Executive Summary

The January 2010 Capitol Area Plan Progress Report describes the significant progress made during 2009 to advance the 1997 Capitol Area Plan's vision for a vibrant, mixed-use community of State offices, housing, and retail on State-owned land in downtown Sacramento.

The 1997 Capitol Area Plan is an update to the 1977 Capitol Area Plan which, by law, is the official State master plan for development in the Capitol Area. The Department of General Services (DGS) is responsible for carrying out development within the Plan Area, outlined on the map on below, in accordance with the Capitol Area Plan. The Capitol Area Development Authority (CADA), a joint powers authority of the State of California and the City of Sacramento, is specifically charged with the implementation of the residential and neighborhood commercial components of the Capitol Area Plan.

The Capitol Area Plan Progress Report is prepared on an annual basis, per Government Code (GC) Section 8164, for submittal to the Legislature by January 1 of each year.

State Offices

The State's portfolio in the Capitol Area includes 33 office buildings that provide over 7 million net square feet (NSF) of office space, as well as sites that are identified for future office development. The DGS' real estate asset management program includes new office space development to meet State agencies' program needs, as well as renovation of older buildings to upgrade building systems and increase their efficiency.

The renovation of the two 18-story towers located at 714 P and 744 P Street, Office Buildings (OB) 8 and OB 9, marked a milestone in 2008 with the completion of work at OB 8, and the subsequent relocation of the tenants from OB 9 to OB 8, so that work could begin on OB 9. This project advances the State's office space consolidation efforts, as the two buildings will house the Department of Social Services (DSS) when construction is complete in 2010.

The new, state-of-the-art Central Plant facility commenced operation in August 2009. Following nearly two years of construction, the project was delivered on time and within budget. The new plant, incorporating the latest technologies, will reduce the State's energy costs, and will reduce the amount of water required to heat and cool the almost 5.5 million gross square feet (GSF) of space in the 23 State-owned buildings it serves in the Capitol Area. A second phase of the project to be completed in 2010 will demolish the old plant structure, add a thermal-energy storage tank, and include installation of solar panels to power the energy needs of the office space within the new facility.

A major asset in the Capitol Area will be protected with the planned renovation of the historic Stanley Mosk Library and Courts Building at 914 Capitol Mall. Construction documents will be completed in 2009, and although delayed for a period of time due to budget constraints, the construction should commence by the summer of 2010.

Infrastructure and feasibility assessments have been completed for the State Personnel Board Building at 801 Capitol Mall, and infrastructure studies completed for the Bateson Building at 1600 Ninth Street and the State Garage at 1416 Tenth Street, all located within the Capitol Area. A feasibility study was completed in fourth quarter 2009 to evaluate the condition of the Food and Agriculture Annex Building at 1215 O Street, and the study also examines the future best use of the site. Future projects in these buildings will be based on the findings of the respective assessments, and upon authorized funding.

The DGS continues to review possible alternatives for the West End Office Complex Project, originally authorized in 2001 by GC Section 8169.6 (Chapter [Ch.] 672, Statutes [Stats.] of 2001). The project, which includes new buildings in the blocks bounded by 7th, 8th, N and P Streets, would have consolidated Resources Agency programs, currently located in the Resources Building, and in other leased space. However, due to significant increases in construction estimates, the State is re-examining the project scope and budget.

The State continues its aggressive energy management program in accordance with the Green Building Initiative, Executive Order S-20-04. The recent renovation of OB 10 resulted in a Leadership in Energy and Environmental Design (LEED) for New Construction (NC) Silver Rating for this building. In 2006, the East End Complex Block 225 building, occupied by the Department of Education (CDE), was awarded the LEED for Existing Buildings (EB) Platinum certification, the highest given by the U.S. Green Building Council. The four East End Office Complex buildings on Blocks 171-174, which are occupied by the Department of Public Health (CDPH) and the Department of Health Care Services (DHCS), achieved the LEED-EB Gold Rating in 2008. The Central Plant will receive the LEED-NC Gold Rating upon completion of construction, and the Stanley Mosk Library and Courts Building, as well as OB 8 and OB 9, will receive a LEED-NC Silver Rating when their respective renovations are complete.

Housing and Commercial

CADA is directing its efforts towards the creation of a neighborhood that is environmentally, socially, and fiscally sustainable. In addition to its continued development and management of quality, urban infill, mixed-use developments in the Capitol Area, CADA is working on the development of streets that provide safe, attractive, and comfortable access for all users, and is facilitating transit-oriented development on R Street. Additionally, CADA continues to incorporate resource and energy conservation into its projects in the Capitol Area.

Developers of the Capitol Lofts and East End Gateway Sites 2 and 3 are ready to proceed, pending improvement of the economy, and the availability of financing. Construction drawings are complete for East End Gateway Sites 2 and 3, and the projects are fully entitled. The developer of Capitol Lofts redesigned project elements to qualify the project for LEED certification, and to increase the number of affordable units in the project. This work towards making the Capitol Lofts a prospective green-building, smart-growth prototype resulted in the award of \$4.9 million in Proposition 1C funds from the State Department of Housing and Community Development (HCD) in mid-2009.

