

Report on the

**Disability Access and Education Revolving Fund
April 1, 2016**

**State of California
Edmund G. Brown Jr., Governor**

**Government Operations Agency
Marybel Batjer, Secretary**

**Department of General Services
Daniel C. Kim, Director**

**Division of the State Architect
Chester A. Widom, FAIA, State Architect**

Background

Chapter 383, Statutes of 2012 (Senate Bill 1186 – Steinberg and Dutton) created Government Code Section 4467, which requires any applicant for a local business license or equivalent instrument to pay an additional \$1 fee to the local government that issued the business license. Local governments must submit 30 percent of the fee revenue to the Division of the State Architect (State Architect) for deposit into the Disability Access and Education Revolving Fund (Fund).

Pursuant to Government Code Section 4465, the purpose of the Fund is to provide increased compliance with state and federal accessibility requirements by:

- Increasing the number of certified access specialists (CASps).
- Maintaining State Architect oversight of the CASp program.
- Expanding education and outreach efforts for compliance with accessibility requirements.

SB 1186 also created Government Code Section 4470(c), which requires the State Architect to submit an annual report for the previous calendar year. The State Architect must report the total fees transmitted to the Fund by local governments during the previous calendar year and their distribution, including Fund resources spent on:

- Administrative services.
- Moderating certification and examination fees for the CASp program.
- Establishing and maintaining oversight of the CASp program.
- Developing and disseminating educational materials to facilitate compliance with state and federal access requirements.

Recently enacted legislation, Chapter 25, Statutes of 2015 (SB 84 – Committee on Budget and Fiscal Review) modified reporting requirements in Government Code Sections 4467(d) and 4470(c). With the recent modifications, local governments that collect the \$1 fee must submit their annual report to the State Architect, rather than to previously specified legislative committees. The State Architect's reporting requirements were modified to additionally require the State Architect to report the total fees collected by each local jurisdiction pursuant to Government Code Section 4467, and to extend the State Architect's reporting date from March 1 to April 1.

Information provided in this report is based on accounting data that represents amounts collected by the state from local governments until March 4, 2016, and state billing information indicating amounts spent in each specific reporting category.

Total Fees Transmitted to the Fund

The State Architect received a total of \$578,845.39 from fees collected by local governments for the 2015 calendar year. In addition, the State Architect received \$151,350.24 in late payments attributable to the 2014 calendar year, and \$4,140.60 in late payments attributable to the 2013

calendar year. The State Architect received Fund transmittals from eight of the 10 largest cities in California (excluding the City of San Jose and the City of Los Angeles).

Fund Resources for Administrative Services by the State Architect

The State Architect spent \$248,716.75 of Fund resources for administrative services in 2015. Primary administrative services included: operation of the fee collection system and related instruction, exam administration, recertification of existing CASps, outreach, form development, and technical guidance.

Fund Resources Used to Moderate CASp Certification and Examination Fees

The State Architect spent \$1,190.86 of Fund resources for moderation of CASp certification and examination fees. Major items included the submittal of proposed regulations to the Office of Administrative Law to codify previously reduced application fees for licensed professionals, and preliminary research in consideration of future fee modifications.

Fund Resources Used to Increase Oversight of the CASp Program

The State Architect spent \$66,569.99 of Fund resources to increase oversight of the CASp program. Major items included submittal of proposed regulations to the Office of Administrative Law to strengthen audit procedures and to address CASp conduct and discipline. The proposed CASp program regulations are currently proceeding through the Office of Administrative Law's rulemaking process.

Fund Resources Used for Education and Outreach

The State Architect spent \$190,783.31 for education and outreach. The State Architect conducted outreach to more than 50,000 business owners through partnerships with business property associations, chambers of commerce, and the Department of General Services' Procurement Division's Small Business and Disabled Veterans Business Enterprise unit. The State Architect increased awareness of the CASp program to business and commercial property owners through website and form updates, newsletters, email blasts, and by providing local jurisdictions marketing materials about the CASp program for distribution when businesses pay their \$1 fee. The State Architect also participated in several events upon request from state legislators to educate the business communities within their districts about the benefits of the CASp program. The State Architect continued its outreach to CASps and CASp candidates through six sessions of the CASp 101 training class, and distribution of the CASp Report, a quarterly newsletter.

Total Fees Collected by Each Local Jurisdiction

Local governments that collected the \$1 fee reported collecting a total of \$1,234,692.32 for the 2015 calendar year. Out of 409 local governments that submitted 2015 fees to the State Architect, 257 submitted an annual report. Ten additional cities submitted annual reports indicating they collected fees in 2015, but had not submitted any 2015 funds to the State Architect when this report was published. Additionally, two cities reported the fact that they did not collect fees in 2015. In total, the State Architect had received annual reports from 269 local

governments by the time this report was published. The State Architect continues to work with local governments that did not submit fees and/or annual reports in order to inform them of their requirements under Government Code Section 4467. The Appendix indicates the 2015 Fund payments transmitted to the State Architect by each local government, whether the local government submitted an annual report, and (when reported) the total fees collected by each local government for the 2015 calendar year. Local governments that are not listed in the Appendix neither transmitted 2015 funds nor submitted an annual report.
