing. There are four properties in this category.
- **Section 5.** Properties that are pending lease for affordable housing. There are currently 15 properties in this category.

## **Background**

### ***The Asset Enhancement and Surplus Sales Program***

The Asset Enhancement and Surplus Sales Unit of DGS' Asset Management Branch (AMB) is responsible for the disposition of state-owned real property that has been declared surplus to future state needs. The Legislature must declare the real property to be surplus and must authorize the director of DGS to sell, exchange, lease, or transfer the surplus real property pursuant to Government Code Section 11011, et seq. The objective of the program is to sell or otherwise dispose of surplus property in the best interest of the state by achieving maximum value; maximize job creation; create affordable housing; facilitate historic preservation and reuse; and return property to local tax rolls.

### ***Executive Order N-06-19***

On Jan. 15, 2019, Governor Gavin Newsom signed Executive Order N-06-19 to address the acute affordable housing crisis in California. The executive order directed DGS to inventory excess state real property, including property that had been authorized for disposition as surplus, that may be suitable for the development of affordable housing. Pursuant to Government Code Section 14671.2, the director of DGS is authorized to offer excess property for long-term lease for affordable housing. DGS has thus far selected 19 developers to lease excess parcels through 2023. The projects are estimated to create over 4,400 units of new housing. Additional sites will be offered for lease in 2024.