In early 2009, CADA re-advertised East End Gateway Sites 1 and 4. CADA subsequently entered into an Exclusive Negotiating Agreement (ENA) with a developer for East End Gateway Site 1. Subject to securing financing, construction of this project is scheduled to commence in fall 2010, and will result in a significant condominium ownership project immediately adjacent to the State's East End Office Complex. CADA received three qualified proposals in response to its re-advertising of East End Gateway Site 4, and is evaluating those proposals to determine its future course of action with regard to the site.

CADA purchased from the State a small infill site at 1610 17th Street, and received a developer proposal for two new residences to be constructed on the site. Unable to secure financing, the developer later withdrew from the project, and CADA continues to review its options for development on this site.

CADA moved forward on the development of streetscape improvement concepts that will allow pedestrians, bicyclists, motorists, and public transportation to safely and comfortably traverse O Street, linking remaining CADA development sites and 16th Street, the spine of East End Gateway development.

Collaborations between CADA and DGS representatives of the Green Action Team, which was established to ensure progress toward meeting the goals of Executive Order S-20-04, continued in 2009. Special consideration is being taken to incorporate Green Action Team objectives into all major capital improvement projects to the multi-family, residential structures that CADA manages, with the objective of meeting and exceeding the 20 percent reduction set forth in the Executive Order.

CADA completed the purchase and rehabilitation of the Fremont Wilshire Apartments in 2009. In addition to conserving the resources expended in the original construction of these structures, their rehabilitation increases CADA's affordable housing inventory.

In fall 2009, CADA's work with Regional Transit culminated in the commencement of the 13th and 16th Street light rail station improvements. CADA also worked with the local business owners on a plan to minimize the impact of the R Street streetscape improvements from 10th to 13th Streets that are scheduled to commence in the spring of 2010. Furthermore, CADA's investment in the infrastructure for the 1409 R Street development facilitated one of the central city's most exciting mixed-use projects of the year.

In 2009, CADA was the recipient of the American Planning Association California's Distinguished Leadership Award for its work over 30 years in transforming the State-owned properties south of the State Capitol into a sustainable neighborhood.

I. Introduction

In July 1997, the Director of DGS approved an update to the 1977 Capitol Area Plan which, by law, is the official State master plan for development in the Capitol Area. The Capitol Area Plan provides for the orderly development of the State's office facilities on State-owned land in a statutorily-defined, geographic area to the south, east, and west of the State Capitol Building and Capitol Park. The DGS is responsible for the administration of the Capitol Area Plan, including updates as required, and also retains responsibility for the implementation of the office and parking elements. The CADA, a State of California and City of Sacramento joint powers authority, retains the responsibility for the implementation of the housing and retail/commercial elements.

Other groups with roles in Capitol Area planning include the Capitol Area Committee formed in 1977 to advise the Director of the DGS on planning issues and activities in the Capitol Area, and to ensure public interests are represented in the planning process. At the same time, and to support this effort, the Capitol Area Technical Advisory Committee was formed to provide the Capitol Area Committee with technical input on Capitol Area issues. The DGS and CADA work closely with the Capitol Area Committee and the Technical Advisory Committee on every aspect of the planning, reporting, and implementation of the Capitol Area Plan. The Capitol Area Committee and the Technical Advisory Committee meet regularly in public meetings, with each committee meeting quarterly, typically in January, April, July, and October. Background and other information concerning CADA and these two committees may be found in the CADA section of the report.

GC Section 8164 requires DGS to report annually by January 1 to the Legislature on the progress made in the administration of the Capitol Area Plan, including a summary of all residential and commercial leases by the State to others, sales or building construction initiated or completed by the State, transactions and operations of CADA, and the State's appraisal of the degree to which projects conform to the Capitol Area Plan. This January 2010 Progress Report provides a summary overview of activities that occurred during the year 2009. The following elements are reported upon as they relate to these activities.

- Land Use
- State Offices
- Housing
- Development of the Community
- Administration of the Plan

II. Land Use

The Capitol Area Plan is the official master plan for land use and development on State-owned land in the Capitol Area. Under the terms of GC Section 8160 et seq., the primary responsibility for the overall administration of the Capitol Area Plan is vested in DGS and its Director. The DGS has been working with CADA to achieve a vibrant mixed-use community that will serve as an integral part of downtown Sacramento's

landscape. In this regard, DGS concentrates upon State office and associated parking development, and CADA concentrates upon the residential and commercial aspects of the Capitol Area Plan. With the 1997 update of the Capitol Area Plan, the State is committed to maintaining a broad land use policy including both flexibility and stability for the development process. The map below contains the diagram illustrating the land use pattern on State-owned land to occur with the Capitol Area Plan implementation. The office, housing, parking, and open space designations remain as approved in the 1997 Capitol Area Plan.

On September 11, 2002, Senate Bill 1460 (Ortiz) (Chapter 468, Statutes of 2002) was enacted to enlarge the Capitol Area, as delineated in the 1997 Capitol Area Plan, by extending the Capitol Area boundary south at 10th Street to S Street, and east at 17th Street to the railroad right-of-way between 19th and 20th Streets. Expansion of CADA's redevelopment project area is designed to accelerate development efforts along the southern border of the Capitol Area between 10th and 19th Streets. The City of Sacramento has since approved CADA's R Street Urban Design Plan. The R Street Area Implementation Plan, which serves as the guide for CADA's development and redevelopment activities in the R Street Area, was adopted by CADA's Board in 2008, following the completion of environmental review. The map below shows the boundary of the enlarged Capitol Area. Land use designations within the 1997 Capitol Area Plan boundary have not been affected by the expansion of the Capitol Area because no State-owned land lies within the added area.

III. State Offices

The DGS continues to work within the context of the 1997 Capitol Area Plan for the planning and development of State office space in the Capitol Area, as detailed on the map on page 14. This official master plan identifies State-owned land designated for State office development on eight separate blocks within the Capitol Area. These sites are projected for the development of a total of approximately 2.82 million GSF of new office space.

Construction of approximately 1.3 million NSF has been completed on five blocks that comprise the East End Office Complex. Completing consolidations for these agencies, CDPH and DHCS (formerly a single agency known as the Department of Health Services) occupy the four office buildings and associated parking on Blocks 171-174 (15th to 17th Streets, L Street to the alley between Capitol Avenue and N Street), and CDE occupies the office building located on Block 225 (14th to 15th Streets and N to O Streets).

The 1997 Capitol Area Plan projects another 1.35 million GSF for future development on Block 204 (7th to 8th Streets and P to Q Streets), Block 213 (10th to 11th Streets and N to O Streets), and Block 275 (11th to 12th Streets and P to Q Streets). Additionally, the south half of Block 266 (8th to 9th Streets and Q to R Streets) is designated for a parking garage. These remaining office opportunity sites under the 1997 Capitol Area Plan are shown on the map on page 10. The scope of future development provided for in the Capitol Area Plan is shown in the table below.

Capitol Area Plan Remaining Office and Parking Opportunity Sites

	Block 204	Block 213	Block 275	Block 266	Total
Square Feet of Site Area	85,400	51,200	106,400	52,300	295,300
GSF of Office Space	628,000	268,000	454,600		1,350,600
NSF of Office Space	471,000	201,000	340,950		1,012,950
Floor Area Ratio	7.4:1	5.2:1	4.3:1		
Stories	18	8	6		
Parking Standard	1.1 per 1,000 GSF	1.1 per 1,000 GSF	1.1 per 1,000 GSF		
Parking to be Provided	355 spaces	350 spaces	501 spaces	720 spaces	1,926 spaces
Property Owner	DGS, EDD, Parks and Recreation	Legislature	DGS, Caltrans, Private Owner	DGS, Private Owner

 - Light Rail

Building Construction Initiated or Completed by the State Since 2002

- **Paul Bonderson Building** – A total of \$23 million was appropriated in the Budget Act of 2000 to fund a full renovation on this building. It was subsequently determined that it would be too costly to perform the full renovation and, therefore, in 2005 the DGS requested that the funding authority for the project revert in order for the State to make a more thorough assessment of the most appropriate course of action for the site and the building. A new feasibility study to determine the highest and best use for the site is now proposed, with funding for that study to be requested in budget year 2011/2012.
- **Food and Agriculture Building** – This renovation project at 1220 N Street consisted of updating approximately 126,480 GSF of office and support space, 162-seat auditorium, café, plus meeting and conference rooms. The four-story plus basement building was originally constructed in 1936 and is a registered historic structure. The project was completed in August 2005 at a cost of approximately \$19 million.
- **OB 10** – Located at 721 Capitol Mall, this building's \$18 million renovation work, completed in 2007, included installation of fire sprinklers, removal of hazardous materials, and upgrades to the electrical, communication, and data cabling systems. Additional work included the removal and replacement of the roof and windows, new carpet, new ceiling tile, wall finishes, and modular furniture. The Department of Rehabilitation fully occupied the newly renovated building in fall 2007, the same year the building achieved a LEED-NC Silver Rating.
- **OB 8 and OB 9** – These two, 18-story buildings, located at 714 and 744 P Street, are being renovated in sequence, and will be fully occupied with the consolidation of the DSS when complete. Construction on OB 8 was completed in summer 2008, and the DSS staff housed in OB 9 was relocated to OB 8 to allow for the renovation of OB 9 to begin in fall 2008. Due to 2009 budget constraints that temporarily halted construction on OB 9, the completion of the renovation of OB 9 has been delayed from spring to fall 2010. Upon completion, a number of Social Service programs will be moved from leased swing space back into OB 9. The project cost for both buildings is estimated to be approximately \$183 million. The buildings include a two-story reception building connecting the towers and providing one public entrance, plus a new child care center on the first floor of OB 8. Also included in the renovation is the abatement of hazardous materials, structural upgrade of both buildings to Seismic Risk Level III, demolition of all interior partitions including removal and replacement of existing finishes, demolition and upgrades to portions of the existing mechanical, electrical, plumbing, telephone, data, elevator, and security systems, upgrade of all fire and life safety items, and upgrades for the Americans with Disabilities Act (ADA) to current codes. The project will increase the useable SF (USF) from approximately 468,000 to 502,000. OB 8 and OB 9 will each be rated LEED-NC Silver, once construction is complete on both buildings.

- **Capitol Building** – A roof replacement at the Capitol Building, which included the addition of skylights and the purchase of new window washing equipment, was completed in 2009.
- **Central Plant** – The new Central Plant opened for operation in August 2009, after nearly two years of construction. The Budget Act of 2003 (Ch. 157, Stats. of 2003) authorizes renovation and modernization of the State’s Central Plant that provides heating and cooling to the State’s downtown office campus. In June 2003, the State Public Works Board approved funding for preliminary plans for this renovation. Through the 2003/2004 Budget Item 1760-301-0660, the DGS received authorization to begin design work on the project to modernize the existing facility, size the plant to provide heating and cooling for the Capitol West Side Projects, and address the Cease and Desist Order issued by the Central Valley Regional Water Quality Control Board that requires the State to bring the plant’s heated water discharge into compliance with the temperature criteria for the Sacramento River. The original Central Plant was built in 1968 and initially served 15 buildings. The new facility currently serves 23 existing buildings (nearly 5.5 million GSF) in the Capitol Area. A second phase of the project will include construction of a 140-foot tall, 4.25 million gallon, thermal-energy storage tank to store reserves of necessary chilled water, produced during off-peak energy demand times for use during the heat of the day. Solar panels will also be installed on the new facility to power the energy needs of the office space within. Once complete, the new facility will be rated LEED-NC Gold.
- **Library and Courts** – The 2005/2006 Budget Item 1760-301-0660(1) provided funding for the \$49 million renovation of the Stanley Mosk Library and Courts Building located at 914 Capitol Mall. In 2009, a team of master architects and engineers joined to begin the process of bringing the 1928 building back to its light-filled magnificence, while outfitting the building with the finest technological features available today. Construction drawings will be completed in 2009, however, the construction phase of the project has been delayed due to budget constraints, with construction anticipated to resume by the summer of 2010. Located across the street from the historic State Capitol, the neoclassical Stanley Mosk Library and Courts Building was listed in the National Register of Historic Places in 1984. The two-year renovation on the five-story building includes upgrades for security, accessibility, fire and life safety systems, correction of electrical and plumbing deficiencies, roof repair, and the restoration of historic features such as ceilings, lights, elevators, and public art, including the building’s famous Maynard Dixon murals. Once renovation is complete, the building will be rated LEED-NC Silver.
- **West End Office Complex** – In 2001, the DGS completed a facilities study to analyze the feasibility of developing 1.4 million GSF (1.0 million NSF) of State office space and associated underground parking for approximately 540 vehicles on a two-block site at the west end of the Capitol Area. Located between 6th, 7th, N and P Streets, the site includes Block 204 and the adjacent Block 203 to the

north. In conjunction with the development of this office space, a 932-space parking garage would be constructed on

- the south half of Block 266 (between 8th, 9th, Q and R Streets) to provide additional offsite parking to serve the office complex. Senate Bill 809 (Ortiz) (Ch. 672, Stats. of 2001) authorizes the development of this \$391 million office and associated parking project, known as the West End Office Complex. In September 2005, Assembly Bill 1663 (Jones) (Ch. 413, Stats. of 2005) was signed providing that the project may include residential development, along with additional retail space. The Resources Agency was identified as the tenant for the office project. Due to significant increases in construction cost estimates, the project has not moved forward, and the DGS continues to review possible alternatives for the West End Office Complex Project.
- **Bateson Building** – An infrastructure study was completed in 2008 for the Bateson Building located at 1600 Ninth Street. The building was found to be in generally good condition, but numerous repairs and alterations were identified that would bring the building up to current standards, including fire and life safety system upgrades, and correction of ADA issues and conditions. The study also addressed the means to increase the USF of the building by making modifications to the atrium area, thereby adding value to the building with a relatively low monetary investment. A funding request is planned for budget year 2011/2012 for a renovation of the building, but does not include funds to increase USF.
- **Food & Agriculture Annex Building** – A feasibility study of the existing four-story Food and Agriculture Annex Building, located at 1215 O Street, was begun in 2009. The purpose of the study is to examine the possibility of refurbishing the existing building for continued occupancy by the Department of Food and Agriculture, or demolishing the entire structure to make way for a new high-rise building that would maximize office space, while still conforming to the Capitol View Protection Act. A proposed new building design will include some on-site parking.
- **State Garage** – An infrastructure study was completed in June 2009 for the State Garage located at 1416 Tenth Street. The study reveals significant deficiencies in the existing seismic, mechanical, fire sprinkler, security, and egress systems, with additional deficiencies noted with regard to accessibility, security, and water intrusion. The report also evaluates the feasibility of replacing the existing man-lift with a hydraulic elevator, and of pursuing a rating of LEED-EB Silver. Based on the findings of the study, funding for a renovation of the building is proposed for budget year 2011/2012.
- **State Personnel Board Building** – An infrastructure study was completed in January 2009 for the State Personnel Board Building located at 801 Capitol Mall. The study evaluates the probable costs and construction schedule to repair and retrofit the building for an additional 50 years of serviceable life. Two alternatives

are presented, including one to renovate, repair and refurbish the existing building and surrounding site area, and another to demolish the existing structure and construct a new office building in the same configuration, footprint, envelope size as currently exists. A subsequently commissioned, in-house, feasibility study is evaluating replacement of the existing building with a structure that would take advantage of the allowable height limits prescribed in the Capitol Area View Protection Act, as well as maximizing the use of the site pad.

IV. Housing

Since its inception in 1978 as a joint powers authority, CADA has had the responsibility for planning, implementing, and managing the housing and related retail/commercial elements in the Capitol Area, as highlighted on the map on page 12. CADA was created by a joint powers agreement (pursuant to GC Section 8169.4) between the State of California and the City of Sacramento. A volunteer five-member board of directors governs the agency. The State of California and the City of Sacramento each appoint two members to the board of directors. These four directors select the fifth director. The daily operation of the agency is under the direction of its executive director. The members of the board as of August 2009 are listed later in the report.

State-Owned Property Sold to CADA for Development

Prior to 1996, all new CADA housing was developed on a long-term ground lease basis. This changed with the passage of legislation in 1996 and 1997. Under the terms of Senate Bill 1770 (Johnston) (Ch. 193, Stats. of 1996), the State sold the underlying fee interest in originally long-term leased land to the individual homeowners of three condominium projects: Somerset Parkside (north two-thirds of the block bounded by 10th, 11th, P and Q Streets); Saratoga Townhomes (north half of the block bounded by 9th, 10th, Q and R Streets); and Stanford Park Townhomes (southeast quarter of the block bounded by 14th, 15th, O and P Streets, and south half of block bounded by 15th, 16th, O and P Streets).

Assembly Bill 666 (Ortiz) (Ch. 262, Stats. of 1997), which amended GC Section 8169, created a major change in the disposition of State-owned land in the Capitol Area. This bill authorizes the Director of the DGS to sell real property under the jurisdiction of the DGS to CADA that can, in turn, sell the property to qualified developers for development of residential and/or neighborhood retail/commercial uses in the Capitol Area. Prior to the passage of this bill, the sale of land was precluded, and CADA developments were on land that was long-term leased from the State. The ability to provide fee title to such property enhances the development opportunities within the Capitol Area, including the ability to develop more ownership housing. Since enactment of this legislation, the ten properties shown in the table below have been sold to CADA.

State-Owned Property Sold to CADA for Development

Project	Site Acres
Governor's Terrace Apartments site, 14 th & P St.	0.59
Fremont Building Site, 16 th & P St.	0.89

1610 17 th St.	0.04

Projects Completed on State-Owned Property and Sold or Long-Term Leased to CADA Since 1997

The following projects provide both rental and for-sale product in the downtown housing market.

- **Governor's Terrace Apartment** - This project includes 44 residential units on .59 acres. When completed in 1997, it was the first market rate apartment structure completed in downtown Sacramento in ten years.
- **Fremont Building** - Construction on this residential and commercial mixed-use project on Block 234 on the east side of 16th Street between O and P Streets was completed in 2001. The project includes 69 apartments and 12,000 SF of ground floor commercial space.
- **Capitol Park Homes** - This development includes the construction of 64 for-sale, detached, single-family homes on Blocks 281 and 284 between 12th, 14th, P and Q Streets. The project was completed in 2003.
- **Fremont Mews** - This CADA project, completed in 2005, involves the State-owned property on Block 286 bounded by 14th, 15th, P and Q Streets (Site 13) and a DGS-owned and operated surface parking lot. The development includes 119 residential rental units and a 19,200 SF on-site garden area. This on-site garden, Fremont Community Garden, as well as a 32,000 SF off-site garden located at 5th and W Streets, Southside Community Garden, is an element of the Garden Preservation and Replacement Plan that was incorporated into the development of this project. Both the on-site and the off-site gardens were acquired by CADA, with assistance from the DGS, and donated to the City of Sacramento Parks Department.

Current Projects Being Developed on State-Owned Property Sold to CADA

CADA's current development activities on State-owned land designated for housing development under the Capitol Area Plan include the following projects.

- **Capitol Lofts (formerly the CADA Warehouse)** - This development project is structured around a 1920s vintage brick warehouse that was owned by the State, and formerly leased to CADA for its maintenance operations. The property, which was sold by the DGS to CADA for development in 2004, is located on the north half of Block 075 between 11th, 12th, R and S Streets on a site containing 1.18 acres, or 51,200 SF. The current plans call for the development of 141 units on the property, subject to finalization of the design, and the ability to secure financing. The units in the old warehouse portion will range in size from approximately 580 to 1,400 SF. New construction on vacant portions of the site will include townhouse live/work units or, alternatively, may be developed as a

boutique hotel. The historic Building and Grounds Building, a three-story brick structure at the corner of 11th and R Streets, will be converted to commercial use with the possibility of locating retail uses in the ground floor level. The developer is a partnership of Holliday Development and Regis Homes of Northern California, Inc. In 2009, the developer's work on redesigning the project to increase its affordability, and qualify it for LEED certification, resulted in the award of \$4.9 million in Proposition 1C funds from HCD. The start of construction is anticipated to be mid-2011, with completion in early 2014.

- **East End Gateway Sites** - In order to stimulate interest and provide a vision for CADA's development goals along 16th Street, CADA issued a Request for Qualification in early 2003 for four sites known as the East End Gateway. The projects, also referred to as Sites 1 through 4, will benefit from foot traffic generated by the State's East End Office Complex, improve the image of the east entry into the Capitol Area, and enhance 16th Street as a desirable residential and mixed-use address.

Loftworks, a local team of developers, was subsequently awarded an ENA for East End Gateway Sites 2 and 3 (at 16th and O Streets), and the national firm of Lambert Development was awarded an ENA for East End Gateway Sites 1 and 4 (16th and N Streets, and 16th and P Streets, respectively).

In 2006, after CADA cleared and remediated the sites, Loftworks withdrew their proposal for East End Gateway Sites 2 and 3, citing financial and market timing concerns. Subsequently, CADA re-advertised the sites and selected the local development team of Ravel Rasmussen Properties in the spring of 2007. Subject to securing financing and pending an improvement in market conditions, this project, which will provide 84 apartments and approximately 13,900 SF of commercial space, is scheduled to begin construction in mid-2011.

In 2008, after Lambert Development's ENA expired, CADA reissued the Request for Proposal (RFP) for the development of East End Gateway Sites 1 and 4. The RFP development criteria for East End Gateway Site 1 calls for the development of between 8 and 15 floors of residential units, with ground-floor retail. The RFP criteria for East End Gateway Site 4 calls for development of a minimum of 21 residential units. In March 2009, CADA selected a partnership of Em Johnson Interest, Inc. and Nehemiah Community Reinvestment Fund Holdings to construct an 8-story structure at East End Gateway Site 1. An ENA was entered into and, subject to securing financing, the development team plans to commence construction in late 2011, or early 2012.

In 2009, CADA received three proposals in response to its RFP for East End Gateway Site 4. CADA will make a decision on how to proceed with the development of this site prior to the close of 2009.

- **1610 17th Street (Residential Site 9B)** - This 40' x 40' parcel, located at the southeast corner of the Capitol Area, is a vacant piece of land that CADA

purchased from the State in 2008. The developer CADA initially selected to develop the site as a half-plex withdrew from the project in February 2009 due to the economic decline. The site was re-advertised, and CADA will determine how to proceed with this development prior to the close of 2009.

Future Purchase Agreements

The map on page 18 shows sites designated for housing development within the 1997 Capitol Area Plan boundaries. CADA has proposed future projects that would include purchase agreements with the State for the following two sites:

- Block 222 – South Half of Block Bounded by 12th, 13th, O, and P Streets:** In 2008, a purchase agreement was structured between the State and CADA that would allow CADA to proceed with the development of market-rate and affordable housing on this site. The execution of the purchase agreement between CADA and the State for the south half of the block is contingent upon a land exchange agreement first being reached between DGS and the Department of Veterans Affairs that own different parcels on this block.
- Residential Site 21 – 14th and N Streets:** In 2008, a purchase agreement was structured between the State and CADA that would allow for the development of a high-density residential development on the last remaining housing site facing Capitol Park. The DGS subsequently requested that CADA delay purchase of the site and the issuance of the development RFP until the economy improves.

Residential Management and Development

The CADA is responsible for managing the housing development for a range of income categories within the Capitol Area, in response to market conditions and priorities as they develop. The statutorily-stated goal is to create a viable community of 3,500 residents in both public and privately-owned housing within the 1997 Capitol Area Plan boundary, (exclusive of the R Street Area, added to CADA’s Redevelopment Project Area in 2002) and to ensure the availability of retail/commercial facilities to support the residents, employees, and visitors who frequent the Capitol Area. The table below and on the following page identifies CADA-managed residential properties that are located on State-owned land, and the table on page 22 summarizes new housing that has been developed by CADA since 1978.

State-Owned and CADA-Managed Residential Properties

Address	Property Name	Market-Rate Units ¹	Rent-Assisted Units	Total Units	Lease No.
1517 12 th Street		7	2	9	6465
1521 12 th Street		3	1	4	6465
1506 13 th Street	McCafferty Manor	20	3	23	6465

¹ The number of rent-assisted units at any location may vary from the number required, based on tenancy.

With the exception of units in buildings that already have affordability restrictions mandated by regulatory agreement, vacant units are counted as market-rate units. Properties that have specific affordability restrictions are asterisked.

Affordable Housing in the Capitol Area and R Street

Capitol Area – GC Section 8193 states CADA is required to have occupied, or make available, 25 percent of the residential units located on land either purchased or leased from the DGS in the Capitol Area at affordable rents to low-income households. On December 15, 2000, the CADA Board of Directors adopted CADA Board Resolution 00-49 stating CADA will meet its 25 percent obligation in the Capitol Area by directly subsidizing units, utilizing external funding sources to subsidize units it manages, and causing or assisting in the development of affordable units by third parties. This resolution further states CADA will consider the impact on its 25 percent obligation whenever it takes any action that affects housing stock in its redevelopment project area. CADA annually presents in its year-end stakeholders report actions taken in the past year to ensure its 25 percent obligation is met, as reflected in the table below.

Capitol Area	Affordable	Market	Total
CADA-Managed Units	210	574	784
Units Managed by Others	136	464	600
Total Units	346	1038	1384
Current Percentage Split	25%	75%	100%

R Street Area – Senate Bill 1460 (Ortiz) (Chapter 468, Statutes of 2002) amends GC Section 8193 to regulate the following affordable housing requirements for the R Street Area. Prior to the completion of redevelopment activities in the R Street Area, at least

30 percent of all new and substantially rehabilitated dwelling units developed by CADA within the R Street Area shall be available at affordable housing costs for low-income or moderate-income households. Of these units, at least 50 percent shall be within the means of very low-income households. Prior to the completion of redevelopment activities in the R Street Area, at least 15 percent of all new and substantially rehabilitated dwelling units developed by public or private entities other than CADA within the R Street Area shall be available at affordable housing costs for low-income or moderate-income households. Of these units, at least 40 percent shall be affordable to very low-income households.

The R Street Area Implementation Plan adopted by CADA in 2008 sets forth strategies for ensuring the provision of affordable housing as shown in the table below prior to the completion of redevelopment activities in the R Street Area.

R Street Area	CADA	Others
Total Units Built Since 2002	0	22
Affordable Units Required by 2032	N/A	3
Affordable Units Built to Date	N/A	0

V. Development of the Community

The 1997 Capitol Area Plan references an estimated additional need of approximately 90,000 SF of retail, commercial, and service space as the Capitol Area Plan is built out to its maximum office and residential capacity. In terms of development and space distribution, 17 blocks within the 1997 Capitol Area Plan boundary are involved, or will be involved, in office and residential developments that could include or accommodate this type of space, most of which would be retail/commercial enterprises. However, two of the developments may involve office/commercial developments, and one would be a child care service facility. The majority of the developments are connected with residential projects under CADA's sponsorship, and the balance of developments are under DGS' State-owned office program, or private ownership. The referenced blocks within the 1997 Capitol Area Plan boundary and their related projects are outlined in the table below.

Retail / Commercial Development in the Capitol Area

Residential Blocks

Block No.	Project Name	Status	Type of Space	SF
075	Capitol Lofts	In Development	Commercial	TBD
172	East End Gateway 1	In Development	Retail/Commercial	TBD
231	East End Gateway 2	In Development	Retail/Commercial	5,816
232	East End Gateway 3	In Development	Retail/Commercial	8,087
233	East End Gateway 6 & 7	Potential	Retail/Commercial	TBD
234	Fremont Building	Completed	Retail/Commercial	12,000
292	1500 Q Street	Completed	Retail/Commercial	1,200
293	East End Gateway 4	Potential	Retail/Commercial	TBD

Block No.	Project Name	Status	Type of Space	SF
222	TBD	Potential	Retail/Commercial	TBD
224	TBD	Potential	Retail/Commercial	TBD

Office Blocks

Block No.	Project Name	Status	Type of Space	SF
173	East End Complex	Completed	Retail/Commercial	6,800
174	East End Complex	Completed	Retail/Commercial ²	6,000
225	East End Complex	Completed	Retail/Commercial	5,400
225	East End Complex	Shell Completed	Retail/Commercial	1,000
225	East End Complex	Completed	Child Care Interior	7,367
203	West End Complex	Potential		TBD
204	West End Complex	Potential		TBD
275	Caltrans Block	Potential		TBD

Garage Blocks

Block No.	Project Name	Status	Type of Space	SF
224	East End Complex	Completed	Office/Commercial	6,500
266	West End Complex	Potential	Retail/Commercial	TBD

These retail, commercial, and service activities, which reflect a considerable investment and effort in their planning and development by both DGS and CADA, will broaden the scope of community services in the Capitol Area. The amount of SF to be developed in the R Street Area for retail, commercial, and service space, as set forth by the City of Sacramento in the 1996 R Street Corridor Plan, has been superseded by the R Street Urban Design Plan prepared by CADA and adopted by the Sacramento City Council in 2006.

Shown below and on the following page are retail and commercial businesses operating in State-owned property within the Capitol Area.

State-Owned and CADA-Managed Retail / Commercial Properties

VI. Administration

This Progress Report is designed to meet the requirements of GC Section 8164, which requires DGS to present an annual analysis and reporting to the Legislature on the administration of the Capitol Area Plan.

The DGS will continue to coordinate with CADA, the Capitol Area Committee, and the Technical Advisory Committee to oversee the progress made in realizing the development goals set forth in the 1997 Capitol Area Plan, and to continually evaluate priorities, capabilities, and opportunities of each responsible party.

VII. Capitol Area Development Authority (CADA)

The CADA is a joint powers authority between the State of California and the City of Sacramento created to implement the plans and objectives of the Capitol Area Plan, as directed by the State of California and the City of Sacramento. The Capitol Area Plan is a mixed-use plan for the management, development, and disposition of State-owned property located directly south and east of the State Capitol and Capitol Park in the City of Sacramento.

The CADA has been specifically designated to implement the housing and support retail goals of the Capitol Area Plan. The Capitol Area Plan legislation sets a population goal of 3,500 residents living in housing built for a variety of incomes. Additional legislation enacted in 1978 requires CADA maintain 25 percent of its units at affordable levels for low-income households, and provides CADA the powers of a redevelopment agency for the Capitol Area Redevelopment Project Area.

In 2002, legislation was passed expanding CADA's redevelopment project boundaries to include a key section of the R Street Corridor, a former warehouse and industrial district. The purpose of this expansion was to accelerate the pace of investment and redevelopment along the southern border of the Capitol Area between 10th and 19th Streets. Redevelopment of this area will enhance the Capitol Park Neighborhood and serve as an opportunity for transit-oriented development in proximity to the 13th Street and 16th Street light rail stations.

From an organizational standpoint, CADA has four service units including Property Management, Asset Management, Development, and Administrative Services. CADA has four executive staff, 21 administrative staff members, an eight-member maintenance crew, and 13 resident service managers (full and part-time). CADA develops and manages its own budget. While it is a joint powers authority between the City and the State, CADA's main revenue sources come from residential and commercial rents, and tax increment revenue from properties within its redevelopment project area. CADA does not rely on the City of Sacramento or the State for any direct operational financial support.

VIII. Capitol Area Committee

The Capitol Area Committee was formed in 1977 to advise Director of the DGS about issues affecting the Capitol Area Plan per GC Sections 8164.1– 8164.3.

MEMBERSHIP:

The Committee consists of nine members appointed as follows:

- A. Four members are appointed by the Governor, of which at least one is appointed from a list of three candidates submitted by the City of Sacramento, and at least one is appointed from a list of three candidates submitted by the County of Sacramento (four-year terms).
- B. Two members are appointed by the Speaker of the Assembly (one of whom may be a member of the Assembly), and two members are appointed by the Senate Rules Committee (one of whom may be a member of the Senate) (four-year terms).
- C. One member is appointed by the Director of DGS (term is at the pleasure of the Director).

The Chairperson is elected by the Committee Members.

MEETINGS:

Meetings are open to the public and are held quarterly, typically on the first Tuesday of the first month of the quarter, at 2:00 p.m. (established by Committee); upon call of the Chairperson; or upon written request of any three members (GC Section 8164.2). Meetings are normally held at the CADA Headquarters, 1522 14th Street, First Floor Boardroom, Sacramento, California. Members are always notified of meeting changes and cancellations.

ORGANIZATIONAL FUNCTIONS AND RESPONSIBILITIES:

The Capitol Area Plan was established for the orderly development of the State's facilities in the metropolitan area of Sacramento. It serves as the master plan for development of State-owned land within the Capitol Area. The DGS is assigned responsibility for carrying out development within the Plan Area in accordance with the Capitol Area Plan. The DGS must report annually (GC Section 8164) to the Legislature on its actions.

It is the purpose of the Committee to independently review DGS' reports to the Legislature and to counsel and advise DGS in the carrying out of its responsibilities related to the Capitol Area Plan. The Committee may submit separate comments on DGS' reports on the Capitol Area Plan to the Legislature. The Committee involves a broad cross-section of interested citizens in the form of an advisory body. The advisory body serves without compensation.

Within the DGS, the main point of contact for the Committee is the Real Estate Services Division, Asset Management Branch.

CONTACT INFORMATION:

Staff contact is Liz Ames, Associate Construction Analyst, DGS, 707 Third Street, Sixth Floor, West Sacramento, CA 95605. Her contact numbers are (916) 376-1831 or fax (916) 376-1833.

Technical Advisory Committee

AUTHORITY:

The Technical Advisory Committee (Committee) was formed in 1977 to provide technical comments to the Capitol Area Committee. GC Sections 8164.1– 8164.3 established the Capitol Area Committee and provided that an advisory body to the Committee could be created.

MEMBERSHIP:

Membership is determined by DGS, Real Estate Services Division. Members are representatives of a cross-section of planning, transportation, business, neighborhood, development, local, regional, and State agencies, and associations that provide technical analyses and comments for the consideration of the Capitol Area Committee. In turn, the Capitol Area Committee advises the Director of DGS about issues affecting the Capitol Area Plan. The Committee is chaired by the Chief, Asset Management Branch, Real Estate Services Division, DGS.

MEETINGS

Meetings are open to the public and are held quarterly, and additionally as needed, at 8:30 a.m. at the CADA Headquarters, 1522 14th Street, First Floor Boardroom, Sacramento, California.

ORGANIZATIONAL FUNCTIONS AND RESPONSIBILITIES:

The Committee examines proposals and issues that may have an impact on the planning area governed by the Capitol Area Plan (GC Section 8160.1). Through the Chairman of the Committee, comments, analyses, and recommendations on technical planning matters and issues of the community are reported to the Capitol Area Committee.

CONTACT INFORMATION:

Staff contact is Liz Ames, Associate Construction Aanalyst, DGS, 707 Third Street, Sixth Floor, West Sacramento, CA 95605. Her contact numbers are (916) 376-1831 or fax (916) 376-1833.
